Sentential Form and Prosodic Structure of Catalan

Oct 17 2021 This monograph presents an experimental and theoretical inquiry into the role of sentential form and variation in the prosodic structure of Catalan. The empirical section examines intonational phrasing across sentence forms, including SVO structures with either nominal or sentential

3/22

objects and structures involving clitic left- and right-dislocations. The results show variation in phrasing that depends on syntactic factors and non-syntactic factors such as topic-hood and prosodic binarity. The theoretical section uses Stochastic Optimality Theory to model the variation and frequency distributions associated with the observed prosodic patterns. Various syntactic and non-syntactic factors are represented by alignment constraints, which play a major role in Catalan, and by constraints that limit size and those that limit the overall amount of prosodic structure. This study represents a

combined approach to prosody and syntax and is of particular relevance for theoretical and empirical linguists interested in the relationship between these domains both in Catalan and other languages.

Walkable City Oct 25 2019 Jeff Speck has dedicated his career to determining what makes cities thrive. And he has boiled it down to one key factor: walkability. The very idea of a modern metropolis evokes visions of bustling sidewalks, vital mass transit, and a vibrant, pedestrian-friendly urban core. But in the typical

American city, the car is still king, and downtown is a place that's easy to drive to but often not worth arriving at. Making walkability happen is relatively easy and cheap; seeing exactly what needs to be done is the trick. In this essential new book, Speck reveals the invisible workings of the city, how simple decisions have cascading effects, and how we can all make the right choices for our communities. Bursting with sharp observations and real-world examples, giving key insight into what urban planners actually do and how places can and do change, Walkable City lays out a practical, necessary, and eminently achievable vision of

The term refers to physical spaces incorporating pervasive computing technology used to achieve specific goals for the user, the environment or both. This book presents the proceedings of the workshops of the 9th International Conference on Intelligent Environments (IE '13), held in Athens, Greece, in July 2013. The workshops which were presented in the context of this conference range from regular lectures to practical sessions. They provide a forum for

scientists, researchers and engineers from both industry and academia to engage in discussions on newly emerging or rapidly evolving topics in the field. Topics covered in the workshops include artificial intelligence techniques for ambient intelligence; applications of affective computing in intelligent environments; smart offices and other workplaces; intelligent environment technology in education for creative learning; museums as intelligent environments; the application of intelligent environment technologies in the urban context for creating more sociable, intelligent cities and for constructing urban

Green to Gold Jul 22 2019

From the Publishers Weekly review: "Two experts from Yale tackle the business wake-up-call du jour-environmental responsibility-from every angle in this thorough, earnest guidebook: pragmatically, passionately, financially and historically. Though "no company the authors know of is on a truly long-term sustainable course," Esty and Winston label the forward-

thinking, green-friendly (or at least green-acquainted) companies WaveMakers and set out to assess honestly their path toward environmental responsibility, and its impact on a company's bottom line, customers, suppliers and reputation. Following the evolution of business attitudes toward environmental concerns, Esty and Winston offer a series of fascinating plays by corporations such as Wal-Mart, GE and Chiquita (Banana), the bad guys who made good, and the good guys-watchdogs and industry associations, mostly-working behind the scenes. A vast number of topics huddle beneath the umbrella of threats

to the earth, and many get a thorough analysis here: from global warming to electronic waste "take-back" legislation to subsidizing sustainable seafood. For the responsible business leader, this volume provides plenty of (organic) food for thought. "

Llamado a la mision pacífica

Aug 23 2019 Bartolomé de las Casas aparece en esta obra como el religioso que, convencido de la potencia de la propuesta cristiana, quiere ofrecerla en toda pureza, por ello reclama la Misión Pacífica. En este ensayo, se afronta el problema desde tres perspectivas: en la primera, de contenido histórico-filosófico, se estudia la compleja situación

cultural en la que se desarrollo el pensamiento y la acción del dominico sevillano; en la segunda parte, se muestran las diferentes concepciones antropológicas, políticas y religiosas que se mantuvieron en las distintas controversias en torno a la novedad del "encuentro" y a las relaciones entre ambas orillas; y en a tercera se afrontan tres problemas principales: la leyenda negra , la influencia de Las Casas como precursor de la definición contemporánea de libertad religiosa y el requerimiento de una disponibilidad moral.

Coming to Our Senses Jul 14 2021 Coming to Our Senses positions affect, or feeling, as our new cultural compass, ordering the parameters and possibilities of what can be known. From Facebook "likes" to Coca-Cola "loves," from "emotional intelligence" in business to "emotional contagion" in social media, affect has displaced reason as the primary catalyst of global culture. Through examples of

feeling in the books, film, music, advertising, cultural criticism, and political discourse of the United States and Latin America, Reber shows how affect encourages the public to "reason" on the strength of sentiment alone. Well-being, represented by happiness and health, and ill-being, embodied by unhappiness and disease, form the two poles of our social judgment, whether in affirmation or critique. We must then reenvision contemporary politics as operating at the level of the feeling body, so we can better understand the physiological and epistemological conditions affirming our cultural status

Biblioteca del cine español

Jan 20 2022 Desde sus orígenes fundacionales, a finales del siglo XIX, hasta su realidad en el presente, a comienzos del XXI, una parte decisiva y con frecuencia harto reveladora del cine español ha mantenido siempre nutritivas raíces hundidas en la producción literaria que alimenta numerosas parcelas y ámbitos sustanciales de su

creatividad fílmica. La tarea de rastrear y localizar esas raíces, sacarlas a la luz, expurgar la maleza que con frecuencia las ha recubierto -e incluso adulterado- durante años y años, documentarlas adecuadamente y proponer una catalogación de éstas es el empeño de la presente publicación, concebida para levantar acta de la Biblioteca de referencia que se oculta, o que mantiene sus cimientos, bajo centenares y centenares de películas. A diferencia de otros trabajos que la preceden con parecidos o equivalentes objetivos, esta Biblioteca del cine español no es una radiografía de las relaciones entre el cine español y la

literatura española, sino de los vínculos creativos que mantiene el cine español con todas las formas literarias (directas o paralelas) que alimentan nuestro cine, provengan éstas de donde provengan, pertenezcan a un género o a otro, cualquiera que sea el idioma en el que se expresen o el país en el que tengan origen; es decir, las obras literarias españolas y extranjeras, las estrictamente narrativas (la gran novela y el relato corto) y las teatrales (del gran drama escénico a la revista musical, de la ópera a la zarzuela), las poéticas, las anónimas y las orales, las radiofónicas y las del cómic, las que nacen de una canción y las

que proceden de un romance popular. Se teje así una tupida y densa red de relaciones intertextuales entre la ficción cinematográfica española y el conjunto de sus bases literarias, a cuyo fructífero entramado intentan arrojar luz estas páginas.

Mata's 19th-century story is complicated by present-day foreword(s), afterword(s), and footnotes from three fiercely quarrelsome and comic voices: a nationalist editor, a neo-Freudian psychoanalyst critic, and a translator, Mimi C. In telling the contested and fragmentary story of Mata, Apostol finds new ways to depict the violence of the Spanish colonial era, and to reimagine the nation's great writer, Jose Rizal, who was executed by the Spanish for his revolutionary activities, and is
