Twin Cities Noir Nov 09 2020 Presents a collection of short stories featuring noir and crime fiction about the Twin Cities, by such mystery writers as Pete Hautman, Mary Sharratt, Quinton Skinner, and Brad Zellar.

Plain Roots Dec 11 2020 Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

King Peggy Jul 26 2019 The charming real-life fairy tale of an American secretary who discovers she has been chosen king of an impoverished fishing village on the west coast of Africa. King Peggy chronicles the astonishing journey of American secretary, Peggelene Bartels, who suddenly finds herself king to a town of 7,000 people on Ghana's central coast, half a world away. Upon arriving for her crowning ceremony in beautiful Otuam, she discovers the dire reality: there's no running water, no doctor, no high school, and many of the

village elders are stealing the town's funds. To make matters worse, her uncle (the late king) sits in a morgue awaiting a proper funeral in the royal palace, which is in ruins. Peggy's first two years as king of Otuam unfold in a way that is stranger than fiction. In the end, a deeply traditional African town is uplifted by the ambitions of its decidedly modern female king, and Peggy is herself transformed, from an ordinary secretary to the heart and hope of her community. The Compact Reader May 04 2020 From its well-chosen essays to its thorough editorial apparatus to its practical organization, The Compact Reader provides instructors with the fundamental support they need to get students writing purposefully. The distinctive dual organization -- rhetorical and thematic -- introduces students to essential strategies of writing while engaging them with brief readings on captivating topics. For the instructor who wants a concise, effective means for teaching students to think critically about the connection between form and content, The Compact Reader is the perfect choice.

Kasher in the Rye Dec 31 2019 A hopeful and inspiring "act of comedic magic" from comedian—and now memoirist!—Moshe Kasher (Artie Lange, #1 New York Times bestselling author of *Too Fat to Fish*). Rising young comedian Moshe Kasher is lucky to be alive. He started using drugs when he was just 12. At that point, he had already been in psychoanalysis for 8 years. By the time he was 15, he had been in and out of several mental institutions, drifting from therapy to rehab to arrest to...you get the picture. But *Kasher in the Rye* is not an "eye opener" to the horrors of addiction. It's a hilarious memoir about the absurdity of it all. When he was a young boy, Kasher's mother took him on a vacation to the West Coast. Well it was more like an abduction. Only not officially. She stole them away from their father and they moved to Oakland, California. That's where the real fun begins, in the war zone of Oakland Public Schools. He was more than just out of control—his mother walked him around on a leash, which he chewed through and ran away. Those early years read like part Augusten Burroughs, part David Sedaris, with a touch of Jim Carrol...but a lot more Jewish. In fact, Kasher later spends time in a Brooklyn Hasidic community. Then came addiction... Brutally honest and laugh-out-loud funny, Kasher's first literary endeavor finds humor in even the most horrifying situations.

Me: a Compendium Apr 02 2020 Inventive, hilarious and joyously colorful, this fill-in journal was designed to help kids capture nearly everything that's uniquely rad about them. With design-savvy, yet completely kid-friendly illustrations, they're asked to draw or write about a bunch of interesting things -- like what their hair looks like, what their band name would be, what they'd bring to outer space, and how they feel about lightning, lizards and pickles. There may or may not be a place for super-secret stuff inside the book jacket. Whether kids complete their entire compendium on a rainy day, or finish it over a year, it'll become a treasure to look back on and smile. Ideal for the holidays, rainy days and happy occasions of all kinds, this is an imagination-building gift will engage kids for hours on end

Scalia Dissents Jul 18 2021 Brilliant. Colorful. Visionary. Tenacious. Witty. Since his appointment to the Supreme Court in 1986, Associate Justice Antonin Scalia has been described as all of these things and for good reason. He is perhaps the best-known justice on the Supreme Court today and certainly the most controversial. Yet most Americans have probably not read even one of his several hundred Supreme Court opinions. In *Scalia Dissents*, Kevin Ring, former counsel to the U.S. Senate's Constitution Subcommittee, lets Justice Scalia speak for himself. This volume—the first of its kind— showcases the quotable justice's take on many of today's most contentious constitutional debates. *Scalia Dissents* contains over a dozen of the justice's most compelling and controversial opinions. Ring also provides helpful background on the opinions and a primer on Justice Scalia's judicial philosophy. *Scalia Dissents* is the perfect book for readers who love scintillating prose and penetrating insight on the most important constitutional issues of our time.

Millionaire by Thirty Feb 22 2022 The definitive, easy to understand and breakthrough guide on how young people can take their limited first income and turn it into a small fortune by the time they turn thirty from an expert financial planner. Most people know that there are 70 million Baby Boomers in America today...but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in Millionaire by Thirty, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.

Ming Tea Murder Jul 30 2022 It's scones and scandal for Indigo Tea Shop owner Theodosia Browning in the latest from the New York Times bestselling author of Steeped in Evil... Normally Theodosia wouldn't attend a black tie affair for all the tea in China. But she can hardly say no to her hunky, handsome boyfriend, Max, who directs public relations for the Gibbes Museum in Charleston. Max has organized an amazing gala opening for an exhibit of a genuine eighteenth century Chinese teahouse, and the crème de la crème of Charleston society is invited. In the exotic garden staged in the

museum's rotunda, a Chinese dragon dances to the beat of drums as it weaves through the crowd. The guests are serenaded by a Chinese violin as they sample an assortment of tempting bites. And to give them a memento of the occasion, there's even a photo booth. But Theodosia makes a grim discovery behind the booth's curtains: the body of museum donor Edgar Webster. While Theodosia prefers tea service over the service of justice, this case is difficult to ignore—especially after Max becomes a suspect. Now she must examine the life of the fallen philanthropist and find out who really wanted him to pay up... INCLUDES DELICIOUS RECIPES AND TEA TIME TIPS!

The Book of L Jan 24 2022 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L. Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.
