*The Successful Novelist* Jan 14 2021 David Morrell has been a successful novelist for more than forty years, an eternity when many literary careers end after twenty years. His debut novel FIRST BLOOD introduced the character of Rambo, an international icon that became the basis for a blockbuster movie franchise. His classic espionage novel THE BROTHERHOOD OF THE ROSE was the basis for the only television miniseries to be broadcast after a Super Bowl. An Edgar, Anthony, and Macavity nominee, David received three Bram Stoker awards and the prestigious thriller master award from International Thriller Writers, among other honors. During his numerous decades in the publishing world, David has seen vast changes, and yet the principles of effective fiction writing remain the same. Using a conversational tone that will make you think he is actually speaking to you, he describes every facet of writing fiction, including the all-important "Why do you want to do something this insane?" His chapters about description and dialogue will instantly improve your writing. His discussions about the business of writing and the world of Hollywood will give you a rare insider's look behind closed doors. His advice about how to get published and about self-publishing will help you chart your course. But The Successful Novelist is more than a how-to book. It will teach you about yourself as well as about your writing. It will help you find your own unique voice and subject matter, the essential elements of a long, successful career. Praise for THE SUCCESSFUL NOVELIST "This is the best guidebook to both writing and the business of writing that I've ever read." —Peter Straub, New York Times bestselling author of Ghost Story "I found the acute observations and [David Morrell's] narrative philosophy more valuable for the new writer than the contents of any 100 other texts." —Dean Koontz, New York Times bestselling author of Innocence "If this book had been available when I started writing, I could have saved myself some miles, some heartache, and a lot of typewriter ribbons. The Successful Novelist is the vehicle you want if you plan to drive your way to successful fiction." —Joe R. Lansdale, New York Times bestselling author of Edge of Dark Water "David Morrell's not just a fine writer; he's also a great and generous teacher. This book's a keeper." —Lawrence Sanders, New York Times bestselling author of A Walk among the Tombstones "David Morrell isn't just one of the best thriller writers out there; he's one of the finest writers alive today. A preeminent novelist as well as storyteller." —Providence Journal

**Ethics of Armed Conflict** Feb 01 2020 Just war theory exists to stop armies and countries from using armed force without good cause. But how can we judge whether a war is just? In this original book, John W. Lango takes some distinctive approaches to the ethics of armed conflict. DT A revisionist approach that involves generalising traditional just war principles, so that they are applicable by all sorts of responsible agents to all forms of armed conflict DT A cosmopolitan approach that features the Security Council DT A preventive approach that emphasises alternatives to armed force, including negotiation, nonviolent action and peacekeeping missions DT A human rights approach that encompasses not only armed humanitarian intervention but also armed invasion, armed revolution and all other forms of armed conflict Lango shows how these can be applied to all forms of armed conflict, however large or small: from interstate wars to UN peacekeeping missions, and from civil wars counter-insurgency and counter-terrorism operations.

**Career Development and Systems Theory** Jul 28 2019 Career Development and Systems Theory: Connecting Theory and Practice offers practitioners, researchers and students a comprehensive introduction to, and overview of, career theory; introduces the Systems Theory Framework of career development; and demonstrates its considerable contemporary and innovative application to practice. A number of authors have identified the framework as one of a small number of significant innovations in the career development literature. The Systems Theory Framework of career development was developed to provide coherence to the career development field by providing a comprehensive conceptualisation of the many existing theories and concepts relevant to understanding career development. It is not designed to be a theory of career development; rather systems theory is introduced as the basis for an overarching, or metatheoretical, framework within which all concepts of career development, described in the plethora of career theories, can be usefully positioned and utilised in both theory and practice. It has been applied to the career development of children, adolescents and women. Since its first publication, the Systems Theory Framework has been the basis of numerous publications focusing on theoretical application and integration, practice and research, with a growing number of these by authors other than the framework developers. Its application across cultures also has been emphasised. The theoretical and practical unity of the Systems Theory Framework makes this book a worthy addition to the professional libraries of practitioners, researchers and students, new to, or experienced in, the field of career development.

**Alice Guy Blaché** Feb 12 2021 Alice Guy Blaché (1873-1968), the world's first woman filmmaker, was one of the key figures in the development of narrative film. From 1896 to 1920 she directed 400 films (including over 100 synchronized sound films), produced hundreds more, and was the first--and so far the only--woman to own and run her own studio plant (The Solax Studio in Fort Lee, NJ, 1910-1914). However, her role in film history was completely forgotten until her own memoirs were published in 1976. This new book tells her life story and fills in many gaps left by the memoirs. Guy Blaché's life and career mirrored momentous changes in the film industry, and the long time-span and sheer volume of her output makes her films a fertile territory for the application of new theories of cinema history, the development of film narrative, and feminist film theory. The book provides a close analysis of the one hundred Guy Blaché films that survive, and in the process rewrites early cinema history.

**Thus Have I Seen** Apr 16 2021 This book offers a new approach to understanding Buddhist lay and monastic practice by recognizing the crucial role that visual practices played in Indian Buddhism in the early centuries of the Common Era. In the genre of Indian Buddhist narratives known as avadana, most lay religious practice consists not of reading, praying, or meditating, but of visually engaging with certain kinds of objects. The key for understanding the Buddhist conceptualization about the world and the ways it should be navigated is found, in these stories, in ways of seeing and the results of seeing.

