Moment Maker Feb 23 2020 How to Make Every Moment of Every Day Count Every moment of every day, you have a choice to make. You can either let the minutes pass you by or you can claim them for what they are: opportunities to unlock the full depth of life's potential. For Carlos Whittaker, renowned blogger, musician and worship leader, and husband and dad, living deliberately is a way of life. Making moments that are significant, memorable, or impactful are a part of how he navigates each day, and it has forever changed the landscape of his story. In Moment Maker, Carlos explains his methodology for living intentionally and claiming moments that touch the lives of others, whether that be his family, his friends, his colleagues, or total strangers. Carlos isn't asking anyone to make a big investment in time, energy, or money. He is simply uncovering the investment of attention. You don't have to buy tickets to special events or orchestrate elaborate surprises. You just have to be aware—of your surroundings, the people you encounter, the things that interest those important to you, the opportunities that present themselves—and be prepared to seize those moments and see lives changed.  
Stories from Home Jul 18 2019 Most homes in the past were not elite, wealthy interiors complete with high fashion furnishings, designed by well-known architects and designers, as many domestic histories often seem to have assumed. As this book makes clear, there were in fact an enormous variety of house interiors in England during the period 1750-1850, reflecting the location, status and gender of particular householders, as well as their changing attitudes, tastes and aspirations. By focusing on non-metropolitan homes, which represented the majority of households in England, this study highlights the need for historians to look beyond prevailing attitudes that often reduce interiors to generic descriptions based on high fashions of the decorative arts. Instead it shows how numerous social and cultural influences affected the manner in which homes were furnished and decorated. Issues such as the availability of goods, gender, regional taste, income, the second-hand market, changing notions of privacy and household hierarchies and print culture, could all have a significant impact on domestic furnishing. The study ends with a discussion of how domestic interiors of historic properties have been presented and displayed in modern times, highlighting how competing notions of the past can cloud as well as illuminate the issue. Combining cultural history and qualitative analysis of evidence, this book presents a new way of looking at 'ordinary' and 'provincial' homes that enriches our understanding of English domestic life of the late eighteenth and early nineteenth centuries.

The Importance of Feeling English Jan 24 2020 American literature is typically seen as something that inspired its own conception and that sprang into being as a cultural offshoot of America's desire for national identity. But what of the vast precedent established by English literature, which was a major American import between 1750 and 1850? In The Importance of Feeling English, Leonard Tennenhouse revisits the landscape of early American literature and radically revises its features. Using the concept of transatlantic circulation, he shows how some of the first American authors--from poets such as Timothy Dwight and Philip Freneau to novelists like William Hill Brown and Charles Brockden Brown--applied their newfound perspective to pre-existing British literary models. These American "re-writings" would in turn inspire native British authors such as Jane Austen and Horace Walpole to reconsider their own ideas of subject, household, and nation. The enduring nature of these literary exchanges dramatically recasts early American literature as a literature of diaspora, Tennenhouse argues--and what made the settlers' writings distinctly and indelibly American was precisely their insistence on reproducing Englishness, on making English identity portable and adaptable. Written in an incisive and illuminating style, The Importance of Feeling English reveals the complex roots of American literature, and shows how its transatlantic movement aided and abetted the modernization of Anglophone culture at large.

Irishness and Womanhood in Nineteenth-century British Writing Jun 09 2021 Using Lady Morgan's The Wild Irish Girl as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps the genealogy of this development in fiction, political discourse, and the popular press, from Edgeworth's Castle Rackrent through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s.

Forcibly Without Her Consent Nov 02 2020 Why do men abduct women? Are their motives sexual, economic, or social? How crucial is the use of violence? How important is the participation of others? What are the societal consequences of abduction? Answers to these questions can usefully be found in a historical case study of abductions as they occurred in Ireland between 1700 and 1850. Forcibly Without Her Consent describes in detail how abduction was a largely communally-sanctioned exercise in male violence against women, how it depended for success on a well established ritual, how it eluded suppression by the forces of law and order, and how it impacted class structure, marriage, and patterns of rural unrest. In fascinating detail, Thomas Power uncovers the causes and implications of abduction. Reading this book will give you a deep insight into the social origins of abduction.

Reexamining Military Acquisition Reform May 08 2021 In the Department of Defense, 63 distinct acquisition reform (AR) initiatives were undertaken in the 1989-2002 period. This monograph classifies the initiatives according to various criteria: basic AR theme: relationship to acquisition functions; Army recognition: coverage in the DoD 5000 series; relationship to Under Secretary Aldridge's five goals: coverage in Defense Acquisition University curricula; and relationship to industry attractiveness and return-on-investment models. The analysis made use of interviews with industry and Army Program Management personnel, who were asked: What has been good about acquisition reform? What has been bad? What would you change? In general, industry and Army Program Management personnel acknowledge that some good has come from some AR initiatives, but they argue that many serious structural and cultural impediments still remain that hinder the ability of the acquisition process to deliver desired outcomes in terms of cost, schedule, and performance.

Bachelors, Manhood, and the Novel, 1850-1920 Oct 01 2020 Katherine Snyder's study explores the significance of the bachelor narrator, a prevalent but little-recognized figure in premodernist and modernist fiction by male authors, including Hawthorne, James, Conrad, Ford and Fitzgerald. Snyder demonstrates that bachelors functioned in cultural and literary discourse as threshold figures who, by crossing the shifting, permeable boundaries of bourgeois domesticity, highlighted the limits of conventional masculinity. The very marginality of the figure, Snyder argues, effects a critique of gendered norms of manhood, while the symbolic function of marriage as a means of plot resolution is also made more complex by the presence of the single man. Bachelor figures made, moreover, an ideal narrative device for male authors who themselves occupied vexed cultural positions. By attending to the gendered identities and relations at issue in these narratives, Snyder's study discloses the aesthetic and political underpinnings of the traditional canon of English and American male modernism.
