The Island of Skyros from Late Roman to Early Modern Times May 29 2022 "Aegean archaeology has mainly concentrated on Prehistoric and Greco-Roman times and has provided relatively little information on human activity and material culture in the medieval period. Historical research concerning the medieval era is sufficiently developed but archaeological research on the medieval Aegean has mainly focused on matters of art and architecture. In fact, we have an overall picture of the medieval and post-medieval periods for only a few islands of the Aegean. This ASLU volume fills this gap. It uses the ancient past as background for examining the continuity and change that the island of Skyros experienced from the Late Roman period onwards. It brings together two different archae-ological 'schools', that of long-term survey research (based mainly on material culture) and that of 'traditional' Byzantine and Post-Byzantine archaeology (focused on art and architecture), offering new perspectives on settlement patterns, art and architecture, and the material culture of Skyros from Late Roman to Early Modern times. The combination of archaeological data and information from historical

sources reconstructs the regional history of Skyros during that time span, which is ultimately the main purpose of this study."--

Advent Review and Sabbath Herald Nov 10 2020

Nudge Nov 03 2022 Thaler and Sunstein offer a groundbreaking discussion of how to apply the science of choice to nudge people toward decisions that can improve their lives without restricting their freedom of choice.

By Fire, By Water Oct 29 2019 Recipient of the Independent Publishers Award for Historical Fiction (Gold Medal), the Foreword Book of the Year Award for Historical Fiction (Bronze Medal), and an honorable mention in the category of General Fiction for the Eric Hoffer Award. Luis de Santángel, chancellor to the court and longtime friend of the lusty King Ferdinand, has had enough of the Spanish Inquisition. As the power of

Inquisitor General Tomás de Torquemada grows, so does the brutality of the Spanish church and the suspicion and paranoia it inspires. When a dear friend's demise brings the violence close to home, Santángel is enraged and takes retribution into his own hands. But he is from a family of conversos, and his Jewish heritage makes him an easy target. As Santángel witnesses the horrific persecution of his loved ones, he begins slowly to reconnect with the Jewish faith his family left behind. Feeding his curiosity about his past is his growing love for Judith Migdal, a clever and beautiful Jewish woman navigating the mounting tensions in Granada. While he struggles to decide what his reputation is worth and what he can sacrifice, one man offers him a chance he thought he'd lost...the chance to hope for a better world. Christopher Columbus has plans to discover a route to paradise, and only Luis de Santángel can help him. Within the dramatic story lies a subtle, insightful examination of the crisis of faith at the heart of the Spanish Inquisition. Irresolvable conflict rages within the conversos in *By Fire, By Water*, torn between the religion they left behind and the conversion meant to ensure their safety. In this story of love, God, faith, and torture, fifteenth-century Spain comes to dazzling, engrossing life.

How to Draw Super Cars With Step By Step Illustrations Jun 25 2019

How to Draw Super Cars With Step By Step Illustrations provides simple, easy-to-follow pictures that make it easy for kids to start drawing. In just a few simple steps, Super cars fans can learn to illustrate their favorite super cars such as Bugatti, Audi, McLaren, Dodge, Chevrolet, Ford Mustang, Lamborghini etc. Each illustration shows you how to draw Super Cars step by step. Simply follow along drawing in own sketchbook. Add each detail as shown until the picture is finished. If you have never drawn before this is definitely the book for you. Start off drawing lightly and don't worry about making mistakes. You can always erase and start over. When you're finished, you can add your own details and color it!

Save More Tomorrow Sep 28 2019 One of the world's top experts in behavioral finance offers innovative strategies for improving 401(k) plans. Half of Americans do not have access to a retirement saving plan at their workplace. Of those who do about a third fail to join. And those

who do join tend to save too little and often make unwise investment decisions. In short, the 401(k) world is in crisis, and workers need help. *Save More Tomorrow* provides that help by focusing on the behavioral challenges that led to this crisis inertia, limited self-control, loss aversion, and myopia—and transforms them into behavioral solutions. These solutions, or tools, are based on cutting edge behavioral finance research and they can dramatically improve outcomes by, for example, helping employees: -Save, even if they aren't ready to do so now, by using future enrollment. -Save more by showing them images of their future selves. -Save smarter by reshuffling the order of funds on the investment menu. *Save More Tomorrow* is the first comprehensive application of behavioral finance to improve retirement outcomes. It also makes it easy for plan sponsors and their advisers to apply these behavioral tools using its innovative Behavioral Audit process.

