Grading Smarter, Not Harder Apr 01 2020 All the talk of closing the achievement gap in schools obscures a more fundamental issue: do the grades we assign to students truly reflect the extent of their learning? In this lively and eye-opening book, educator Myron Dueck reveals how many of the assessment policies that teachers adopt can actually prove detrimental to student motivation and achievement and shows how we can tailor policies to address what really matters: student understanding of content. In sharing lessons, anecdotes, and cautionary tales from his own experiences revamping assessment procedures in the classroom, Dueck offers a variety of practical strategies for ensuring that grades measure what students know without punishing them for factors outside their control; critically examining the fairness and effectiveness of grading homework assignments; designing and distributing unit plans that make assessment criteria crystal-clear to students; creating a flexible and modular retesting system so that students can improve their scores on individual sections of important tests. Grading Smarter, Not Harder is brimming with reproducible forms, templates, and real-life examples of grading solutions developed to allow students every opportunity to demonstrate their learning. Written with abundant humor and heart, this book is a must-read for all teachers who want their grades to contribute to, rather than hinder, their students' success.

Prioritization, Delegation, and Assignment - E-Book Nov 28 2019 Prioritization, Delegation, and Assignment: Practice Exercises for the NCLEX® Examination, 4th Edition is the original and most popular NCLEX review book on the market focused exclusively on building prioritization, delegation, and patient assignment skills!

Using a unique simple-to-complex approach, this best-selling text establishes your foundational knowledge of management of care, then provides exercises of increasing difficulty to help you transition to practice in today's fast-paced healthcare environment. This new edition features more than 60 pages of additional questions, a completely new pharmacology chapter and questions, a content re-alignment to match the latest National League for Nursing guidelines for delegation and patient assignment, increased inclusion of LGBTQ-related scenarios, updated infection control coverage, and much more! Answer keys offer a detailed rationale and an indication of the focus of the question to encourage formative assessment. Interactive practice quizzing on Evolve allows you to create a virtually unlimited number of practice sessions in Study Mode or Exam Mode. Emphasis on the NCLEX Examination's management-of-care focus addresses the heavy emphasis on prioritization, delegation, and patient assignment in the current NCLEX-RN® Examination. Updated content throughout matches the latest evidence-based guidelines and treatment protocols. Improved navigation and usability with color tabs on the edges of the book's pages and with answers directly following each chapter. UNIQUE! Three-part organization establishes foundational knowledge and then provides exercises of increasing difficulty to help you build confidence in your prioritization, delegation, and patient assignment skills. NEW! More than 60 pages of new questions provide additional practice prepare you for the prioritization, delegation, and patient assignment questions on the NCLEX-RN® Exam. NEW! Pharmacology chapter and expanded pharmacology questions throughout prepare you for the strong pharmacology focus of the latest NCLEX-RN® Exam. NEW! Re-alignment of delegation and assignment content and answer key coding to reflect the latest National League for Nursing (NLN) guidelines on what constitutes delegation and what constitutes patient assignment. NEW! Increased emphasis on infection control addresses the growing problems of antibiotic resistance and the rapid spread of infectious disease resulting from our globally mobile society and from growing resistance to vaccination. NEW! Increased inclusion of LGBTQ scenarios and healthcare concerns prepares you for patient-centered care with LGBTQ clients.

To Kill a Mockingbird Study Guide and Student Workbook Jun 15 2021

Prioritization, Delegation, and Assignment May 15 2021 Prioritization, Delegation, and Assignment: Practice Exercises for the NCLEX® Examination is the only review book on the market with a focus on prioritization and management of care—just like the current NCLEX Examination itself! The workbook's unique approach establishes your foundational knowledge and then provides exercises of increasing difficulty to help you build confidence in your prioritization, delegation, and patient assignment skills. It offers unique preparation for the NCLEX Examination and effectively equips you to practice in today's fast-paced healthcare environment. UNIQUE! Emphasis on the NCLEX Management-of-Care Focus: LaCharity is the only workbook available that focuses on the NCLEX Exam's management-of-care focus No other book on the market addresses the heavy management-of-care emphasis - consisting of prioritization, delegation, and patient assignment - of the current NCLEX Examination (17-23% of the 2013 NCLEX-RN Exam). Graduating seniors report that LaCharity has been invaluable in preparing them to pass the NCLEX Exam and enter into practice. UNIQUE! Three-Part Organization: The book consists of three parts, each of which builds on the previous one: . Part 1: Introduction; Part 2: Prioritization, Delegation, and Assignment in Common Health Scenarios; Part 3: Prioritization, Delegation, and Assignment in Complex Health Scenarios. This organization establishes foundational knowledge and then provides exercises of increasing difficulty to help students build confidence in their prioritization, delegation, and patient assignment skills. It also helps students move from passing the NCLEX-RN Exam to "hitting the ground running" as they transition into clinical practice. Part 1: Introduction: Part 1, consisting of a chapter by delegation expert Ruth Hansten, provides guidelines for prioritization, delegation, and patient assignment decisions. The Introduction provides a concise, practical foundation on which Parts 2 and 3 build. Part 2: Prioritization, Delegation, and Assignment in Common Health Scenarios: Organized by body system, the chapters in Part 2 begin to give students practice in applying the principles from Part 1 to relatively straightforward scenarios involving single patients or simple patient assignments. Straightforward NCLEX-style multiple-choice, multiple-select, ordering, and short-answer questions help students develop and build confidence in prioritization, delegation, and patient assignment skills while working within the confines of relatively simple health scenarios. Part 3: Prioritization, Delegation, and Assignment in Complex Health Scenarios: Unfolding cases in Part 3 gradually immerse students in realistically complex clinical situations involving patients with complicated health problems or challenging assignment issues. These unfolding cases build on the skills learned in Part 2 to equip students to make sound decisions in realistic, complex health scenarios involving complicated health problems and/or challenging patient assignment decisions. The "unfolding" nature of each case realistically demonstrates the progression of typical health scenarios and helps students learn to "think like nurses" by developing what Benner (2010) calls "clinical imagination." Answer Key: The in-depth Answer Key at the back of the book provides not only the correct answer but also a detailed rationale and an indication of the focus of the question, whether prioritization, delegation, supervision, or patient assignment. Detailed rationales encourage formative assessment, in which students learn as much from answering incorrectly as they do from answering correctly. Expanded content focus to include psychiatric/mental health, OB/maternity, and pediatrics along with med-surg areas New chapters on infection control and obstetrics

