*World-whizzing Facts* Aug 22 2021 'Never mind the kids, I've had an education from reading this book! ... Recommended for any budding scientists, eco-warriors or fans of weird facts' Rachel Riley, TV presenter and mathematician 'The best way to get out of being bored is discovering something new. The great thing about this book is it whizzes you off to a world of facts you had never heard of. Result: not being bored. Result!' Michael Rosen, Children's poet and author 'Every page bursting with fantastic facts you never thought you needed to know. Indispensable, planet-saving, fact-tastic fun for all the family!' Dallas Campbell, BBC Science presenter In this new book, TV science expert Dr Emily Grossman answers incredible and important questions about our natural world. You'll find out silly things like why some animals do square-shaped poos and which direction a dog is likely to face while weeing, but you'll also learn what climate change and wildlife loss are actually doing to our planet and what YOU can do to help. Covering a diverse range of key science topics, from human biology and animals and plants to the weather and space, Dr Emily shows readers why Earth is so weird and wonderfully great. Did you know there's a planet in our solar system where it actually rains diamonds? Imagine that! If you lived there, you'd always be picking them out of your hair, your pockets and probably your pants! Dr Emily also tackles Earth's BIGGEST problem: climate change. Through clear, sensitive explanations, you'll find out what is actually happening to our Earth and what this means for both humans and wildlife - and what we can all do to help! Written by TV science expert, STEM ambassador and advocate for women in science Dr Emily Grossman, this book will make your eyebrows rise, your jaw drop and your world WHIZZ! It will also give you hope about our future and how we can ALL make a difference. 'I love this book! It's funny, accessible and quirky and has exactly the right balance of questions and information to light the flame of scientific inquiry in young minds. A must-read for all budding young scientists' Lucy Hawking, Children's science author 'Since we got this book, all my kids want to talk about is diamond rain, tuna fish eyeballs and how to save the planet ... thank goodness Emily has written down the answers to their insatiably curious questions in a single handy and hilarious volume' Helen Arney, Science presenter, comedian and author Emily Grossman's first book Brain-fizzing Facts: Awesome Science Questions Answered was shortlisted for the Teach Primary Book Awards 2020.

**Heart Beats** Sep 10 2020 Many people in Great Britain and the United States can recall elderly relatives who remembered long stretches of verse learned at school decades earlier, yet most of us were never required to recite in class. Heart Beats is the first book to examine how poetry recitation came to assume a central place in past curricular programs, and to investigate when and why the once-mandatory exercise declined. Telling the story of a lost pedagogical practice and its wide-ranging

effects on two sides of the Atlantic, Catherine Robson explores how recitation altered the ordinary people who committed poems to heart, and changed the worlds in which they lived. *Heart Beats* begins by investigating recitation's progress within British and American public educational systems over the course of the nineteenth and twentieth centuries, and weighs the factors that influenced which poems were most frequently assigned. Robson then scrutinizes the recitational fortunes of three short works that were once classroom classics: Felicia Hemans's "Casabianca," Thomas Gray's "Elegy Written in a Country Churchyard," and Charles Wolfe's "Burial of Sir John Moore after Corunna." To conclude, the book considers W. E. Henley's "Invictus" and Rudyard Kipling's "If--," asking why the idea of the memorized poem arouses such different responses in the United States and Great Britain today. Focusing on vital connections between poems, individuals, and their communities, *Heart Beats* is an important study of the history and power of memorized poetry.

How to Raise Kids Who Won't Hate You Jun 27 2019 Let's face it-kids have hated their parents since the beginning of time. The goal is to minimize the tension and find the happy ending. Is it possible to raise a child who doesn't blame you for everything? According to author, actor, and father Alan Thicke, the answer is a resounding "maybe!" Of course, you can assure your kids' devotion if you do the following: Buy them everything they want Agree that homework is for losers Answer questions about sex by offering your room and body lotions Or learn from Alan's more practical and entertaining solutions, with input from respected psychologists, educators-and parole officers With chapters like "Honey, I Screwed Up the Kids!," "Why Does Daddy Throw Like a Girl?" and "When Grownups Go Bad," "How to Raise Kids Who Won't Hate You" will take you on a wild ride. You'll laugh out loud at Thicke's twist on everything from homework to the prom, and find answers to questions like "Are my children playing the right games with the right kids at the right schools? How will I handle her first swear word and his first dead pet-or his first fight and her first unrequited crush? Are we being good enough friends and tough enough parents?" Delve into the pages of "How to Raise Kids Who Won't Hate You" and get ready to learn, love, and laugh.