Nudge Jul 07 2020 The completely updated, final edition of the global bestseller - one of the most influential books of the 21st century 'Few books can be said to have changed the world, but Nudge did. The Final Edition is marvellous: funny, useful, and wise' Daniel Kahneman Nudge has transformed the way individuals, companies and governments look at the world - and in the process has become one of the most important books of the twenty-first century. This completely updated edition offers a wealth of new insights for fans and newcomers alike - about COVID-19, diet, personal finance, retirement savings, medical care, organ donation, and climate change. Every day we make decisions: about the things we buy or the meals we eat; about the investments we make and the time we spend; about our health and that of the planet. Unfortunately, we often choose badly. We are all susceptible to biases that can lead us to make bad decisions that make us poorer, less healthy and less happy. And, as Richard Thaler and Cass Sunstein show, no choice is ever presented to us in a neutral way. But by knowing how people think, we can make it easier for them to choose what is best for themselves, for their families and for society. With brilliant insight and wonderful levity, Thaler and Sunstein demonstrate how best to nudge us in the right directions, without ever restricting our freedom of choice.

Making the Invisible Visible Jul 19 2021 This publication, "Making the Invisible Visible: A History of the Spitzer Infrared Telescope Facility

(1971-2003)," makes visible the invisible forces that influenced the design of Space Infrared Telescope Facility (SIRTF's) innovative technology. The lessons learned by the project team over the course of building SIRTF, now better known as the Spitzer Space Telescope, are about managing innovation over time and in the face of uncertainty. These are universal lessons, applicable to any project whose stakeholders control the necessary resources. SIRTF's stakeholders focused on a variety of issues: technical, scientific, political, and economic, as well as organizational needs and goals. What made SIRTF's evolution particularly difficult was that the stakeholders changed over time-in their composition, goals, and influence.

National Policy on Languages Jul 27 2019 State of Aboriginal languages; policy of language preservation and recording threatened languages; addresses language needs of Aboriginal language speakers for translating and interpreting services and bilingual and bicultural education; opportunities for teaching languages to other Aborigines and awareness programs for nonAborigines; support for languages through National Aboriginal Languages Project and Advisory Council on an Australian Languages Policy; case study of Yipirinya School.

the end of the Cold War and German unification. --from publisher description.

The Hero with an African Face Apr 27 2022 In this remarkable book, Clyde Ford restores to us the lost treasure of African mythology, bringing to life the ancient tales and showing why they matter so much to us today. African myths convey the perennial wisdom of humanity: the creation of the world, the hero's journey, our relationship with nature, death, and resurrection. From the Ashanti comes the moving account of the grief-stricken Kwasi Benefo's journey to the underworld to seek his beloved wives. From Uganda we learn of the legendary Kintu, who won the love of a goddess and created a nation from a handful of isolated clans. The Congo's epic hero Mwindo is the sacred warrior who shows us the path each person must travel to discover his true destiny. These and other important African myths show us the history of African Americans in a new light--as a hero's journey, a courageous passage to a hard-won victory. *The Hero with an African Face* enriches us all by restoring this vital tradition to the world.

Handbook for the Treatment of Abused and Neglected Children May 05 2020 Practical solutions for difficult clinical situations! With many chapters written by some of the field's best known contributors, this handbook was developed for the practitioner who wants practical and effective guidance for helping abused children. Each major area of clinical practice is discussed by experienced professionals, providing you with new insights and ideas regarding: medical findings; clinical assessment; individual, group, and family therapy; testifying in court; the role of medication in treatment, and much more. To make the application from the written page to your practice even more compelling, every clinical chapter is followed by a patient vignette that demonstrates how the principles just described can be successfully applied in the working world of therapists. Whether abused children number only a few or many on your caseload, this is a handbook to which you will often refer over the years. *The Handbook for the Treatment of Abused and Neglected Children* pulls together a wide range of practical information for

therapists on how to effectively work with abused and neglected children. Unlike other volumes on the subject, this book puts the information in context, with a 'big picture' overview of how the therapist fits into the larger system into which the child has been swept up—Child Protective Services, legal proceedings, medical issues, disputes regarding custody, etc. Inside, you'll find effective strategies for: conducting individual therapy with abused children—how to begin therapy, identify distortions, effectively challenge ingrained patterns of behavior, and constructively bring therapy to a close navigating the maze of Child Protective Services—knowing what resources are available, what obstacles are likely to arise, and how to work with social workers understanding the medical findings of maltreated children—how information from a child's physician can provide critical insights into the child's experience, and often into children's expectations of future relationships testifying in court as a therapist—how the court works and how to prepare to give effective testimony facilitating parent interventions—how to help mothers and fathers develop relationships with their children to the fullest and nurture each child's potential as his or her personality develops *The Handbook for the Treatment of Abused and Neglected Children* will prove valuable for students and educators as well as novice and experienced therapists. Whether you see children only occasionally or focus your practice on maltreated children, this one-of-a-kind resource deserves a place in your professional collection.

