Living on the Cusp - A Memoire Oct 07 2020 Living on the Cusp is an autobiography regarding a colorful life, filled with failures and missed opportunities, but with final success. I, through my life, enjoyed a multitude of various experiences starting by being raised on a large ranch and farming operation with influences from my dramatic parents and older achieving siblings providing a competitive effect while keeping me on a path towards achievements. My perceptions of life have been shaped by being born into the Great Depression, experiencing the events of World War II, being drafted into the U.S. Army during the Korean War, playing my saxophone professionally, being involved in the colorful entertainment industry, working as a professional photographer, and my many business ventures for good or for bad. After my many varied and colorful female relationships I found my loving mate Dorothy, which added to building my success through our thirty-eight years of challenges. My life truly has been that of living on the narrow edge, the cusp, of life while facing the challenges, trauma, and positive events leading to success at the top of my own small, but secure, peak.
