Combining Mediation and Arbitration in International Commercial Dispute Resolution Apr 02 2020 Securing fast, inexpensive, and enforceable redress is vital for the development of international commerce. In a changing international commercial dispute resolution landscape, the combined use of mediation and arbitration has emerged as a dispute resolution approach which offers these benefits. However, to date there has been little agreement on several aspects of the combined use of processes, which the literature often explains by reference to the practitioner's legal culture, and there is debate as to how appropriate it is for the same neutral to conduct both mediation and arbitration. Identifying the main ways of addressing concerns associated with the same neutral conducting both mediation and arbitration (same neutral (arb)-med-arb), this book examines how effectively these methods achieve the goal of fast, inexpensive, and enforceable dispute resolution, evaluating to what extent the perception and use of the same neutral (arb)-med-arb depends on the practitioner's legal culture, arguing that this is not a 'one-size-fits-all' process. Presenting an empirical study of the combined use of mediation and arbitration in international commercial dispute resolution, this book synthesises existing ways of addressing concerns associated with the same neutral (arb)-med-arb to provide recommendations on how to enhance the use of combinations in the future.

The Conflict Resolution Toolbox Jun 28 2022 In real-life conflict resolution situations, one size does not fit all. Just as a mechanic does not fix every car with the same tool, the conflict resolution practitioner cannot hope to resolve every dispute using the same technique. Practitioners need to be comfortable with a wide variety of tools to diagnose different problems, in vastly different circumstances, with different people, and resolve these conflicts effectively. *The Conflict Resolution Toolbox* gives you all the tools you need: eight different models for dealing with the many conflict situations you encounter in your practice. This book bridges the gap between theory and practice and goes beyond just one single model to present a complete toolbox – a range of models that can be used to analyze, diagnose, and resolve conflict in any situation. It shows mediators, negotiators, managers, and anyone needing to resolve conflict how to simply and effectively understand and assess the situations of conflict they face. And it goes a step further, offering specific, practical guidance on how to intervene to resolve the conflict successfully. Each model provides a different and potentially useful angle on the problem, and includes worksheets and a step-by-step process to guide the reader in applying the tools. Offers eight models to help you understand the root causes of any conflict. Explains each model's focus, what kind of situations it can be useful in and, most importantly, what interventions are likely to help. Provides you with clear direction on what specific actions to choose to resolve a particular type of conflict effectively. Features a detailed case study throughout the book, to which each model is applied. Additional examples and case studies unique to each chapter give the reader a further chance to see the models in action. Includes practical tools and worksheets that you can use in working with these models in your practice. *The Conflict Resolution Toolbox* equips any practitioner to resolve a wide range of conflicts. Mediators, negotiators, lawyers, managers and supervisors, insurance adjusters, social workers, human resource and labour relations specialists, and others will have all the tools they need for successful conflict resolution.

Mapping Paths to Family Justice Aug 19 2021 The family justice system in England and Wales has undergone radical change over the past 20 years. A significant part of this shifting landscape has been an increasing emphasis on settling private family disputes out of court, which has been embraced by policy-makers, judges and practitioners alike and is promoted as an unqualified good. *Mapping Paths to Family Justice: Resolving Family Disputes in Neoliberal Times* examines the experiences of people taking part in out-of-court family dispute resolution in England and Wales. It addresses questions such as how participants' experiences match up to the ideal; how recent changes to the legal system have affected people's ability to access out-of-court dispute resolution; and what kind of outcomes are achieved in family dispute resolution. This book is the first study systematically to compare different forms of family dispute resolution. It explores people's experiences of solicitor negotiations, mediation and collaborative law empirically by analyzing findings from a nationally representative survey, individual in-depth interviews with parties and practitioners, and recorded family dispute resolution processes. It considers these in the context of ongoing neoliberal reforms to the family justice system, drawing out conclusions and implications for policy and practice.

Family Mediation Feb 22 2022 Preface by Hugh McIsaac Family mediation has quickly become a significant means of legal dispute resolution, recognized in most North American

