A Good Marine's Murder Sep 08 2020 Colonel Jack Adams crashes an AV-8B, Harrier in the middle of a North Carolina bean field. The task of sorting out the cause of his friend's accident falls to Colonel Dan Breakheart, the Second Marine Air Wing's Safety Officer. Within days of the start of his investigation, Breakheart realizes that not only sabotage was indeed a factor regarding his friends death, but that it may be murder as well. Using information Adams' wife provides, Breakheart begins delving into the last few days of his friend's life. With the help of a young and lovely NADEP engineer and his best buddy, Major "Snake" Burns, he must solve the mystery quickly, but puts himself in harms way to smoke the malefactor into a confession. PRAISE FOR DAVID C. CORBETT'S A GOOD MARINE'S MURDER "Great story-grabber right from the prologue. You don't need me to tell you that your descriptions of Marine Corps life and flying were right on the money! I felt like I was there the whole way." -Major General Richard A. Gustafson, USMC (Ret) " I read this book in two days 11 chapters the fist day and then finished it off early in the morning of the second day. I had a hard time putting it down, as I was so hooked into the story and my familiarity with everything in the book from Cherry Point, Harriers, fighter pilots, O'Club, Memorials for fellow pilots, Hancock Yacht Club and its regatta, the Wing HQ, the Commanding General and Assistant Wing Commander, Chief of Staff and G-3, NIS, NADEP, and Marine officer wives. I was held captive, but it was exactly what I like reading about and kept me wanting more." -Major General Michael Sullivan, USMC (Ret.)

At All Hazards Jan 13 2021 Set against the turmoil of the late spring of 1975, "At All Hazards" tells the tale of the fall of Saigon to the rapidly approaching North Vietnamese Army. At the same time, however, a small team of embittered US veterans (Special Forces, Marines, and SEALs) has taken on a more personal task: stealing the crates of gold bullion lying in the vaults of the National Bank of South

Vietnam. First, however, they must purloin expense money from a pair of CIA 'puzzle box' banks, one each in Paris and London, and, once in-country, procure enough military hardware (including a stolen tank) to fight their own 'little war' within the larger war raging around them. Then, too, they have to figure out a way to get it all out of town. As the roads are impassable and the NVA controls all waterways leading to the South China Sea, the only way out left to them is the sky. But everyone else in Saigon, both the tiny remaining US presence and its many allies among the South Vietnamese, are scrambling to get out the same way, using any aircraft, fixed wing or rotor, still flying. The team also has a unique problem: the gold weighs sixteen tons. Throw in a truck or two capable of carrying it, and the team itself, and they're going to need to find themselves one hell of an airplane. .

Beyond K Street Jul 27 2019 The rough and violent areas of K Street were no place a kid should be left alone, but for fifteen-year-old Micah Tate, it was home. It was never a fit for him, but he fought to survive in it as long as he could. He maneuvered through its courtyards and learned to live in it. When Micah's only options in life became to go to prison for a long time, or become the property of the state, he willingly submitted to a new life and direction. Still reeling from the sudden passing of his wife, Mr. Rudolph Pfeiffer, a seventy-seven-year-old fearless, no-nonsense leader hesitantly took in the teen. Micah was tough, but Mr. Pfeiffer was tougher. Micah was not afraid to stand up for himself nor speak his mind, but neither was Mr. Pfeiffer. When their toughness clashed, Mr. Pfeiffer never backed down, and his hardness prevailed over Micah every time. But when their roughness matched, it was the perfect element to build a solid bond between the two of them. Although Mr. Pfeiffer greatly missed and longed to be with his late wife of five decades, he focused on Micah. Despite the infuriating meddling from Micah's past, Mr. Pfeiffer never gave up on him. Despite threats to Micah's future, Mr. Pfeiffer was a shield for him. Micah moved away from K street, but it was Mr. Pfeiffer's guidance, patience, and lessons on unfairness, economic disadvantages, and broken relationships that taught Micah how to live beyond K Street. **Beyond K Street: Journey to Redemption** reveals the journey of Micah and the young man he became as a result of Mr. Pfeiffer.

Design Engineering Manual

Oct 02 2022 Design Engineering Manual offers a practical

guide to the key principles of design engineering. It features a compilation of extracts from several books within the range of Design Engineering books in the Elsevier collection. The book is organized into 11 sections. Beginning with a review of the processes of product development and design, the book goes on to describe systematic ways of choosing materials and processes. It details the properties of modern metallic alloys including commercial steels, cast irons, superalloys, titanium alloys, structural intermetallic compounds, and aluminum alloys. The book explains the human/system interface; procedures to assess the risks associated with job and task characteristics; and environmental factors that may be encountered at work and affect behavior. Product liability and safety rules are discussed. The final section on design techniques introduces the design process from an inventor's perspective to a more formal model called total design. It also deals with the behavior of plastics that influence the application of practical and complex engineering equations and analysis in the design of products. Provides a single-source of critical information to the design engineer, saving time and therefore money on a particular design project. Presents both the fundamentals and advanced topics and also the latest information in key aspects of the design process. Examines all aspects of the design process in one concise and accessible volume.

Manual of Tests and Criteria _____ Apr 27 2022 The Manual of Tests and Criteria contains criteria, test methods and procedures to be used for classification of dangerous goods according to the provisions of Parts 2 and 3 of the United Nations Recommendations on the Transport of Dangerous Goods, Model Regulations, as well as of chemicals presenting physical hazards according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS). As a consequence, it supplements also national or international regulations which are derived from the United Nations Recommendations on the Transport of Dangerous Goods or the GHS. At its ninth session (7 December 2018), the Committee adopted a set of amendments to the sixth revised edition of the Manual as amended by Amendment 1. This seventh revised edition takes account of these amendments. In addition, noting that the work to facilitate the use of the Manual in the context of the GHS had been completed, the Committee considered that the reference to the "Recommendations on the Transport of Dangerous Goods" in the title of the Manual was no longer appropriate, and decided that from now on, the Manual should be entitled "Manual of Tests and Criteria".
