The Linguistic Typology and Representation of African Languages Jun 19 2021 For the thirty-third consecutive year, the Annual Conference on African Linguistics (ACAL) has provided the major forum for the discussion of linguistic data geared towards understanding how African languages are constituted, acquired and used. This volume represents a selection of 25 peer-reviewed papers from the 33rd AWAL held in March 2002 at Ohio University in Athens. The papers cover language acquisition, syntax, phonetics, phonology, morphology, historical linguistics, as well as language use and function in Africa.

Anthropological Perspectives on the Religious Uses of Mobile Apps May 07 2020 This edited volume deploys digital ethnography in varied contexts to explore the cultural roles of mobile apps that focus on religious practice and communities, as well as those used for religious purposes (whether or not they were originally developed for that purpose). Combining analyses of local contexts with insights and methods from the global subfield of digital anthropology, the contributors here recognize the complex ways that in-app and on-ground worlds interact in a wide range of communities and traditions. While some of the case studies emphasize the cultural significance of use in local contexts and relationships to pre-existing knowledge networks and/or non-digital relationships of power, others explore the globalizing and democratizing influences of mobile apps as communication technologies. From Catholic confession apps to Jewish Kaddish assistance apps and Muslim halal food apps, readers will see how religious-themed mobile apps create complex sites for potential new forms of religious expression, worship, discussion, and practices.

Time Notes Nov 12 2020 In this groundbreaking book, Wynn Davis shares over 100 time management principles that will help you accomplish more while working less. This innovative, thought-provoking book has bite-sized chapters packed with practical ideas for using time effectively in every area of your life. You will learn: • How to set goals that get results • A plan for your day that works • Eleven

proven ways to cure procrastination once and for all • A simple technique to help you deal with deadlines
• An easy, nine-step guide for organizing your home • The simple formula that will keep you motivated for life
• Life's greatest time waster—and how you can protect yourself from it • The most effective way to zip through paperwork
• Five easy planning steps, and how they can revolutionize your life • How to use the rule of the vital few and the trivial many to leverage your time
• How to use the science of signals to guide your choices • The best tools, and how to use them And much, much more... Time Notes brings the very best time management ideas into one simple, easy-to-use guide.

Advances and New Trends in Environmental and Energy Informatics Dec 14 2020 This book presents the latest findings and ongoing research in the field of green information systems and green information and communication technology (ICT). It provides insights into a whole range of cross-cutting topics in ICT and environmental sciences as well as showcases how information and communication technologies allow environmental and energy efficiency issues to be handled effectively. The papers presented in this book are a selection of extended and improved contributions to the 28th International Conference on Informatics for Environmental Protection dedicated to ICT for energy efficiency. This book is essential and particularly worth reading for those who already gained basic knowledge and want to deepen and extend their expertise in the subjects mentioned above.

Security and Privacy in Communication Networks Jul 09 2020 This book constitutes the thoroughly refereed post-conference proceedings of the 9th International ICST Conference on Security and Privacy in Communication Networks, held in Sydney, Australia, in September 2013. The 26 revised full papers presented were carefully reviewed and selected from 70 submissions. The papers are grouped in topical sections on: security and privacy in mobile, sensor and ad hoc networks; malware, botnets and distributed denial of service; security for emerging technologies: VoIP, peer-to-peer and cloud computing; encryption and key management; security in software and machine learning; network and system security model; security and privacy in pervasive and ubiquitous computing.

Catastrophe and Systemic Change: Learning from the Grenfell Tower Fire and Other Disasters Feb 02 2020 The Grenfell Tower tragedy was the worst residential fire in London since World War II. It killed seventy-two people in the richest borough of one of the wealthiest countries in the world. Like other catastrophic events before it and since, it has the power to bring about lasting change. But will it? The historical evidence is weighed against 'lessons being learned' in a meaningful or enduring way. In an attempt to understand why, despite enormous efforts, we persistently fail to learn from catastrophic events, this book uses the details of the Grenfell fire as a case study to consider why we don't learn and what it would take to enable real systemic change. The book explores the myths, the key challenges and the conditions that inhibit learning, and it identifies opportunities to positively disrupt the status quo. It offers an accessible model for systemic change, not as a definitive solution but rather as a framework to evoke reflection, enquiry and proper debate. Catastrophe and Systemic Change is a must-read book for a wide range of readers including those interested in change management, leadership, policy-making, law, housing, construction and public safety.