jurisdictions as a relief to already overburdened judicial systems. Using an innovative practical approach, the authors of *Family Mediation* incorporate the pivotal principles of family therapy into this new context--the judicial realm of family mediation. The practice model--therapeutic family mediation--thoroughly treats history, specific issues, and practice in an ecosystemic approach and responds to feminist critique of mediation. In addition, the authors offer important perspectives on mediating with multicultural populations and the role of the mediator in child custody disputes and child protection cases. Through examination of family mediation research as well as helpful case history vignettes, the authors of this volume take action to fill significant gaps between family therapy and mediation. *Family Mediation* provides a new take on family mediation that will benefit not only professionals and researchers in family studies, social work, clinical psychology, and sociology but also professional and volunteer mediators, conciliation court personnel, and family law specialists. "Family Mediation is an excellent blend of scholarship and practice, and it is the best of the books I have read on family mediation. First, it is clear and well written. Second, it provides an in-depth, current review of the divorce literature. The literature on divorce is large, uneven, and difficult to interpret. The authors have done a service to the profession by skillfully reviewing and integrating this literature." --Stephen J. Bahr, Brigham Young University "This book is one of the most comprehensive and well-researched texts on mediation to date. The authors have compiled an immense array of information regarding the history of family mediation, the practice and knowledge base, a review of literature regarding divorce, the principles of mediation, gender and cultural issues, elements in a child custody dispute, sharing parenting, cultural issues, and the use of mediation in dependency, and they include an excellent summary of research conducted. . . . Of particular value is the enormous scope of the review of literature and the work of others, not only in Canada but also the United States, Australia, and Great Britain, underscoring the international nature of this transformation. What Howard H. Irving and Michael Benjamin have done is chart a major shift in the handling of conflict and they have done it very well." --Family and Conciliation Courts Review "Howard H. Irving and Michael Benjamin have surveyed and summarized an immense amount of material within the covers of this volume, presenting it in a clear, readable style. It is one of the rare texts on mediation that does justice to the complexity of families generally and families in North America particularly--to their diversity of culture, to the scope of feminist thought and gender differences, and to the ranges of social class. Their attention to divergent forms of mediation and differences in practice across jurisdictions is broadly sighted. An excellent choice for a text in mediation." --Mary A. Duryee, Family Court Services, Alameda County, Oakland, CA "Howard H. Irving and Michael Benjamin grapple with what is the most difficult event that confronts almost half of all modern families--divorce. Historically, the developmental issues and problems surrounding divorce have been solved in the courts. But modern-day courts are overwhelmed by an avalanche of divorce cases, more than a million a year, and are unable to meet the needs of separating parties. *Family Mediation* offers a fundamentally different approach from the conventional legal system. The empirical research and clinical experience Irving and Benjamin bring to bear on this subject have resulted in the seminal work in this area. This delightful and thoughtful book is a must for the modern mediation practitioner who works with families and children." --Duncan Lindsey, Professor, UCLA, and Editor-in-Chief, Children and Youth Services Review "This book is unique in providing a complete overview of relevant subject areas for family mediation under one cover. Its writing is timely because it dispels some of the myths in the rapidly expanding field of family mediation. . . . *Family Mediation* is a comprehensive text that follows the development of family mediation through the present and concludes with the predictors of future directions. It is perhaps the most thorough critical review of the literature pertaining to family mediation and develops an inclusive practical model of practice for practitioners. The book is readable . . . responsible, and of interest to family mediators and the family law lawyers who work closely with them. It may become a must as a background for the novice family mediator about to embark on a course of training." --Laurel Pearson, McWhinney, Metcalfe, and Associates, Toronto, Canada

Marital Separation Agreements May 16 2021 Mediators assisting divorcing parties face many challenges not found in mediations of other types of cases. Never do emotions run higher than when children are involved. Who gets primary custody? How will visitation be determined or divided? How will support amounts be decided? Then there are the marital assets that need to be divided, the tax consequences to be considered, etc. There is a long list of items to be negotiated and then memorialized in a separation agreement. Non-lawyer mediators need to know what they can and cannot do to assist clients with these agreements. This guide will help them be able to assess the risks and to navigate more safely as they practice their craft. The goal is to maximize their effectiveness as practitioners, and by all means, to assist them in avoiding a charge of the unauthorized practice of law. Bob has given the current state of the art a gift. He takes us on an "Bob has given the current state of the art a gift. He takes us on an important walk through history, shares the current "standards" and makes some wise observations about where we are, where we might go and how to navigate while the field matures. Your understanding, awareness and comfort will definitely increase. Although there will still be uncertainty you will have the basis to make sound assessments about the edges of what is acceptable. If you are a beginner or a full time mediator working in the trenches this book is a must read." - Stewart Levine, Esq. Alternative Dispute Resolution and Peace-Building in Africa Mar 14 2021 Conflicts in Africa
have a great deal in common, and striking parallels can be drawn between them at all levels.
Dynamics affecting the most complex war-time conflicts, civil unrest and other macro disputes
are in play even in the smallest community conflicts. The converse is also true: lessons
learned through community mediation, for example in South Africa, are applicable to the most
complex and largest conflicts to be found on the continent. Together, the eleven chapters in
this publication, in addition to the prologue and epilogue, suggest that a comprehensive
assessment of efforts and investments in conflict resolution and peace studies in Africa
since the mid-1990s is due in order to identify lessons and challenges, as well as best
practices. Just as conflict dynamics are comparable between African conflicts, whether large
or small, local or international, so are alternative dispute resolution processes. Effective
approaches to resolving large-scale conflicts and civil wars are effective at the community
level, and ineffectual techniques at the community level are just as likely to be counter-
productive in mediating international disputes. While there may be some differences in
mediating macro- and micro-conflicts (such as the time required, the need for negotiation
teams, and the complexities of agenda development or pre-negotiations), as far as the
mediation process is concerned, the differences are more like variations on a theme than real
substantive dissimilarities. This volume provides case studies of programs and policies, and
legislations on alternative dispute resolution and peace building, and examines and proposes
some new, promising ideas for conflict prevention, as well as maintenance of peace, justice
and security in Africa.

