International Financial Statistics, June 2015 Jan 03 2020 This June 2015 issue of International Financial Statistics (IFS) is a standard source of statistics on all aspects of international and domestic finance. IFS publish, for most countries of the world, current data on exchange rates, international liquidity, international banking, money and banking,

interest rates, prices, production, international transactions (including balance of payments and international investment position), government finance, and national accounts. Information is presented in tables for specific countries and in tables for area and world aggregates. IFS is published monthly and annually. In IFS, exchange rates are expressed in time series of national currency units per SDR (the unit of account for the IMF) and national currency units per US dollar, or vice versa.

Yale Law Journal Sep 10 2020 "Symposium: The Gideon Effect: Rights, Justice, and Lawyers Fifty Years After *Gideon v. Wainwright*." The year 2013 marks the golden anniversary of the U.S. Supreme Court's landmark ruling in *Gideon v. Wainwright* (1963), which established a constitutional right to counsel for criminal defendants. A half century later, there remains a compelling need for a reexamination of its legacy, extensions, shortfalls, and long shadow over other areas of law such as immigration and custody disputes. This special Symposium issue of the *Yale Law Journal* is, in effect, a new and extensive book on this important subject, featuring contributions by internationally recognized legal and political scholars. It is one of the most thorough, detailed, and wide-ranging analyses of the current standing and reach of what may be the Court's most important criminal law decision. The contributors are: Rebecca Aviel, John H. Blume & Sheri Lynn Johnson, Stephen B. Bright & Sia M. Sanneh, Paul D. Butler, Jeanne Charn, Erwin Chemerinsky, Gabriel J. Chin, Martha F. Davis, Ingrid V. Eagly, Roger A. Fairfax Jr., Bruce A. Green, M. Clara Garcia Hernandez & Carole J. Powell, Emily Hughes, Kevin R. Johnson, Neal Kumar Katyal, Nancy J. King, Nancy Leong, Justin F. Marceau, Hope Metcalf & Judith Resnik, Pamela R. Metzger, David E. Patton, Eve Brensike Primus, L. Song Richardson & Phillip Atiba Goff, Jenny Roberts, and Carol S. Steiker. The issue, the eighth and final one of academic year 2012-2013, also includes a cumulative Index to the eight issues of Volume 122. As with previous digital editions of the *Yale Law Journal* available from Quid Pro Books, features include active Tables of Contents (including links in each

Essay's own table), linked footnotes and URLs, and proper ebook formatting.

Uganda Jul 09 2020 This 2015 Article IV Consultation highlights that Uganda's recent economic performance has been favorable. Real GDP growth is projected at 5.24 percent for FY2014/15 supported by a fiscal stimulus and a recovery in private consumption. Annual core inflation increased to 4.75 percent in May, from very depressed levels, mainly fueled by the shilling depreciation pass-through. The current account deficit is set to widen to about 9 percent of GDP reflecting increasing capital goods imports, but international reserves remain adequate. The outlook is promising. Growth is estimated at 5.75 percent in FY2015/16 and an average 6.25 percent over the medium-term.

Whistleblowers Mar 05 2020 A "brisk and interesting" (Jill Lepore, New Yorker) exploration of whistleblowing in America, from the Revolutionary War to the Trump era PROSE Award winner in the Government, Policy and Politics category Misconduct by those in high places is always

dangerous to reveal. Whistleblowers thus face conflicting impulses: by challenging and exposing transgressions by the powerful, they perform a vital public service--yet they always suffer for it. This episodic history brings to light how whistleblowing, an important but unrecognized cousin of civil disobedience, has held powerful elites accountable in America. Analyzing a range of whistleblowing episodes, from the corrupt Revolutionary War commodore Esek Hopkins (whose dismissal led in 1778 to the first whistleblower protection law) to Edward Snowden, to the dishonesty of Donald Trump, Allison Stanger reveals the centrality of whistleblowing to the health of American democracy. She also shows that with changing technology and increasing militarization, the exposure of misconduct has grown more difficult to do and more personally costly for those who do it--yet American freedom, especially today, depends on it.