The Law Times Jan 03 2020

Mobile Platforms, Design, and Apps for Social Commerce Apr 29 2022 While social interactions were once a personal endeavor, more contact is now done virtually. Mobile technologies are an ever-expanding area of research which can benefit users on the organizational level, as well as the personal level. Mobile Platforms, Design, and Apps for Social Commerce is a critical reference source that overviews the current state of personal digital technologies and experiences. Highlighting fascinating topics such as M-learning applications, social networks, mHealth applications and mobile MOOCs, this publication is designed for all academicians, students, professionals, and researchers that are interested in discovering more about how the use of mobile technologies can aid in human interaction.

Microsoft Word Introduction and Certification Study Guide (Microsoft 365 Apps and Office 2019) Mar 05 2020 Combining two books in one, Microsoft Word Introduction and Certification Study Guide serves as a training guide for Microsoft Word and a study guide for the Word Certification Exam. Students, professionals, beginners and more experienced users alike can all benefit from this manual. Learn how to create well-formatted, high-quality documents by following along with chapters that focus on six exam topics. These topics closely follow what is needed to ace the exam but also provide comprehensive information for everyday Word users. Careful descriptions and helpful tips for when and how to use important features are provided. Images and screenshots make the steps easy to follow and remember. Each topic starts out with the basics and builds to more complicated steps. Those taking the exam will find practical tips on how to locate a testing center, register for the exam, and get the best score possible, along with study materials including practice exam software and video tutorials for every outcome in the book. Whatever your reason for studying Word, this manual will develop your skills, bolster gaps in your knowledge, and give you the confidence to get certified. Why certification is important Microsoft Word Certification is an easily verifiable way to showcase your willingness to learn new skills and software, and it provides a myriad of other benefits as well. Not only can certification enhance your Word skills, it can help you get hired, boost academic performance, prepare for the demands of a job, open doors to career opportunities, and be more productive and confident working on projects at school, home, or work. Microsoft Word (Microsoft 365 Apps and Office 2019) certification is the first step to prove your skill level and open doors to career opportunities. Outline of the book The dual nature of this book helps you build a strong foundation in Word and prepares you for the exam. The first chapter gets you started right away opening Word and learning about the user interface and important terminology. For those interested in taking the exam, it includes how to register for the exam and find an exam center, tips on using your time wisely during the exam, and information on scores and retaking the exam. The next six chapters cover

all of the topics you need to become proficient in Word and coincide with the objective domain categories in the Microsoft Word Certification Exam: Manage Documents; Insert and Format Text, Paragraphs, and Sections; Manage Tables and Lists; Create and Manage References; Insert and Format Graphic Elements; and Manage Document Collaboration. Short video tutorials are included for every single outcome in the book, 95 in all, for when you need extra help or learn best by observation. Word practice exam software included Unlike any other Word exam manual available, this book includes Word practice exam software. The final chapter focuses on the practice exam software, which closely mimics the format of the real exam. Custom-built and specially designed by SDC Publications, this practice exam software can be taken multiple times so you are comfortable with the real test software, how to mark and return to questions, question format, live in-application steps, and how the results are presented. Study materials for all learning styles • Custom-made Practice Exam Software • 95 short narrated video tutorials for every outcome in the book • End-of-chapter self-exam and review questions • 75 Flashcards • Exam Day Study Guide About the author Daniel John Stine AIA, CSI, CDT, is a registered architect with over twenty years of experience in the field of architecture. Throughout these years of professional practice, Stine has leveraged many of the Microsoft Office products to organize and manage complex projects. In addition to Microsoft Office certification study guides, Stine has written multiple books on architectural design software, all written using Microsoft Word and published by SDC Publications

The Business of iPhone and iPad App Development Jan 27 2022 The phenomenal success of the iPhone, iPad and the iPod touch has ushered in a "gold rush" for developers, but with well over 300,000 apps in the highly competitive App Store, it has become increasingly difficult for new apps to stand out in the crowd. Achieving consumer awareness and sales longevity for your iOS app requires a lot of organization and some strategic planning. Updated and expanded for iOS 4, this bestselling book will show you how to incorporate marketing and business savvy into every aspect of the design and development process, giving your app the best possible chance of succeeding in the App Store. The Business of iPhone and iPad App Development was written by experienced developers with business backgrounds, taking you step-by-step through cost effective marketing techniques that have proven successful for professional iOS app creators—perfect for independent developers on shoestring budgets. No prior business knowledge is required. This is the book you wish you had read before you launched your first app!

Paper Apps Jul 01 2022 Paper apps: Books with the look and feel of a video game! 50 challenging levels with a fun new concept that makes even the smallest of mazes challenging. Time to put the screens away and pick up a paper app. Help Baw the cat find his favorite snacks in a scenic world of grasslands and lagoons. Much more fun than your ordinary maze! There's a little learning curve for kids and adults alike, that will surely get the whole family thinking.

