A Practical Manual of Laparoscopy and Minimally Invasive Gynecology Jul 10 2021 Laparoscopy is one of the standard techniques used by all gynecologic surgeons. This clearly written and beautifully illustrated practical manual describes in detail the technical aspects of both diagnostic and operative laparoscopy and the most useful therapeutic procedures. The exquisitely rendered color drawings demonstrate surgical technique far more effectively than competing photographic atlases. The editors have brought together an internationally renowned group of authors to contribute their knowledge and expertise in the field of laparoscopy. The new edition is a thorough revision and covers all newly emerging techniques and operative equipment.

[Scene Design and Stage Lighting](#) Jun 16 2019 Now in full color and packed with professional information and cutting-edge technologies, SCENE DESIGN AND STAGE LIGHTING, Tenth Edition, equips you with the most up-to-date coverage available on scenery, lighting, sound, and technology. Completely current, the exciting new tenth edition has two new chapters on digital integration in scene design and lighting design (Chapters 12 and 13), a new chapter on getting work in the profession (Chapter 28), and mirrors the best of real-world practices. Vibrant color production photographs support the text and spotlight examples of contemporary work. The book retains its strong emphasis on modern technology, with many changes in the lighting design and sound design chapters, reflecting the latest practices. The text also includes an expanded section on television design, as well as an emphasis on health and safety issues. The authors emphasize collaboration in all sections of the text, and they provide insight via interviews with professional lighting and scenery designers in two features: Working Professionals and Designers at Work. Reflecting current professional practice, SCENE DESIGN AND STAGE LIGHTING, Tenth Edition, offers in-depth coverage of a broad range of topics, making it the most detailed and comprehensive text available in the scenic, lighting, and sound design fields.
