The Science of Michael Crichton Nov 15 2021 Wherever the cutting edge of science goes, Michael Crichton is there. From dinosaur cloning to global warming, nanotechnology to time travel, animal behavior to human genetics, Crichton always takes us to the cutting edge of science and then pushes the envelope. The Science of Michael Crichton examines the amazing inventions of Crichton's books and lifts up the hood, revealing the science underneath. In intelligent and well-thought essays, scholars and experts decide what Crichton gets right and what he gets wrong. They examine which Crichton imaginings are feasible and which are just plain impossible. Scenarios examined include whether dinosaurs can be cloned, if nanotechnological particles can evolve intelligence, and if we can go back in time.

Easy Go Jul 19 2019 A thriller about an Egyptologist's greatest find—and his quest to steal it—from the #1 New York Times–bestselling author of Jurassic Park and The Andromeda Strain. Brilliant Egyptologist Harold Barnaby has discovered a message hidden inside a particularly difficult set of hieroglyphics. It just may lead him to a secret tomb holding the greatest riches of the ancient world. Barnaby could put his name to the most fantastic archaeological find of the century. But he doesn't just want to dig it up. He wants to steal it. With the help of a smuggler, a thief, and an English lord, he plans his heist. They find that tomb raiding is trickier than they thought, and those who steal from dead Egyptians face dangers worse than a mummy's ancient curse. This ebook features an illustrated biography of Michael Crichton including rare images from the author's estate.

Pirate Latitudes Jan 25 2020 In this New York Times bestselling novel, master of suspense Michael Crichton delivers an irresistible tale of swashbuckling pirates in the New World—a classic story of treasure and betrayal. The Caribbean, 1665. A remote colony of the English Crown, the island of Jamaica holds out against the vast supremacy of the Spanish empire. Port Royal, its capital, is a cutthroat town of taverns, grog shops, and bawdy houses. In this steamy climate there's a living to be made, a living that can end swiftly by disease—or by dagger. For Captain Charles Hunter, gold in Spanish hands is gold for the taking, and the law of the land rests with those ruthless enough to make it. Word in port is that a galleon, fresh from New Spain, is awaiting repairs in a nearby harbor.... Pirate Latitudes is Michael Crichton at his best: a rollicking adventure tale pulsing with relentless action, crackling atmosphere, and heart-pounding suspense.

The Andromeda Strain Dec 16 2021 Five prominent biophysicists give the United States government an urgent warning: sterilisation procedures for returning space probes may be inadequate to guarantee uncontaminated re-entry to the atmosphere. Two years later, Project Scoop sends seventeen satellites into the fringes of space in order to 'collect organisms and dust for study.' Then a probe satellite falls to earth, landing in a desolate area of northeastern Arizona. In the nearby town of Piedmont, bodies lie heaped and flung across the ground, faces locked in frozen surprise. The terror has begun... 'He had me convinced it was all really happening' Christopher Lehmann-Haupt, NEW YORK TIMES 'Science fiction, which once frightened because it seemed so far out, now frightens because it seems so near. The Andromeda Strain is as matter-of-fact as the skull-and-crossbones instructions on a bottle of poison - and just as chillingly effective' LIFE 'Terrifying... One of the most important novels of the year' LIBRARY JOURNAL

Dragon Teeth Jun 29 2020 Michael Crichton, the #1 New York Times bestselling author of Jurassic Park, returns to the world of paleontology in this recently discovered novel—a thrilling adventure set in the Wild West during the golden age of fossil hunting. The year is 1876. Warring Indian tribes still populate America's western territories even as lawless gold-rush towns begin to mark the landscape. In much of the country it is still illegal to espouse evolution. Against this backdrop two monomaniacal paleontologists pillage the Wild West, hunting for dinosaur fossils, while surveilling, deceiving and sabotaging each other in a rivalry that will come to be known as the Bone Wars. Into this treacherous territory plunges the arrogant and entitled William Johnson, a Yale student with more privilege than sense. Determined to survive a summer in the west to win a bet against his arch-rival, William has joined world-renowned paleontologist Othniel Charles Marsh on his latest expedition. But when the paranoid and secretive Marsh becomes convinced that William is spying for his nemesis, Edwin Drinker Cope, he abandons him in Cheyenne, Wyoming, a locus of crime and vice. William is forced to join forces with Cope and soon stumbles upon a discovery of historic proportions. With this extraordinary treasure, however, comes exceptional danger, and William's newfound resilience will be tested in his struggle to protect his cache, which pits him against some of the West's most notorious characters. A page-turner that draws on both meticulously researched history and an exuberant imagination, Dragon Teeth is based on the rivalry between real-life paleontologists Cope and Marsh; in William Johnson readers will find an inspiring hero only Michael Crichton could have imagined. Perfectly paced and brilliantly plotted, this enormously winning adventure is destined to become another Crichton classic.

Easy Go Mar 19 2022 "Beneath the sands of the Egyptian desert lies treasure beyond imagining. And when a professor of archaeology finds clues to the location of a Pharaoh's lost tomb in ancient hieroglyphs, he hatches a plan to find the burial site—and plunder it.
