50 Toughest Questions of Life Feb 20 2022 50 Toughest Questions of Life invites people to have a conversation about themselves with themselves. Deepak Ramola's quest began after he was inspired by the life lesson of a young girl who said, 'Life is not about giving easy answers, but answering tough questions.' Over the years, Ramola has amassed life lessons from inspirational sources across the world: from the women of the Maasai tribe to young girls in Afghanistan and sex workers in Kamathipura; from the lessons of earthquake survivors in Nepal to Syrian refugees in Europe, among many more. This book is a collection of fifty such questions that made him pause, along with a bouquet of answers, anecdotes, stories and notes from his journey of teaching human wisdom for a decade. Strikingly fresh, tender, yet searing, these questions will make you reflect and inspire you to push beyond your boundaries.

I Answer with My Life Oct 26 2019 Originally published in 1993. This book shows, through the oral histories of ordinary women teachers, that effective prescriptions for change do not come simply from policy-makers. The author focuses on the narratives of three groups of teachers in the USA: Catholic nuns; secular Jewish women; and Black women. For each of these the individual teachers' narratives have been examined for constructions common to the group and these patterns are assembled into a discourse. Teachers' self-identities are considered, as are their assessments of the institutions in which they have worked, and their relationships with the pupils. The text examines how the social role of the teacher is constructed by the lives of these women. Incorporating this perspective of diversity into the educational debate, this book argues that these less dominant but important voices shouldn't be ignored.

Ultimately people are looking for some form of gain, adventure, fulfilment, enjoyment or challenge, and this may be expressed as a search for the answer to a worthwhile life and this book points the way to it. [63] It includes how to get the best out of life, or make a new start, and shows the steps to be taken using a personal, not formal approach. However, many others make the above claims, but the pathway given here is progressive, offers positive hope and security, and is based on the Christian Faith. (54) [117] The second part of the book provides backing for the earlier claims and goes much further by taking a detailed look at the Christian Faith using biblical scriptures, notes and quotations to explain the main elements of the Faith. It assumes no prior knowledge and avoids jargon. (47) [164]

Grappling with the questions we all have about life, he deconstructs the prevailing spiritual, therapeutic, and self-help methods we use to try to change ourselves. By taking this journey of exploration with him, we come face-to-face with the unknown and the potential for radical transformation. The book asks: How do we apply our spiritual understanding to our daily lives? The author examines our ideas and conditioning regarding spiritual power, enlightenment, emptiness, time, therapy, relationships, work, money, children, and community. Harrison reminds us that even as we 'do something' in our busy lives, we have the natural capacity to find stillness in the midst of action. Harrison suggests that our "life must be based on something more substantial, grounded, and connected than the conceptual self."

Into these essays he put whatever was in his head: his tastes in wine and food, his childhood memories, the way his dog's ears twitched when it was dreaming, events in the appalling civil wars raging around him. The Essays was an instant bestseller, and over four hundred years later, readers still come to him in search of companionship, wisdom and entertainment - and in search of themselves. This first full biography of Montaigne in English for nearly fifty years relates the story of his life by way of the questions he posed and the answers he explored.

Do You Have Kids? May 14 2021 A savvy and validating guide to what might be in store for growing numbers of childfree and childless adults worldwide, *Do You Have Kids? Life When the Answer is No* takes on topics from the shifting meaning of family to what we leave behind when we die. Weaving together wisdom from women ages twenty-four to ninety-one with both her own story and a growing body of research, Kate brings to light alternate routes to lives of meaning, connection, and joy. Today about one in five American women will never have children, whether by choice or by destiny. Yet few women talk much about what not having kids means to their lives and identities. Not that they don't want to; there just aren't obvious catalysts for such open conversations. In fact, social taboos preclude exploration of the topic—and since our family-centric culture doesn't know quite what to do with non-parents, there's potential for childless and childfree women to be sidelined, ignored, or drowned out. Yet there's widespread, pent-up demand for understanding and validating this perfectly normal way of being. In this straight-shooting, exhaustively researched book, women without kids talk candidly about the ways in which their lives differ from societal norms and expectations—the good, the bad, and the unexpected.

The Meaning of Life Dec 21 2021 The phrase "the meaning of life" for many seems a quaint notion fit for satirical mauling by Monty Python or Douglas Adams. But in this spirited, stimulating, and quirky enquiry, famed critic Terry Eagleton takes a serious if often amusing look at the question and offers his own surprising answer. Eagleton first examines how centuries of thinkers and writers--from Marx and Schopenhauer to Shakespeare, Sartre, and Beckett--have responded to the ultimate question of meaning. He suggests, however, that it is only in modern times that the question has become problematic. But instead of tackling it head-on, many of us cope with the feelings of meaninglessness in our lives by filling them with everything from football to sex, Kabbala, Scientology, "New Age softheadedness," or fundamentalism. On the other hand, Eagleton notes, many educated people believe that life is an evolutionary accident that has no intrinsic meaning. If our lives have meaning, it is something with which we manage to invest them, not something with which they come ready made. Eagleton probes this view of meaning as a kind of private enterprise, and concludes that it fails to hold up. He argues instead that the meaning of

life is not a solution to a problem, but a matter of living in a certain way. It is not metaphysical but ethical. It is not something separate from life, but what makes it worth living--that is, a certain quality, depth, abundance and intensity of life. Here then is a brilliant discussion of the problem of meaning by a leading thinker, who writes with a light and often irreverent touch, but with a very serious end in mind. "If you were to ask what provides some meaning in life nowadays for a great many people, especially men, you could do worse than reply 'football.' Not many of them perhaps would be willing to admit as much; but sport stands in for all those noble causes--religious faith, national sovereignty, personal honor, ethnic identity--for which, over the centuries, people have been prepared to go to their deaths. It is sport, not religion, which is now the opium of the people."
