*Mission Economy* Oct 02 2022 'One of the most influential economists in the world' Wired Even before the Covid-19 pandemic in 2020, capitalism was stuck. It had no answers to a host of problems, including disease, inequality, the digital divide and, perhaps most blatantly, the environmental crisis. Taking her inspiration from the 'moonshot' programmes which successfully co-ordinated public and private sectors on a massive scale, Mariana Mazzucato calls for the same level of boldness and experimentation to be applied to the biggest problems of our time. We must, she argues, rethink the capacities and role of government within the economy and society, and above all recover a sense of public purpose. *Mission Economy*, whose ideas are already being adopted around the world, offers a way out of our impasse to a more optimistic future.

**Joan Garry's Guide to Nonprofit Leadership**

Jul 27 2019 Nonprofit leadership is messy

Nonprofits leaders are optimistic by nature.

They believe with time, energy, smarts, strategy and sheer will, they can change the world. But as staff or board leader, you know nonprofits present unique challenges. Too many cooks, not enough money, an abundance of passion. It's enough to make you feel overwhelmed and alone. The people you help need you to be successful. But there are so many obstacles: a micromanaging board that doesn't understand its true role; insufficient fundraising and donors who make unreasonable demands; unclear and inconsistent messaging and marketing; a leader who's a star in her sector but a difficult boss...

And yet, many nonprofits do thrive. Joan Garry's *Guide to Nonprofit Leadership* will show you how to do just that. Funny, honest, intensely actionable, and based on her decades of experience, this is the book Joan Garry wishes she had when she led GLAAD out of a financial crisis in 1997. Joan will teach you how to: Build a powerhouse board Create an impressive and sustainable fundraising program Become seen as

a 'workplace of choice' Be a compelling public face of your nonprofit This book will renew your passion for your mission and organization, and help you make a bigger difference in the world. *The Sustainment Battle Staff & Military Decision Making Process (MDMP) Guide* Sep 28 2019

Since 2004, the US Army has started a revolution of reorganization and doctrine development throughout its Combat, Combat Support and especially Combat Service Support "logistics" organizations, known as "Transformation." In the logistics or "Sustainment" arena, the Army's concept towards supporting other units has changed from the old "out-stockpile" the enemy concept towards a system used by modern civilian distributors - "Just-In-Time" sustainment, leaving planning and synchronizing throughput of commodities and support to the customer with little margin of error. To successfully accomplish this, Sustainment planners must thoroughly understand the Military Decision Making Process or "MDMP" for short. Conducting a Sustainment oriented MDMP is essential in integrating the Sustainment War Fighting Functional Area into the unit's plan and for ensuring a synchronized and supportable course of action. Successful integration is a result of having the right personnel, available tools, correct MDMP methodology, and synchronized timeline throughout the process. If this guide can assist logistics' planners in accomplishing this process, then it has accomplished its intent and mission.

first time? Were you ever scared? Where to next -- the Moon, Mars, or beyond? Based on his historic mission to the International Space Station, *Ask an Astronaut* is Tim Peake's guide to life in space, and his answers to the thousands of questions he has been asked since his return to Earth. With explanations ranging from the mundane -- how do you wash your clothes or go to the bathroom while in orbit? -- to the profound -- what's the point? -- all written in Tim's characteristically warm style, Tim shares his thoughts on every aspect of space exploration. From training for the mission to launch, to his historic spacewalk, to re-entry, he reveals for readers of all ages the cutting-edge science behind his groundbreaking experiments, and the wonders of daily life on board the International Space Station. The public was invited to submit questions using the hashtag #askanastronaut, and a selection are answered by Tim in the book, accompanied with illustrations, diagrams, and never-before-seen photos.

**The New Librarianship Field Guide** Mar 27 2022 How librarians can be radical positive change agents in their communities, dedicated to learning and making a difference. This book offers a guide for librarians who see their profession as a chance to make a positive difference in their communities—librarians who recognize that it is no longer enough to stand behind a desk waiting to serve. R. David Lankes, author of *The Atlas of New Librarianship*, reminds librarians of their mission: to improve society by facilitating knowledge creation in their communities. In this book, he provides tools, arguments, resources, and ideas for fulfilling this mission. Librarians will be prepared to become radical positive change agents in their communities, and other readers will learn to understand libraries in a new way. The librarians of Ferguson, Missouri, famously

became positive change agents in August 2014 when they opened library doors when schools were closed because of civil unrest after the shooting of an unarmed teen by police. Working with other local organizations, they provided children and their parents a space for learning, lunch, and peace. But other libraries serve other communities—students, faculty, scholars, law firms—in other ways. All libraries are about community, writes Lankes; that is just librarianship. In concise chapters, Lankes addresses the mission of libraries and explains what constitutes a library. He offers practical advice for librarian training; provides teaching notes for each chapter; and answers “Frequently Argued Questions” about the new librarianship.

**The Wilder Nonprofit Field Guide to Crafting Effective Mission and Vision Statements** Feb 23 2022 Bring focus and direction to your work: Too often, if you ask four people in a nonprofit what their organization's mission is, you'll get four different answers. Organizations without clearly defined and agreed-to mission and vision statements frequently find themselves adrift at sea, in real financial trouble, and unable to make an ongoing, positive impact on the community. But an effective mission and vision statement can help an organization unify services and create a consistent approach to new program development. *Crafting Effective Mission and Vision Statements* will help your organization develop (or revise) mission and vision statements that bring focus and direction to your work. With orderly, easy-to-follow steps, this engaging guide shows you how to build ownership for the mission and vision statements among board and staff, and create a common understanding of your organization's goals.