*The Ethics of Giving* Oct 23 2021 In giving to charity, should we strive to do the greatest good or promote a lesser good that we care more about? On such issues, ethical theory can have momentous practical effects. This volume is a unique collection of new papers on philanthropy from a range of philosophical perspectives. The authors are among the best-regarded philosophers writing on ethics today and include a number of thinkers who have not previously published on the subject. Most recently published work by philosophers on charitable giving tends to support what is called effective altruism—doing the most good you can. In practice, however, charitable giving is often local and relatively ineffective, supporting causes dear to the givers' hearts. Are ineffective givers doing wrong or merely doing less praiseworthy work than they might? This volume includes at least three challenges to the effective altruism movement, as well as two chapters that defend it against the gathering tide of objections. Most thinkers who align with utilitarianism support effective altruism, and some other perspectives do as well. But the ideal of personal integrity can push the other way. So can justice-based theories of giving: perhaps I could do the most good by stealing and giving to the poor, but that would be unjust. In the most important cases, however, justice leads to the same result as effective altruism. Other theories give different results. The authors represent include intuitionism, virtue ethics, Kantian ethics, utilitarianism, theory of justice, and the ideal of personal integrity.

**The Making of Buddhist Modernism** Jun 30 2022 A great deal of Buddhist literature and scholarly writing about Buddhism of the past 150 years reflects, and indeed constructs, a historically unique modern Buddhism, even while purporting to represent ancient tradition, timeless

teaching, or the "essentials" of Buddhism. This literature, Asian as well as Western, weaves together the strands of different traditions to create a novel hybrid that brings Buddhism into alignment with many of the ideologies and sensibilities of the post-Enlightenment West. In this book, David McMahan charts the development of this "Buddhist modernism." McMahan examines and analyzes a wide range of popular and scholarly writings produced by Buddhists around the globe. He focuses on ideological and imaginative encounters between Buddhism and modernity, for example in the realms of science, mythology, literature, art, psychology, and religious pluralism. He shows how certain themes cut across cultural and geographical contexts, and how this form of Buddhism has been created by multiple agents in a variety of times and places. His position is critical but empathetic: while he presents Buddhist modernism as a construction of numerous parties with varying interests, he does not reduce it to a mistake, a misrepresentation, or fabrication. Rather, he presents it as a complex historical process constituted by a variety of responses -- sometimes trivial, often profound -- to some of the most important concerns of the modern era.

**Justice for Ella** Oct 11 2020 On a Sunday afternoon in 1959 in Shuqualak, Mississippi, Ella and her husband Nelse were arrested in front of their children and hauled off to the notorious Noxubee County Jail. The Gastons were simply in the wrong place at the wrong time--caught up in a manhunt for Nelse's cousin who had allegedly beaten up the city marshal. The court appearances and legal wrangling that followed resulted in Ella's being found guilty of intimidating an officer and the all-white Mississippi Supreme Court reversing and remanding her conviction on grounds of racial prejudice in testimony--a first. To avoid retrial, Ella and Jewell engaged in multiple cat-and-mouse games that placed Ella "sick" in the hospital, Jewell standing guard, and would-be tormenters at bay. Eventually, the women prevailed, Ella remained free, and the story faded away into obscurity--until now.

The Qualified Sales Leader Dec 01 2019 Praise for *The Qualified Sales Leader*: John McMahon has just about single-handedly changed the way enterprise software companies sell. As an executive, board member, advisor, and investor, John has not only coached a generation of companies on selling, but he has also influenced a generation of executives and leaders in technology, Mike Speiser-Managing Director-Sutter Hill Ventures. The learnings in *The Qualified Sales Leader* will help you and your sales team sell more, make more money and grow your career in enterprise sales. Luca Lazzaron-CRO Sprinklr. Most sales books are boring, clinical "textbooks" that "cookie-cutter" a few generic ideas into a monotonous, dull read, that puts you to sleep. *The Qualified Sales Leader* is an easy read, dripping with the fundamentals of enterprise sales. Real world advice that you'll put to use the next day. Chris Degnan-CRO-Snowflake. *The Qualified Sales Leader* is an easy to read book that will absolutely resonate through any enterprise software sales team. Realistic, usable advice for any sales leader or sales rep. If you're in enterprise sales, you'd be crazy not to read this book. Cedric Pech-CRO-MongoDB. Monthly someone asks: "When are you going to write a book". When I ask, "Why?", I'm told, "Because no one has written a sales leadership book with practical, solutions to real life issues in enterprise SaaS sales forces", Why: 6 of 10 sales reps fail, not because they couldn't sell but because they were assigned the wrong accounts. Sales leaders don't align skillsets to account complexity. Rep attrition at most SaaS companies is over 20%. Sales leaders can't recruit A players. Sales Leaders don't coach their reps on deal advancement issues. Most sales leaders are "glorified scorekeepers". Most sales leader don't motivate their sales team. They're focused on deals, not rep competency. Sales forecasts are inaccurate because most reps game the CRM system. Sales team leaders lack qualification of sales stage exit criteria. Many sales forces only win 50% of their proof of concepts. They're unable to frame a winning POC. Criteria because they skip steps 8 of 10.