A History of Travel in 50 Vehicles (History in 50) Aug 10 2020 Paula Grey explores how creative thinkers—collaborating or competing and always building on the work of their predecessors—have envisioned new ways to move about in the world. The story of travel is the human story. From the first migrations out of Africa on weary feet to horses, camels, rafts, chariots, steamships, trains, hot air balloons, cars, submarines, and moon rockets, humans have combined imagination, daring, and technical brilliance to create new vehicles and improve existing ones. Geography and culture have influenced the development of vehicles in far-flung parts of the world, and human travel has, in turn, exerted a profound influence on society and the environment. Whether escaping deprivation, pestilence, persecution, oppression, or fear—or seeking abundance, freedom, fame, fortune, or a fresh start—we have always been a traveling species, and it seems we always will be. Here is the story of humankind's restless impulse to see what's over the next ridge, beyond the next

sunrise, on the next planet. Enjoy the journey!

International Financial Statistics, June 2017 Oct 31 2019 This paper explores International Financial Statistics (IFS) that contains country tables for most IMF members, as well as for Anguilla, Aruba, the Central African Economic and Monetary Community (CEMAC), Curaçao, the currency union of Curaçao and Sint Maarten, the Eastern Caribbean Currency Union (ECCU), the euro area, Montserrat, the former Netherlands Antilles, Sint Maarten, the West African Economic Monetary Union (WAEMU), West Bank and Gaza, and some non-sovereign territorial entities for which statistics are provided internationally on a separate basis. All trade figures in IFS are converted from national currency values to US dollars and from US dollar values to national currency. The country tables, euro area tables, and world tables provide measures of effective exchange rates, compiled by the IMF's Research Department, Strategy, Policy, and Review Department, Statistics Department, and area departments. For manufactured goods, trade by type of good and market is distinguished in the database. So it is possible to allow at a disaggregated level for competition among various exporters in a foreign market (i.e., third-market competition) as well as that arising from bilateral trade links.

Central Bank Independence, Regulations, and Monetary Policy Oct 12 2020 This book examines the linkage between central bank structure, central bank autonomy—with respect to setting its monetary policy goals, choosing its policy mechanisms, legal independence, and financial independence—and monetary policy, both in select benchmark countries and at a broader theoretical level. Country-specific chapters on the US, UK, Germany, Greece, Russia, India, China, Japan, Brazil, and South Africa focus on the history, administrative structure, and independence of the central monetary authority in these countries. The chapters go on to explore the countries' conduct of monetary policy, their interplay with political forces and the wider economy, their currency, and their macroeconomic outcomes. The book will appeal to researchers, students

Evaluating Environment in International Development Mar 29 2022

More than twenty years after the Earth Summit was held in Rio de Janeiro in 1992, both national and international actors in governmental and nongovernmental fields are still searching for insights into how sustainable development can be advanced and environmental concerns incorporated into the development agenda more effectively. Moreover, climate change has emerged as a preeminent challenge to both the environment and to development. Evaluating Environment in International Development provides international perspectives and in-depth knowledge of evaluating development and the environment and applies evaluation knowledge to climate change mitigation and adaptation. The book focuses on the approaches and experiences of leading international organizations, not-for-profits, and multilateral and bilateral aid agencies to illustrate how systematic evaluation is an essential tool for providing evidence for decision-makers. It provides novel and in-depth perspectives on evaluating environment and sustainability issues in developing countries. Moving beyond projects and programmes, it considers aspects such as evaluating normative work on the environment and evaluating environmental consequences of economic and social development efforts. This original collection should be of interest to scholars of environment studies, development studies, international relations, sustainable development and evaluation, as well as practitioners in international organizations and development and environmental NGOs.