International Handbook on Alcohol and Culture Jul 09 2020 The first authoritative guide to how the world drinks, this reference details alcohol use in different countries and cultures. Variation is striking, with alcohol sometimes a food, a sacrament, a symbol, a tool, a tranquilizer, a medicine, a love potion, or an object of scorn—often with very different meanings and uses in a single country. This volume reveals multicultural and ethnic beliefs, practices, and attitudes about drinking around the world. An extensive introduction discusses the close link between alcohol and culture and provides a foundation for the rest of the book. Each of the following chapters is written by an expert contributor and discusses alcohol and culture in a particular country. Chapters discuss historical trends, drinking among ethnic and religious minorities, national policies, and social outcomes. Countries range from industrial nations known for their alcohol research, to developing nations and to places famous for drinking. A concluding chapter highlights important similarities and differences.

The Greenwood Encyclopedia of Children's Issues Worldwide Feb 13 2021 From the skyrocketing AIDS rate in Haiti to the oppressive pollution in industrial China, from the violent street culture of Nigeria to the crippling poverty in Nicaragua, from child trafficking in Thailand to child marriages in India, this jam-packed six-volume set explores all these issues and more in an unprecedented look at the world's children at the dawn of the 21st century. In recent years, while many countries have enjoyed a higher standard of living and improved working conditions, others have been torn apart by war and incapacitated by famine, and are struggling to improve life for their children and their future. Recent concern over the world's children has resulted in a global attempt to define what constitutes an acceptable childhood. New attention has been paid, not only to healthcare and secondary education, but also to the right to play and increased access to technology. The UN's codification of children's rights has done much to expand our understanding of what is needed for healthy growth and development of children and youth. Organized by region, *The Greenwood Encyclopedia of Children's Issues Worldwide* is the first globally focused set of this magnitude, offering extensive, up-to-date coverage of these critical issues. Original chapters accessibly synthesize current data on key topics, including education, play and recreation, child labor, family, health, laws and legal status, religious life, abuse and neglect, and growing up in the 21st century.--Provided by publisher.

The Boy Who Made the World Disappear Apr 29 2022 \*\*\*\*PRE-ORDER BEN MILLER'S LATEST BOOK, THE DAY I FELL INTO A FAIRYTALE, OUT 1 OCTOBER 2020!\*\*\*\* Following the breakout success of his instant festive classic, *The Night I Met Father Christmas*, get ready for the brilliant new novel from comedian, actor and bestselling author, Ben Miller! 'Stories are often about a good person who does a Bad Thing, and this is no exception...' Harrison tries his best to be good. He doesn't steal, he always shares with his sister and he never cheats at board games, but Harrison also has a BIG flaw ... He can't control his temper! So when he's given a black hole instead of a balloon at a party, Harrison jumps at the chance to get rid of everything that makes him cross. But when it's not just things he hates that are disappearing into the black hole but things he loves, too, Harrison starts to realise that sometimes you should be careful what you wish for... An out-of-this-world adventure about twists of fate, time travel and troublesome black holes, Ben Miller's stunning storytelling is brought to life with beautiful illustrations from emerging talent Daniela Jaglenka Terrazzini. Praise for *The Night I Met Father Christmas*: 'A gorgeous tale brimming with the magic of Christmas. A sheer delight for all kids both big AND small.' The Indigo Children Ten Years Later Sep 03 2022 "The Indigo Children? Oh yeah . . . I know about them! Wasn't there a movie about that? They're those special kids who do psychic things and who have dark blue auras, right?" If that's your take on the Indigos, then you really need to read this book. The Indigo Children are not super-psychic kids with dark blue auras. In fact, the Indigo moniker has nothing to do with auras or being psychic. Some of these teenagers are actually the ones who are strapping on bombs and bringing guns to school, so you can see that the subject here is far more profound than the sensational hype that often accompanies it. This book is all about the children of our planet, what really might be happening with them, why they do what they do, and what we can do to help them and our educators survive all this. In addition, the Indigos are slowly beginning to join the work force (gasp)! Join Lee Carroll and Jan Tober, the original authors of *The Indigo*

Children, for a profound and frank discussion of this topic, ten years later. After all this time, what do some in higher education say about these kids? What do industry leaders say? Humanity is evolving, so you should definitely be aware of what these individuals are saying. It's time to stop the circus that has been created around this subject and get down to finding out how to help these children survive an earth they don't understand . . . or perhaps it's just you they don't understand. . . . Join the leaders of education and industry who speak out in this book for a peek into the real issues surrounding the Indigos, and perhaps the future of humanity!