70 Times 7 Math: Answer Keys to Classwork/Homework Sep 18 2021 This resource provides the answers to math assignments that kindergarten through 5th-grade students complete in 70 Times 7 Math: Classwork/Homework, which is sold separately and supplements the textbook 70 Times 7 Math (An All-In-One Math Book for Grades Kindergarten Through 5th). The assignments are meant to provide students individual practice solving problems taught in their textbooks and to equip them to do well on the corresponding tests. There are four classwork assignments to help prepare students for each exam. (Both paper and computer-based tests are available and can be purchased from the Habakkuk Educational Materials website at <https://www.habakkuk.net/>. The classwork/homework assignments that this book provides the answers to can also be purchased from the website.) Each week's classwork will be in the same format as the test. If there are, let's say, 100 problems on an upcoming test, students in grades 3rd through 5th would complete all 100 of those types of problems each week for four weeks, although the answers to corresponding problems will differ from one week to the next. Questions included on the classwork and tests are not randomly selected from the chapters in focus. Instead, they are very comprehensive in that every type of problem students learn about in their textbook or complete as a class on the interactive whiteboard will also be solved individually by students on the classwork assignments and corresponding tests. Moreover, page numbers where students can turn to for help in their textbooks are specified at the beginning of the assignments and (in the case of the assignments exclusively for grades 3rd through 5th) beside the individual problems. (Tutorial videos are available in the electronic textbooks.) The classwork is graded by the teacher and the number of problems missed on each page can be recorded at the bottom (-0, -3, etc.). It is recommended that students be allowed to correct any problems with checkmarks before the final grade for the assignment is determined. Correcting errors from the classwork tends to help students to do better on the tests. Time should be allotted daily for students to work on the assignments. Teaching Philosophy Nov 01 2022 The difference in the practical approach to teaching philosophy can mean the difference between an engaging class and an excruciating one. In this expanded edition of *In the Socratic Tradition* (1997) Kasachkoff adds new sections on teaching philosophy with computers, teaching philosophical explanation, and teaching philosophy of gender. Chapters in the collection share the pedagogical insights of more than two dozen distinguished philosophers, offering practical suggestions on such issues as how to motivate students, construct syllabi and creative examinations for specific courses, and teach complex philosophical concepts. Like its predecessor, *Teaching Philosophy* will be an indispensable resource for teachers of all levels and fields of philosophy, and will be particularly helpful in lending inspiration to graduate students and professors called upon to teach courses outside of their specialty areas.

Practical English Level 365 Volume 1 Answer Key Aug 30 2022 The primary objective for providing this ANSWER KEY is to ease the burden of the teacher in marking the assignments. Many Teaching Assistants can use it to mark the assignments for the teacher. Even in situations where teachers have no Teaching Assistants, the class teacher may employ the conventional method of engaging the students in a-quick-in-class marking where students mark each other's assignments. Although I do not consider Practical English Level 365 completely self-instructional, some students, with the help of this ANSWER KEY, can use the text book with little or no help at all from professional teachers and/or parent-teachers. Kaayire Akosomo Nyantakyi is a Ghanaian by birth and an American citizen by naturalization. He is a seasoned teacher and author. Kaakyire holds a Bachelor's Degree in English from the Oklahoma State University in Stillwater, Oklahoma and Master's Degree in Creative Writing from the Queen's College of the City University of New York. Kaakyire is married to Mrs. Alice Nyantakyi. They have 5 children.