Apps Management and E-Commerce Transactions in Real-Time Jun 07 2020 Technology is continuously advancing and changing the way aspects of business are performed. The implementation of mobile business transactions to acquire various types of goods has changed the landscape of consumerism. Apps Management and E-Commerce Transactions in Real-Time is a timely research publication that features the latest scholarly trends, issues, and implications of the use of a new technological forum in electronic buying and selling. Including extensive coverage on a number of topics and perspectives such as social networks, customer satisfaction, and cloud computing, this book is ideally designed for researchers, academicians, and students seeking current research on mobile solutions in business deals.

HCI International 2020 - Late Breaking Papers: User Experience Design and Case Studies May 31 2022 This book constitutes late breaking papers from the 22nd International Conference on Human-Computer Interaction, HCII 2020, which was held in July 2020. The conference was planned to take place in Copenhagen, Denmark, but had to change to a virtual conference mode due to the COVID-19 pandemic. From a total of 6326 submissions, a total of 1439 papers and 238 posters have been accepted for publication in the HCII 2020 proceedings before the conference took place. In addition, a total of 333 papers and 144 posters are included in the volumes of the proceedings published after the conference as "Late Breaking Work" (papers and posters). These contributions address the latest research and development efforts in the field and highlight the human aspects of design and use of computing systems. The 54 late breaking papers presented in this volume were organized in two topical sections named: User Experience Design and Evaluation Methods and Tools; Design Case Studies; User Experience Case Studies.

Robin Williams Cool Mac Apps Oct 12 2020 This popular book shows readers how to take advantage of the iLife '08 applications that to many are the coolest parts of using a Mac. Through tutorials, tips, and techniques readers will learn how to use each of the powerful applications -- individually and as part of an integrated, interactive suite. Robin and John also cover the features of the immensely popular .Mac Web Gallery, which enables you to share your iPhoto library with family and friends with just a few clicks. Friendly, practical instructions will have new and veteran Mac owners using all that's new in the suite in no time. They'll find everything about getting on the Internet and using email; using the way-cool iChat AV, which adds audio and video to instant messaging; using iTunes, including access to the iTunes Music Store; the new video library in iMovie; new organization and editing tools in iPhoto; new animated themes in iDVD; and much more!

Information Technology and Open Source: Applications for Education, Innovation, and Sustainability 17 2021 This book constitutes revised selected papers from the following SEFM 2012 satellite events: InSuEdu, the First International Symposium on Innovation and Sustainability in Education; MokMaSD, the First International Symposium on Modelling and Knowledge Management for Sustainable Development and Open Cert, the 6th International Workshop on Foundations and Techniques for Open Source Software Certification, held in Thessaloniki, Greece, in October 2012. The total of 14 regular papers and 7 short papers included in this volume were carefully reviewed and selected from 35 submissions. The papers cover

Apr

the topics related to the use of Information and Communication Technology (ICT) and Open Source Software (OSS) as tools to foster and support Education, Innovation and Sustainability.

Best iPhone Apps Sep 22 2021 With over 250,000 apps to choose from in Apple's App Store, you can make your iPhone or iPod Touch do just about anything you can imagine -- and almost certainly a few things you would never think of. While it's not hard to find apps, it is frustratingly difficult to find the the best ones. That's where this new edition of Best iPhone Apps comes in. New York Times technology columnist J.D. Biersdorfer has stress-tested hundreds of the App Store's mini-programs and hand-picked more than 200 standouts to help you get work done, play games, stay connected with friends, explore a new city, get in shape, and more. With your device, you can use your time more efficiently with genius productivity apps, or fritter it away with deliriously fun games. Play the part of a local with brilliant travel apps, or stick close to home with apps for errands, movie times, and events. Get yourself in shape with fitness programs, or take a break and find the best restaurants in town. No matter how you want to use your iPhone or iPod Touch, Best iPhone Apps helps you unlock your glossy gadget's potential. Discover great apps to help you: Get work done Connect with friends Play games Juggle documents Explore what's nearby Get in shape Travel the world Find new music Dine out Manage your money ...and much more!

