Killing Me Softly Oct 07 2020 Killing Me Softly is a radical and compelling examination of the current euthanasia debate. Frustrated by continuing controversy and political inaction in this area, prominent activists Philip Nitschke and Fiona Stewart present a powerful argument in favour of our right to die as we choose. Their concerns include the way in which the medical profession has assumed 'ownership' of death, and the fact that existing laws restrict our end-of-life choices. They offer a future where a 'Peaceful Pill' could revolutionise euthanasia just as the contraceptive pill transformed birth control a generation ago. This book is recommended reading, not just for those who already believe we have the right to choose a dignified death but also for anyone still to be persuaded . . .

God is Killing Me Nov 19 2021 As if the title of this book doesn't provoke you enough to want to know what this book is about; the book chronicles some of the details of my faith walk and asks the question, "Who is god and what does god require of you?" Despite what you think, the antithesis of what you believe is true. There is an inherent desire in each of us to know the answer to this question. Until you have the climactic battle with who you are and what your purpose is, then you might find some commonalities with the ideas and thoughts expressed in this book. I wrote this book to provoke the thoughts and feelings of both believers and nonbelievers alike. Unintentionally, I set out on a path of personal disclosure and spiritual discovery as an introspective journey through my stages of faith from "a church-goer" to a "believer," and there is a difference that can fully be defined by the role that god has in one's life. Is he revered as a selfish, authoritative ruler who controls us with fear? Contrary to my experiential realities which I have experienced in my twenty-four-year walk in relationship versus religion. Experiencing great tragedies and triumphs and some extraordinary moments of revelation within my personal, professional, and spiritual walk. The primary theme which is prevalent throughout continues to be "the evidential presence of god's hand throughout the phases of my life which corrected me, directed me, connected me, and convicted me to the crucifying of the mind of the flesh.

Your Song Changed My Life Jan 28 2020 From the beloved host and creator of NPR's All Songs Considered and Tiny Desk Concerts comes an essential oral history of modern music, told in the voices of iconic and up-and-coming musicians, including Dave Grohl, Jimmy Page, Michael Stipe, Carrie Brownstein, Smokey Robinson, and Jeff Tweedy, among others—published in association with NPR Music. Is there a unforgettable song that changed your life? NPR's renowned music authority Bob Boilen posed this question to some of today's best-loved musical legends and rising stars. In *Your Song Changed My Life*, Jimmy Page (Led Zeppelin), St. Vincent, Jónsi (Sigur Rós), Justin Vernon (Bon Iver), Cat Power, David Byrne (Talking Heads), Dave Grohl (Nirvana, Foo Fighters), Jeff Tweedy (Wilco), Jenny Lewis, Carrie Brownstein (Portlandia, Sleater-Kinney), Yusuf Islam (Cat Stevens), Colin Meloy (The Decemberists), Trey Anastasio (Phish), Jackson Browne, Valerie June, Philip Glass, James Blake, and other artists reflect on pivotal moments that inspired their work. For Wilco's Jeff Tweedy, it was

discovering his sister's 45 of The Byrds' "Turn, Turn, Turn." A young St. Vincent's life changed the day a box of CDs literally fell off a delivery truck in front of her house. Cat Stevens was transformed when he heard John Lennon cover "Twist and Shout." These are the momentous yet unmarked events that have shaped these and many other musical talents, and ultimately the sound of modern music. A diverse collection of personal experiences, both ordinary and extraordinary, *Your Song Changed My Life* illustrates the ways in which music is revived, restored, and revolutionized. It is also a testament to the power of music in our lives, and an inspiration for future artists and music lovers. Amazing contributors include: Jimmy Page (Led Zeppelin), Carrie Brownstein (Sleater-Kinney, Portlandia, Wild Flag), Smokey Robinson, David Byrne (Talking Heads), St. Vincent, Jeff Tweedy (Wilco), James Blake, Colin Meloy (The Decemberists), Trey Anastasio (Phish), Jenny Lewis (Rilo Kiley), Dave Grohl (Nirvana, Foo Fighters), Yusuf Islam (Cat Stevens), Sturgill Simpson, Justin Vernon (Bon Iver), Cat Power, Jackson Browne, Michael Stipe (R.E.M.), Philip Glass, Jónsi (Sigur Rós), Hozier, Regina Carter, Conor Oberst (Bright Eyes, and others), Courtney Barnett, Chris Thile (Nickel Creek, Punch Brothers), Leon Bridges, Sharon Van Etten, and many more.

Politics of Rightful Killing Aug 24 2019 In the early 2000s, mainstream international news outlets celebrated the growth of Weblogistan—the online and real-life transnational network of Iranian bloggers—and depicted it as a liberatory site that gave voice to Iranians. As Sima Shakhsari argues in *Politics of Rightful Killing*, the common assumptions of Weblogistan as a site of civil society consensus and resistance to state oppression belie its deep internal conflicts. While Weblogistan was an effective venue for some Iranians to “practice democracy,” it served as a valuable site for the United States to surveil bloggers and express anti-Iranian sentiment and policies. At the same time, bloggers used the network to self-police and enforce gender and sexuality norms based on Western liberal values in

ways that unwittingly undermined Weblogistan's claims of democratic participation. In this way, Weblogistan became a site of cybergovernmentality, where biopolitical security regimes disciplined and regulated populations. Analyzing online and off-line ethnography, Shakhsari provides an account of digital citizenship that raises questions about the internet's relationship to political engagement, militarism, and democracy.

But when we read books written by people of different cultures, we learn we're not that different after all." - Karen Bernardo, American writer and novelist.
