After eighteen years of marriage, Mayflower descendant Mia Meiklejohn Durkheim has just been served divorce papers in a humiliating scene at the popular local restaurant, Golightly's. Mia is now locked and loaded to fight her eminent and ambitious husband, Dr. Daniel Durkheim, Chief of the Department of Pediatric Oncology at Mather Medical School, for custody of their ten-year-old daughter Jane. Mia also burns to take him down a peg. Sophie warns Mia that she's never handled a divorce case before, but Mia can't be put off. The way she sees it, it's her first divorce, too. For Sophie, the whole affair will spark a hard look at her own relationships—with her parents, colleagues, friends, lovers, and, most important, herself. Parental Separation Nov 23 2021 Relationship breakdown is much more common than it was thirty years ago, and parental separation can have a traumatic effect on children, particularly where there is conflict involved. This Green Paper, published by the Department for Education and Skills, the Department for Constitutional Affairs and the Department for Trade and Industry, sets out the Government's proposals for the system determining parental access to children after a relationship breaks down. The proposals are based on the premise that both parents should continue to have a

Proposals include: introducing parenting plans to give parents good practice advice on parenting arrangements; improving access to legal and emotional/practical advice on how to resolve disputes by telephone and via the internet; developing an in-court conciliation system, where courts are focused on problem solving as an alternative to full contested court hearings, where possible; legal aid changes to give incentives for early resolution of disputes; changes to case management procedures in court; better enforcement of court orders; and shifting the emphasis of CAFCASS away from writing reports towards active problem solving and supporting agreements. The consultation proposals cover England and Wales and responses should be sent by 1st November 2004 to

Does Divorce Have a Negative Effect on the Upbringing of Children?

May 18 2021 Seminar paper from the year 2017 in the subject Sociology - Gender Studies, grade: A, , language: English, abstract: This paper focuses on the importance of parents during the upbringing of a child. With a major event, such as a divorce, the children are heavily affected, which can result in a child's emotional problems, suicidal thoughts, stress and trauma. Parents' separation becomes a reason for the child not to get attention, and the bond he used to share with his parents weakens, which leads to a communication distance where a child is no longer able to

to anyone. Alongside, the child's education is also affected. There might be chances they indulge in inappropriate acts including the use of drugs and alcohols or sexual activities. 'Is divorce harmful to children?' is one of the most frequently asked questions in the past two decades about family life. The researchers have chosen this topic because children are the tomorrow of any nation and any harm to their upbringing would affect the entire nation itself. Objectives of this research are to find out ways in which the parents' divorce affects the upbringing of children and solutions to minimize the aftermath of emotional and social stress. The research design consists of different methods through which data is collected. For the study at hand, research is employed which includes both qualitative and quantitative analysis, along with primary and secondary research methods. The Good Divorce Apr 16 2021 It's never too late to have a good divorce Based on two decades of groundbreaking research, *The Good Divorce* presents the surprising finding that in more than fifty percent of divorces couples end their marriages, yet preserve their families. Dr. Ahrons shows couples how they can move beyond the confusing, even terrifying early stages of breakup and learn to deal with the transition from a nuclear to a "binuclear" family--one that spans two households and continues to meet the needs of children. *The Good Divorce* makes an important contribution to the ongoing "family values" debate by dispelling the myth that divorce inevitability leaves emotionally troubles children in its wake. estrangement through the divorce process and on to 4 years after the couples separated. The work is based on the integration of original data with over 50 years of prior research. In addition, it contrasts divorcing people with a comparable sample of people who remain in intact marriages. The book opens with a discussion of today's changing attitudes about marriage and the resulting mixed view of divorce. A new model of divorce adjustment--one that integrates the pathology and crisis models of adjustment and includes elements of loss and change--is outlined. The four sources of study data used for the book are described, as are the ways in which such key elements as subjective distress, attachment, self-esteem, and illness contacts were measured. To address the issue of comparability of the married samples, background characteristics of the suburban, reconciled, and marital transition samples are examined. Also, "risk factors"

The effect of divorce on physical and mental health and the implications of age and other life events on the ability to adjust are described. Parents' initial perceptions of the impact of divorce on their children are reported, as are changes in their perceptions over time. Other topics include economic factors, social support systems, and life after divorce. Finally, analyses are presented that illustrate what factors are associated with better and worse adjustment to divorce for blacks and whites, and men and women, both cross-sectionally and longitudinally. Divorce Casualties Nov 11 2020 Some parents consciously, blatantly, and even maliciously denigrate their ex-spouse through negative comments and actions. Exploring issues such as secrecy, spying, false accusations, threats and discipline, *Divorce Casualties* recognizes the often subtle causes of alienation, teaching you to prevent or minimize its damaging effects on your children. The Equal Parent

Presumption Feb 24 2022 In custody battles over the children of separated parents, the prevailing standard of evaluating what is in the "best interests of the child" has been scrutinized because of the discretionary nature of what is "best" and because of the bias in favour of the child residing in one "primary residence." In response, a consensus is beginning to emerge that it is vitally important that children maintain meaningful relationships with both parents after divorce. In *The Equal Parent Presumption*, Edward Kruk proposes a child-focused approach based on a standard that considers the best interests of the child from the perspective of the child and a responsibility-to-needs orientation to social justice for children and families.

and received ideas, Kruk presents an evidence-based framework of equal parental responsibility as the most effective means of ensuring the protection of family relationships following divorce, and shielding children from ongoing parental conflict and family violence. The existing system of determining parental rights and responsibilities is harming families. The Equal Parent Presumption addresses a major barrier to the principle of gender equality in parenting after divorce, and proposes a viable alternative to sole custody in the form of a legal presumption of shared and equal parenting.

Growing Up With Divorce Jun 06 2020 Using extensive examples, the author describes the various ways in which children of varying ages react to divorce and discusses joint custody, dating, remarriage, and parental discord as they affect children