Paper Maps, No Apps Oct 04 2022 What starts off as a dare turns into a social experiment that becomes a way of life. A young couple creates a fun way to stay connected by disconnecting. Unplugging the phones and being present are the rules. This travel adventure quickly turns into a self-deprecating comedy about bad smartphone habits. Chance encounters and characters met on the road are intertwined throughout. Is the smartphone addiction phenomenon driving you crazy? Are we relying too much on instant technology? There can be life without these devices, but where is this balance between the tech and physical worlds? Discover how reduction in technology can lead to your serendipitous adventure. WARNING: Strange things might happen, like conversations and live interactions. You may even develop an insatiable desire for traveling unplugged.

110 Amazing Apps for Education Sep 10 2020 Here's an easy-to-use, quick reference guide for apps that supplement student learning. It gives suggestions for how teachers can implement each app in the classroom and for how parents can use the apps at home to extend their child's learning. This resource is correlated to the Common Core State Standards, is aligned to the interdisciplinary themes from the Partnership for 21st Century Skills, and supports core concepts of STEM instruction.

Decisions of the Federal Labor Relations Authority Oct 24 2021

Computer Security Feb 13 2021 This book constitutes the refereed post-conference proceedings of the Second International Workshop on Information & Operational Technology (IT & OT) security systems, IOSec 2019, the First International Workshop on Model-driven Simulation and Training Environments, MSTEC 2019, and the First International Workshop on Security for Financial Critical Infrastructures and Services, FINSEC 2019, held in Luxembourg City, Luxembourg, in September 2019, in conjunction with the 24th European Symposium on Research in Computer Security, ESORICS 2019. The IOSec Workshop received 17 submissions from which 7 full papers were selected for presentation. They cover topics related to security architectures and frameworks for enterprises, SMEs, public administration or critical infrastructures, threat models for IT & OT systems and communication networks, cyber-threat detection, classification and pro ling, incident management, security training and awareness, risk assessment safety and security, hardware security, cryptographic engineering, secure software development, malicious code analysis as well as security testing platforms. From the MSTEC Workshop 7 full papers out of 15 submissions are included. The selected papers deal focus on the verification and validation (V&V) process, which provides the operational community with confidence in knowing that cyber models represent the real world, and discuss how defense training may benefit from cyber models. The FINSEC Workshop received 8 submissions from which 3 full papers and 1 short paper were accepted for publication. The papers reflect the objective to rethink cyber-security in the light of latest technology developments (e.g., FinTech, cloud computing, blockchain, BigData, AI, Internet-of-Things (IoT), mobile-first services, mobile payments).

Centaurus paper apps Mar 29 2022

Beginning Power Apps Apr 05 2020 Transform the way your business works with easy-to-build apps. With this updated and expanded second edition, you can build business apps that work with your company's systems and databases, without having to enlist the expertise of costly, professionally trained software

developers. In this new edition, business applications expert Tim Leung offers step-by-step guidance on how you can improve all areas of your business. He shows how you can replace manual or paper processes with modern apps that run on phone or tablet devices. For administrative and back-office operations, he covers how to build apps with workflow and dashboard capabilities. To facilitate collaboration with customers and clients, you'll learn how to build secure web portals with data entry capabilities, including how to customize those portals with code. This hands-on new edition has 10 new chapters—including coverage on model-driven and portal apps, artificial intelligence, building components using the Power Apps Component Framework, using PowerShell for administration, and more—complete with context, explanatory screenshots, and non-technical terminology. What You Will Learn Create offline capable mobile apps and responsive web apps Carry out logic, data access, and data entry through formulas Embellish apps with charting, file handling, photo, barcode, and location features Set up Common Data Service, SharePoint, and SQL data sources Use AI to predict outcomes, recognize images, and analyze sentiment Integrate apps with external web services and automate tasks with Power Automate Build reusable code and canvas components, make customizations with JavaScript Transfer apps and data, and secure, administer, and monitor Power Apps environments Who This Book Is For Beginners and non-developers, and assumes no prior knowledge of Power Apps

Friction Is Fiction: the Future of Content, Media and Business Jun 27 2019 Futurist Gerd Leonhard (www.mediafuturist.com) shares his thoughts on the Future of Content, Media and Business. 'Friction is Fiction' presents a constantly updated compilation of Gerd's best essays, writings and most popular blog posts. The central meme is that the Internet has completely disrupted the traditional notion of generating higher income by simply taking advantage of possible friction points and hurdles within transactions or business processes, i.e. by controlling the 'people formerly known as consumers'. The Future is all about winning the trust, and turning attention into revenues.PS: because of the cost of on-demand production, this 4-color version is unfortunately rather expensive (but nice); please look for the \$20 B&W version here on Lulu if you want to save some \$. Plus: if you just can't swing the few \$ for the PDF, here, just ping me via www.twitter.com/gleonhard and I will send you the link to a free, lower-resolution PDF version

