It's designed to have you on the selling side of life. It will teach you how to best win over others by building rapport and trust! You'll accomplish this in a surprisingly short period of time. Your customer is looking to you to be their consultant guide and get them the answers they are searching for. If you apply what you learn in this book with all of its sales tools you will make more sales and greater profits. Even if you are a seasoned salesperson, this book will increase your income. If you are new to the business, you'll find making sales easy and enjoyable. In life you are either buying or selling! From family, friends or just people you met, like a new customer. They could be selling you on the best movies to see, what restaurant to eat at, or the right person to vote for. The list is endless! You will learn how to read your customer's body language. This will help you interpret what they're thinking even before they utter a word! You will know what they are saying and what it means to them on a subconscious level. Even when they are unsure themselves, you will still be able to read their intentions. Studies have shown that 55% of what we communicate is through body language. This is why it's so important to learn to read the signs the human body is sending you. Human beings are constantly sending out signals and if you can read them you can know which way to direct the conversation. You will learn to pause and redirect your customer when you can see the customer is not understanding or is in disagreement with what's being said. Studying body language will be of great value to you in the sales process! For example, humans have a natural barrier of about 2 feet to 4 feet that surrounds them so that when a stranger enters that area they will feel uncomfortable, it's designed to protect us. You will learn how to have your customer remove the barrier for you and open up to you. When done right, you will build long-term relationships which will not only sell your customer, but their family and their friends as well. They will come away feeling like they have known you for long time! Learning to build rapport while handling objections, fact-finding, negotiating, and closing are just a few things this book will provide you. You will learn to use the signs you observe and play them back to your customer in a positive manner. Done right, you can reach their subconscious mind and gain their approval. There have been studies which found people don't buy because of price, they buy because they like their salesperson. You will sell by getting your customer to believe in you, like you, and trust you while you are gently guiding your customer into buying from you! Through word-of-mouth, you will sell many vehicles for years to come and you will develop some good friendships along the way! You will find that the happier a customer is, the greater the reviews you will receive, and this of course will increase your business! If you want to be successful in life you have to create your own destiny by being prepared. This book will allow you to take control and make your sales career a great success. There is even a section on technology and how important this is in today's market. The author will show you how you can use technology to make your life easier and more efficient. You'll receive the benefit of Mr. Quinones' background in psychology, and his 30 years of car sales experience, to help make your sales career a success. This book will provide you with an advantage over other salespeople and you will find yourself at the top of your sales group every month. You're not looking just to sell; you're looking to be the best, wouldn't you agree? There is a lot of sales secrets in this book, so you may have to read it several times to absorb it all. You will find that it will be worth your time to buy this book!

Inside the Minds of Car Dealers [Oct 02 2020](#) Before his epiphany, Ray Lopez was every car buyer's "worst nightmare" ... but not before he had them believing he was their new best friend! A car salesman for 30 years, Lopez was trained to analyze potential clients for quick psychological profiles so he could tailor his approach to push all their hot buttons and convince—or coerce—they into purchasing the car HE wanted them to buy at the price HE said they could afford. Lopez doesn't take all the credit, however. The entire dealership was in on the game, from the service managers to the showroom staff to the car porters, taking cues from him to deliver their pitches, too. Even before customers stepped onto the lot, they were manipulated by the car dealership! But, the cold slap of reality left its mark on his face when Lopez cut a fair deal on a Mustang GT convertible for his brother. "We're here to make money on everybody! You steal every last dollar you can get!" screamed his manager as Lopez's brother drove off the lot. "If you can't f___ your own family and brag about it afterwards, you don't belong here!" Thanks to that wake-up call, Lopez quit to happily finish out his career at one of the few honest, reputable U.S. dealerships. Although he can't undo any of the deals he drove down consumers' throats before his revelation, Lopez made it his goal to expose the uncouth practices of car dealers by educating the people on every dirty detail, questionable sales practice and untold secret of how dealerships con the public. Before buying another car, let Ray Lopez, a former "swift talking, blood-sucking salesperson" and author of Inside the Minds of Car Dealers give you a look under the hood of dealerships to show you every trick that will be used against you! Learn every single psychological ploy and manipulative scheme typical auto dealers employ to squeeze every last dime out of your pocket—all while you're being sold a car you may not even want! Discover in detail the 12 crucial dos and don'ts to car buying from a seasoned insider. This comprehensive, tell-all car buying guide holds nothing back!

The Thought of Snow [Dec 16 2021](#) My Journey We've all got a few demons inside us, Some that walk beside us, Some that fight us, They all try to find us, Some to control us and ride us, But we're the ones that are riding, Down this path, Who begin slipping and gliding, It's frightening when we become blinded and can't see a way out, I couldn't find him, The boy that I used to call Ed, He led me into the dark, Made me temporarily dead, Now his temper is dead, And so is he, So, goodbyes must be said, I won't cry, But my head is leaking, My thoughts keep on seeping, Into these poems, Some obvious, Some discretely, Some slowly, Some quickly, Some funny, Some sick themes, Because what I went through was sickening, I'll start with topics that are rather dark, Suicidal thoughts, Self-harm, One broken heart, Delusions about noughts, Anger that's calm, And all the other things that left marks, Both physical and mental, I was typically mental, I became temperamental, And my temper became mental, Only calmed by instrumentals, My Instagram went mental, Posting pics in the shower, Retweeting anything and everything for hours, I'd forgotten I was a coward, But it took all of this for me to blossom and flower, I thought I had powers, And thought I could wow crowds, But today will I wow crowds, With a poem about dark clouds, And drugs, And violence, And everything violet, That colour kept me silent, Brought me peace, I couldn't fight it, Now I write and like it, And type things, About how life felt when I was psychotic, That's my new topic, Why? Because I can't top it, In the summer of 2016, I couldn't stop it, My brain was moving faster than a 214-ton rocket, But I still don't want to crop it out, Because why would I want that to happen, It gives me something to talk about, Helps me with my rapping, Helps me find my passion, That I know I'm not lacking, Because I wasn't acting, I was simply extracting, Everything negative that I was attacking, So my mind began battling, It was baffling, But to tell you the end of this little story, It's not like the rest it's actually quite boring, But it's beautiful like the scars that used to be sore, And the things that distressed me that now give me glory, Like my book, Just look, And you'll see someone who took, All the pain that they felt, Rearranged it and shook, It around until it looked, Something like the person you see today, Who can finally say, I'm more than just... There are now stacks of ways to buy cars in the UK. So many that it is really hard for consumers to know where to get best choice, best value, best service, best after-care, best credit or whatever it is that they prioritise. In addition to franchised dealers there are: manufacturers selling direct to the public; rental car companies doing the same; car-buying agents; car supermarkets; used car dealers; internet traders; importers; auctions; and personal shoppers. Most car buying guides concentrate on WHAT to buy whether it be new or used. This book covers that, but assumes the buyer knows roughly what he wants. What has been missing until now is a guide through the jungle of places and prices which tells you WHERE to buy and HOW to pay not a penny more than necessary.