A History of UNESCO Jul 31 2022 This history of UNESCO retraces almost 50 years in the life of the international organization, whose action in fields such as education, science, culture and communication have been at the heart of changes since World War II.

The Romani World Oct 02 2022 Gypsy history and life. Professionals working with Gypsies and migrant Roma from the CEE will also find it invaluable."--BOOK JACKET.

Straight from the Book Sep 20 2021 This book is a compilation of many suggestions, much advice, and even more hard work. Its main objective is to provide solutions to the problems which were originally

proposed in the first 12 chapters of Problems from the Book. The volume is far more than a collection of solutions. The solutions are used as motivation for the introduction of some very clear mathematical expositions. This is absolutely state-of-the-art material. Everyone who loves mathematics and mathematical thinking should acquire this book.

Medii Ævi Kalendarium Nov 30 2019

Catastrophe and Utopia Jun 17 2021 Catastrophe and Utopia studies the biographical trajectories, intellectual agendas, and major accomplishments of select Jewish intellectuals during the age of Nazism, and the partly simultaneous, partly subsequent period of incipient Stalinization. By focusing on the relatively underexplored region of Central and Eastern Europe - which was the primary centre of Jewish life prior to the Holocaust, served as the main setting of the Nazi genocide, but also had notable communities of survivors - the volume offers significant contributions to a European Jewish intellectual history of the twentieth century. Approaching specific historical experiences in their diverse local contexts, the twelve case studies explore how Jewish intellectuals responded to the unprecedented catastrophe, how they renegotiated their utopian commitments and how the complex relationship between the two evolved over time. They analyze proximate Jewish reactions to the most abysmal discontinuity represented by the Judeocide while also revealing more subtle lines of continuity in Jewish thinking. Ferenc Laczó is assistant professor in History at Maastricht University and Joachim von Puttkamer is professor of Eastern European History at Friedrich Schiller University Jena and director of the Imre Kertész Kolleg.

The Persianate World Jun 29 2022 At publication date, a free ebook version of this title will be available through Luminos, University of California Press's Open Access publishing program. Visit www.luminoso.org to learn more. Persian is one of the great lingua francas of world history. Yet despite its recognition as a shared language across the Islamic world and beyond, its scope, impact, and mechanisms

remain underexplored. A world historical inquiry into pre-modern cosmopolitanism, *The Persianate World* traces the reach and limits of Persian as a Eurasian language in a comprehensive survey of its geographical, literary, and social frontiers. From Siberia to Southeast Asia, and between London and Beijing, this book shows how Persian gained, maintained, and finally surrendered its status to imperial and vernacular competitors. Fourteen essays trace Persian's interactions with Bengali, Chinese, Turkic, Punjabi, and other languages to identify the forces that extended "Persographia," the domain of written Persian. Spanning the ages expansion and contraction, *The Persianate World* offers a critical survey of both the supports and constraints of one of history's key languages of global exchange.

Names, Natures and Things Nov 22 2021 Jabir ibn Hayyan, for a long time the reigning alchemical authority both in Islam and the Latin West, has exercised numerous generations of scholars. To be sure, it is not only the vexed question of the historical authorship and dating of the grand corpus Jabirianum which poses a serious scholarly challenge; equally challenging is the task of unraveling all those obscure and tantalizing discourses which it contains. This book, which marks the first full-scale study of Jabir ever to be published in the English language, takes up both challenges. The author begins by critically reexamining the historical foundations of the prevalent view that the Jabirian corpus is the work not of an 8th-century individual, but that of several generations of Shi'i authors belonging to the following century and later. Tentatively concluding that this view is problematic, the author, therefore, infers that its methodological implications are also problematic. Thus, developing its own methodological matrix, the book takes up the second challenge, namely that of a substantive analysis and explication of a Jabirian discourse, the *Book of Stones*. Here explicating Jabir's notions of substance and qualities, analyzing his ontological theory of language and unraveling the metaphysics of his *Science of Balance*, the author reconstructs the doctrinal context of the *Stones* and expounds its central theme. He then presents an authoritative critical edition of a substantial selection of the text of the *Stones*, based on all available manuscripts.

This critical edition has been translated in its entirety and is provided with exhaustive commentaries and textual notes -- another pioneering feature of this book: for this is the first English translation of a Jabirian text to emerge in print after a whole century. An outstanding contribution is that it announces and presents an exciting textual

discovery: the author has found in the Stones a hitherto unknown Arabic translation of part of Aristotle's Categories. Given that we have so far known of only one other, and possibly later, classical Arabic translation of the Greek text, Haq's discovery gives this book an historical importance.