**The Boy At the Back of the Class** Dec 26 2021 A World Book Day 2020 Author WINNER OF THE BLUE PETER BOOK AWARD 2019 WINNER OF THE WATERSTONES CHILDREN'S BOOK PRIZE 2019 SHORTLISTED FOR THE JHALAK PRIZE 2019 Told with heart and humour, *The Boy at the Back of the Class* is a child's perspective on the refugee crisis, highlighting the importance of friendship and kindness in a world that doesn't always make sense. There used to be an empty chair at the back of my class, but now a new boy called Ahmet is sitting in it. He's nine years old (just like me), but he's very strange. He never talks and never smiles and doesn't like sweets - not even lemon sherbets, which are my favourite! But then I learned the truth: Ahmet really isn't very strange at all. He's a refugee who's run away from a War. A real one. With bombs and fires and bullies that hurt people. And the more I find out about him, the more I want to help. That's where my best friends Josie, Michael and Tom come in. Because you see, together we've come up with a plan. . . With beautiful illustrations by Pippa Curnick

**Children as Researchers in Primary Schools** Oct 12 2020 How often do your primary school pupils have the opportunity to engage in open-ended, sustained pieces of work that offer them choice and control? Do you find that the curriculum restricts openings to provide your pupils with real challenge? Is your school grappling with finding effective ways in which to elicit authentic pupil voice? *Children as Researchers in Primary Schools* is an innovative and unique resource for practitioners supporting children to become 'real world' researchers in the primary classroom. It will supply you with the skills and ideas you need to implement a 'children as researchers' framework in your school that can be adapted for different ages and abilities. Children in primary schools are accustomed to being set short-term goals and are often unaware of long-term aims or of the connections between the concepts and skills they are learning. In contrast, this book demonstrates that children engaging in the research process have authentic opportunities to apply invaluable personal, learning and thinking skills while managing their own projects, making their 'voices' heard and experiencing increased levels of engagement and self-esteem. Based on the author's 4-year research study exploring the experiences of young researchers and teachers in primary schools, and on her considerable experience of training young researchers, this book also contains: the history and theory behind 'children as researchers' initiatives; a model for good practice based on successful real life case studies; questions for reflective practice; practical examples of research in the classroom; photocopyable resources; opportunities for self-evaluation. This comprehensive resource will be appeal to primary teachers, educational practitioners and students on CPD and ITT courses. It will also be of interest to teacher trainers, to academics involved in teaching and research and to all those interested in promoting children's voices.

*How High Should Boys Sing?* Mar 17 2021 'A boy sings...a beautiful thing' (www.boychoirs.org), but is it? What kinds of boy, singing what kinds of music and to whom? Martin Ashley presents a unique consideration of boys' singing that shows the high voice to be historically, culturally and physiologically more problematic even than is commonly assumed. Through Ashley's extensive conversations with young performers and analysis of their reception by 'peer audiences', the research reveals that the common supposition that 'boys don't want to sound like girls' is far from adequate in explaining the 'missing males' syndrome that can perplex choir directors. The book intertwines the study of singing with the study of identity to create a rich resource for musicians, scholars, teachers and all those concerned with young male involvement in music through singing. The conclusions of the book will challenge many attitudes and unconsidered positions through its argument that many boys actually want to sing but are discouraged by a failure of the adult world to understand the boy mind. Ashley intends the book to stand as an indictment of much complacency and myopia with regard to the young male voice. A substantial grant from the Arts and Humanities Research Council has enabled the production of a multi-media resource for schools, choirs and youth organizations called Boys Keep Singing. Based on the contents of this book, the resource shows how, once the interest of boys is captured in primary schools, their singing can be sustained and developed through the difficult but vital early secondary years of ages 11 - 14, about which this book says so much. The resource is lavishly illustrated by short films of boys singing, supported by interviews with boys and their teachers, and a wealth of of animated diagrams and cartoons. It is available to schools and organizations involved in musical education through registration at [www.boys-keep-singing.com](http://www.boys-keep-singing.com).

*Caught in Crossfire* Jun 07 2020 Since the start of the current troubles, Northern Ireland's children have been the focus of much media attention. Variously portrayed as innocent victims of adult violence or unwitting accomplices in the continuing conflict, they have featured widely in the press and on television. But just how accurate is this popular image of children 'caught in crossfire'? Ed Cairns has gone behind the dramatic, headline snatching consequences of growing up in Northern Ireland to examine the more subtle, long-term effects. How do children become aware of the violence around them? How do they become involved—directly or indirectly—in it? How is their moral and political development affected by their situation? And what is it that so effectively ensures the perpetuation of the bitterness and violence between the two sections of the community from generation to generation? These and other key questions are investigated in this important book. It is essential reading for everyone concerned about children growing up in Northern Ireland.
