The Science Of Religion Aug 02 2022 Religion or faith in fundamental principles is the foundation upon which the edifice of reasoning or science is built upon. While it is a religion that binds us into courses of action consistent with those fundamental principles, it is a science that enables us to stay clear of inconsistent systems of guiding principles and to practically attain the goals posited by our principles. The Science of Religion by Paramahansa Yogananda arrives by analysis at inner happiness or bliss as the goal that binds all men.

Being Ram Dass Jan 03 2020 "Ram Dass lived a full life and then some. His final statement is thorough and, yes, enlightening." —Kirkus Reviews Perhaps no other teacher has sparked the fires of as many spiritual seekers in the West as Ram Dass. If you've ever embraced the phrase "be here now," practiced meditation or yoga, tried psychedelics, or supported anyone in a hospice, prison, or homeless center—then the story of Ram Dass is also part of your story. From his birth in 1931 to his luminous later years, Ram Dass saw his life as just one incarnation of many. This memoir puts us in the passenger seat with the one-time Harvard

psychologist and lifelong risk-taker Richard Alpert, who loved to take friends on wild rides on his Harley and test nearly every boundary—inner or outer—that came his way. Being Ram Dass shares his life's odyssey in intimate detail: how he struggled with issues of self-identity and sexuality in his youth, pioneered psychedelic research, and opened the doorways to Eastern spiritual practices. In 1967 he trekked to India and met his guru, Neem Karoli Baba. He returned with a perspective on spirituality and psychology that changed millions. Featuring 64 pages of color photographs, this intimate memoir chronicles the cultural and spiritual transformations Ram Dass experienced that resonate with us to this day, a journey from the mind to the heart, from the ego to the soul. Before, after, and along these waypoints, readers will encounter many other adventures and revelations—each ringing with the potential to awaken the universal, loving divine that links us to this beloved teacher and all of us to each other.

Art of Super-Realization Oct 24 2021 By the correct practice of Kriya fourteen times, Maha Mudra twice, and Yoti Mudra twice, twelve years of evolution of body, mind and soul will be

gained in a few minutes. Mind can do everything. Through this practice, the time limitation in evolution is overcome, and the receptive power of the spine, brain and mind is increased, so that the Yogi knows, sees and feels all form within. Yoga is the super-method by which the evolution of body, mind and soul can be quickened. That is how the attainment of wisdom and realization, which usually takes a million years and numerous incarnations of natural evolution, is possible in one lifetime. By this exercise, the consciousness which is in the body, and which is identified with the senses, is transferred to the spine and the brain, and thus transmitted into Superconsciousness and Cosmic

Consciousness. Kriya is an initiation into Cosmic Consciousness, or the transfer of consciousness from the body to the spirit. In order to do this, one must transfer consciousness from the senses to the spine. After practicing Kriya and resting for a short while, one is able to do inspired work in connection with literature, art or science. Then intuition develops of itself, without effort, because one's consciousness is transferred from the senses to the spine and brain. Realization can come only by the development of one's intuition. Remember that through the practice of this lesson you will contact Christ, and the prophets of this world, and through them you will find your union with God the Infinite Spirit.