Juvenile Mediation Practitioner Manual Jul 26 2019 This manual is a 'how to' for conducting

a successful Juvenile Mediation, whether you want to become a Court Appointed Mediator, or simply start your own Juvenile Mediation business. There are no laws in the State of Georgia limiting, or restricting the practice of Juvenile Mediation outside of the court system. The reader is taken by the hand and guided through each step of a Juvenile Mediation, and the Alternative Dispute Resolution (ADR) Rules. This Juvenile Mediation Practitioner Manual is approved by the Georgia Bar for use in the training of attorneys. The information contained within this manual is easily adaptable to satisfy the laws of your locale. The corner stone of Juvenile Mediation is the healing process between children in conflict with society and each other. John Locke said that we left the forest to form government and protect our property. What about our children, did they become lost on our way to the Forum? Do we protect some, while locking others up? Let us be of one mind and give our children their childhood. We owe them that much. Psychologists say our experiences in society determine our destiny. The child is no different. Juvenile Mediation is crucial for setting children back on the right course, while showing them it is by far better to build bridges of friendships, creating allies, than bullying another. Therein lies the power of a child.

Online Family Dispute Resolution Jan 30 2020 This book brings together the expertise of two authors involved in initiating the development of Online Family Dispute Resolution (OFDR), while also examining the unique Australian system. The family arena generally comprises property or child-related disputes arising between parents, whether married or not, and whether the parties have lived together or not. A special feature of Australia's OFDR system is that it deals with children's issues rather than focusing on property distribution. The book first discusses how technological innovations have transformed dispute resolution services to families. It explores the need for OFDR and how such systems can potentially be implemented. In turn, the coverage shifts to screening tools used prior to a Family Dispute Resolution session to ensure that online systems are appropriate for the case under dispute and the people involved. Readers will then learn about the necessary training required - for administrators, practitioners and clients alike - for OFDR to be successful. In addition, the book offers a comprehensive evaluation of the system and reflects on the lessons learned to date. In closing, it suggests ways in which OFDR could be further developed and applied to family disputes around the world.

Mediation, Conciliation and Emotions Dec 23 2021 Emotions impact any practitioner of dispute resolution; yet, there are very few programs with courses that explore the emotional side of disputes. In Mediation, Conciliation, and Emotions, Peter Ladd outlines the emotions found in disputes and how these emotions function in dispute resolution. The book is divided into two parts: emotions and mediation, and emotions and conciliation. These parts examine the phenomenon of mediation, how to control emotions during mediation sessions, and how different disputes require different modes of emotional reconciliation. Mediation, Conciliation, and Emotions offers practical advice and information about the role of emotions in dispute resolution. It is an indispensable tool for practitioners of dispute resolution. Author Peter Ladd has developed a computer program which simplifies scoring of the "Emotional Climate Inventory" offered in the book's Appendix. This program can be accessed via St. Lawrence University Graduate School of Education's website at www.stlawu.edu/education.

Alternative Dispute Resolution in Energy Industries Dec 31 2019 The disputes that arise between host states and investors in the energy sector put a high number of valuable and vital projects in the countries at risk. Investment treaty arbitration mechanisms, as the traditional remedy, have provided a solution to these problems for decades. However, as the number of disputes increases, the sufficiency of arbitration in responding to disputes became questionable in addition to the long-lasting and costly cases. Accordingly, ADR mechanisms outside the arbitration cannon have triggered growing interest among practitioners. Despite the attraction and the apparent benefits of ADR such as being cheaper, faster and with better outcomes compared to arbitration, there are also hurdles in front that hinder the application of ADR. This has led to the underuse of ADR in appropriate contexts. This study has been conducted to research the gap for the applicability of the ADR methods for investment disputes in the energy sector with the doctrinal analysis of the existing literature either promoting or opposing ADR. Its findings provide guidance for alternative dispute resolution practitioners on when to use ADR, how to use ADR and on what disputes ADR to be used to resolve conflicts in International Energy Investment.

Staying with Conflict Nov 09 2020 Winner of the 2009 CPR Award for Outstanding Book In this groundbreaking book, Bernard Mayer, a pioneer in the field of conflict resolution, offers a new paradigm for dealing with long-term disputes. Mayer explains that when dealing with enduring conflict, mediators and other conflict resolution specialists need to move past the idea of how quickly they can resolve the conflict. Instead, they should focus on how they can help people prepare to engage with an issue over time. Once their attention is directed away from a speedy resolution to a long-term approach, new avenues of intervention become apparent.
