Scars Upon My Heart May 12 2021 Your battle wounds are scars upon my heart' wrote Vera Brittain in a poem to her beloved brother, four days before he died in June 1918. The rediscovery of TESTAMENT OF YOUTH has reminded a new generation of the bitter sufferings of women as well as men in the terrible madness of the First World War. This, the first anthology of women war poets for over sixty years, will come as a surprise to many. It shows, for example, that women were writing protest poetry before Wilfred Owen and Siegfried Sassoon, and that the view of 'the women at home', ignorant and idealistic, was quite false. Many of these poems come out of direct experiences of nursing the victims of trench warfare, or the pain of lovers, brothers, sons lost. Poets include: Nancy Cunard, Rose Macaulay, Charlotte Mew, Alice Meynell, Edith Nesbit, Edith Sitwell, Marie Stopes, Katharine Tynan. Here, as elsewhere, 'the poetry is in the pity' - a moving record of women's experience of war.

Making land work Dec 27 2019 In this report, the Law Commission makes recommendations to simplify, modernise and enhance the law of easements, covenants and profits à prendre. These rights are essential to the effective use of land and are relied upon by a significant proportion of property owners in England and Wales. Parts of the current law are ancient, contradictory and unfit for modern society. The report recommends reform where it is needed, while preserving those aspects of the law that function as they should. The recommendations would not affect the validity and enforceability of existing rights. The reforms would: make it possible for the benefit and burden of positive obligations to be enforced by and against subsequent owners; simplify and make clearer the rules relating to the acquisition of easements by prescription (or long use of land) and implication, as well as the termination of easements by abandonment; give greater flexibility to developers to establish the webs of rights and obligations that allow modern estates to function; facilitate the creation of easements that allow a substantial use of land by the benefiting owner (for example, rights to park a car); expand the jurisdiction of the Lands Chamber of the Upper Tribunal to allow for the discharge and modification of easements and profits created post-reform.

Jamaica Inn Apr 11 2021 AN UNFORGETTABLE STORY OF MURDER, MYSTERY AND PASSION, FROM THE BESTSELLING AUTHOR OF REBECCA In the bitter November wind, Mary Yellan crosses Bodmin Moor to Jamaica Inn. Her mother's dying wish was that she take refuge there, with her Aunt Patience. But when Mary arrives, the warning of the coachman echoes in her mind: Jamaica Inn has a desolate power, and behind its crumbling walls Patience is a changed woman, cowering before her brooding, violent husband. When Mary discovers the inn's dark secrets, the truth is more terrifying than anything she could possibly imagine, and she is forced to collude in her uncle's murderous schemes. Against her will, she finds herself powerfully attracted to her uncle's brother, a man she dares not trust.

Advanced Problems in Mathematics: Preparing for University Oct 25 2019 This book is intended to help candidates prepare for entrance examinations in mathematics and scientific subjects, including STEP (Sixth Term Examination Paper). STEP is an examination used by Cambridge colleges as the basis for conditional offers. They are also used by Warwick University, and many other mathematics departments recommend that their applicants

practice on the past papers even if they do not take the examination. Advanced Problems in Mathematics is recommended as preparation for any undergraduate mathematics course, even for students who do not plan to take the Sixth Term Examination Paper. The questions analysed in this book are all based on recent STEP questions selected to address the syllabus for Papers I and II, which is the A-level core (i.e. C1 to C4) with a few additions. Each question is followed by a comment and a full solution. The comments direct the reader's attention to key points and put the question in its true mathematical context. The solutions point students to the methodology required to address advanced mathematical problems critically and independently. This book is a must read for any student wishing to apply to scientific subjects at university level and for anybody interested in advanced mathematics.

Intact Jul 22 2019 'A must-read for psychotherapists, doctors and everyone else who enjoys connecting ideas' Philippa Perry 'Compassionate and challenging, warmly human and coolly rigorous. . . I am now thinking afresh about how I live in my own body, in a world where, as Clare Chambers argues, nobody's body is ever allowed to be good enough, just as it is' Timandra Harkness What would it take for your body to be good enough? The pressure to change our bodies is overwhelming. We strive to defy ageing, build our biceps, cure our disabilities, conceal our quirks. Surrounded by filtered photos and surgically-enhanced features, we must contort our physical selves to prejudiced standards of beauty. Perfection is impossible, and even an acceptable body seems out of reach. In this mind-expanding book, Cambridge philosopher Clare Chambers argues that the unmodified body is a key political principle. While defending our right to change our bodies, she argues that the social pressures to modify undermine equality. She shows how the connected ideas of the natural body, the normal body, and the whole body have been used both to disrupt and to maintain social hierarchies - sometimes oppressing, other times liberating. The body becomes a site of political importance: a place where hierarchies of sex, gender, race, disability, age, and class are reinforced. Through a thought-provoking analysis of the power dynamics that structure our society, and with examples ranging widely from bodybuilding to breast implants, deafness to male circumcision, *Intact* stresses that we must break away from the oppressive forces that demand we alter our bodies. Instead, it offers a bold, transformative vision of the human body that is equal without expectation.