Human-Computer Interaction. Interaction in Context Aug 22 2021 The 3 volume-set LNCS 10901, 10902 + 10903 constitutes the refereed proceedings of the 20th International Conference on Human-Computer Interaction, HCI 2018, which took place in Las Vegas, Nevada, in July 2018. The total of 1171 papers and 160 posters included in the 30 HCII 2018 proceedings volumes was carefully reviewed and selected from 4346 submissions. HCI 2018 includes a total of 145 papers; they were organized in topical sections named: Part I: HCI theories, methods and tools; perception and psychological issues in HCI; emotion and attention recognition; security, privacy and ethics in HCI. Part II: HCI in medicine; HCI for health and wellbeing; HCI in cultural heritage; HCI in complex environments; mobile and wearable HCI. Part III: input techniques and devices; speech-based interfaces and chatbots; gesture, motion and eye-tracking based interaction; games and gamification.

Future Challenges in Security and Privacy for Academia and Industry Aug 29 2019 This book constitutes the refereed proceedings of the 26th IFIP TC 11 International Information Security Conference, SEC 2011, held in Lucerne, Switzerland, in June 2011. The 24 revised full papers presented together with a keynote talk were carefully reviewed and selected from 100 submissions. The papers are organized in topical sections on malware, information flow and DoS attacks, authentication, network security and security protocols, software security, policy compliance and obligations, privacy attacks and privacy-enhancing technologies, risk analysis and security metrics, and intrusion detection.

HCI International 2021 -- Posters Dec 02 2019 The three-volume set CCIS 1419, CCIS 1420, and CCIS 1421 contains the extended abstracts of the posters presented during the 23rd International Conference on Human-Computer Interaction, HCII 2021, which was held virtually in July 2021. HCII 2021 received a total of 6326 submissions, of which 1439 papers and 238 posters were accepted for publication in the pre-conference proceedings after a careful reviewing process. The 238 poster papers presented in these three volumes are organized in topical sections as follows: Part I: HCI theory and methods; perceptual, cognitive and psychophysiological aspects of interaction; designing for children; designing for older people; design case studies; dimensions of user experience; information, language, culture and media. Part II: interaction methods and techniques; eye-tracking and facial expressions recognition; human-robot interaction; virtual, augmented and mixed reality; and privacy issues in HCI; AI and machine learning in HCI. Part III: interacting and learning; interacting and playing; interacting and driving; digital wellbeing, eHealth and mHealth; interacting and shopping; HCI, safety and sustainability; HCI in the time of pandemic.

Decisions of the Federal Labor Relations Authority Nov 24 2021 Contains tables of decisions under the Federal Service Labor-Management Relations Statute; by agency; by labor organization; and by individual. Main body includes texts of decisions.

Bitcoin For Traders Aug 10 2020 Learn how to trade Bitcoin profitably and safely, with professional day trader and trading coach Harvey Walsh. The price of bitcoin soared more than 1,300% in 2017. Not a bad return for anyone who bought at the start of the year, but savvy traders made considerably more. By trading price movements in both directions, those in the know were able to make huge profits, and now Harvey Walsh is going to pull back the curtain and show you how you can do the same. In Bitcoin For Traders, you will learn - Exactly what Bitcoin is, and how it works. - Both conventional and unconventional ways of trading cryptocurrencies like Bitcoin. - Why Bitcoin arbitrage is harder than you think. - How to use multiple exchanges to unearth hidden trade opportunities. - A little-known virtually

risk-free and zero-effort method to profit from Bitcoin and other cryptocurrencies. - How to easily set yourself up as your own Bitcoin exchange to profit from the spread. - The hidden traps that lurk in every corner of the Bitcoin world, and how to steer well clear of them. - All the tools you need to get started, where to find the best ones (for free), and how to use them to get ahead of the other traders in the market. - How to spend your Bitcoin trading profits at the world's biggest store, and get a discount into the bargain. Bitcoin has often been referred to as the 'Wild West' of finance, and with good reason. There are more ways to lose money with Bitcoin than any other kind of trading, and no shortage of scammers and hackers eager to get their hands on your profits. So as well as showing you how to trade these exciting new markets for maximum returns, Harvey also teaches you how to stay safe. Written in his well-known chatty style, Bitcoin For Traders avoids unnecessary technical jargon and buzzwords, making it fun and simple to learn. Bitcoin doesn't have to be complicated. If you already trade, this book will help you make the transition in no time at all. And if you've never traded before, two detailed appendices will get you up to speed with the basics, and present you with proven and profitable strategies you can use to begin trading today.
