The One Year Manual Jun 26 2022 This twelve-month manual brings the serious student of consciousness to an ongoing awareness of unity. Dr. Regardie revised this edition (originally published as *Twelve Steps to Spiritual Enlightenment*) to progress from the physical disciplines of body awareness, relaxation, and rhythmic breathing, through concentration, developing will, mantra practice, to the ultimate awareness that All is God.

Vampires in Their Own Words Apr 24 2022 "There's no book available on the vampire culture today with the range, depth, and diversity of Belanger's *Vampires in Their Own Words*."—Katherine Ramsland, author of *Piercing the Darkness* and *The Science of Vampires* "Belanger gives empathetic access to an emergent new magical-religious community...An important sourcebook for both the scholar and inquiring public."—J. Gordon Melton,

Director, Institute for the Study of American Religion, and author of *The Vampire Book: The Encyclopedia of the Undead* *The Code of Silence Has Been Broken* For this anthology, vampire Michelle Belanger convinced nearly two dozen real-life vampires to break the code of silence that has kept their fascinating subculture shrouded in secrecy. Sometimes provocative, sometimes surprisingly down-to-earth, these candid firsthand accounts come from both psi vampires who feed on energy and sanguine vampires who drink actual blood. Their true stories shed light on a variety of topics, including awakening to vampirism, the compulsion to feed and feeding practices, donor ethics and etiquette, and vampire traditions and codes of behavior.

Lemon-Aid New Cars and Trucks 2011 Nov 07 2020 As U.S. and Canadian automakers and dealers face bankruptcy and Toyota battles unprecedented quality-control problems, Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. Phil Edmonston, Canada's automotive "Dr. Phil" for more than 40 years, pulls no punches. In this all-new guide he says: Chrysler's days are numbered with the dubious help of Fiat. Electric cars and ethanol power are PR gimmicks. Diesel and natural gas are the future. Be wary of "zombie" vehicles: Jaguar, Land Rover, Saab, and Volvo. Mercedes-Benz – rich cars, poor quality. There's only one Saturn you should buy. Toyota – enough apologies: "when you mess up, 'fess up."

The Odyssey of a New Religion Jul 04 2020 "... solid scholarship.... [It] will not only serve as a model for those studying the New Religious Movements of the late twentieth century, but will offer help to mainline and other religious institutions who are struggling with problems of identity and change in our complex society today." -- Church History "... a thoroughly enjoyable book that would fit well into a graduate readings seminar on new religious movements....The book deserves a wide reading." -- Nova Religio "Lucas's study provides a model of how best to combine the methodologies and analyses of the history of religions and sociology. He has provided the groundwork for continued tracking of developments in this new religious movement for comparative purposes." -- Journal of the American Academy of Religion "... a carefully researched and well-written history of one of the important new religious movements to appear in the United States during the 1960s... the volume can be heartily recommended to all students of American religion." -- American Historical Review "Lucas has written one of the best informed studies of the evolution of a metaphysical cult into mainline eastern orthodoxy." -- The Reader's Review "This is an important book for libraries with holdings in American religion." -- Choice "... a fascinating narrative... a

rich feast for the investigator of the subculture of esoteric religion... " -- American Studies International "... especially welcome. It offers an in-depth, meticulously documented history of a church, the Holy Order of MANS, that arose from the Christian esoteric mystery tradition and then metamorphosed into a traditionalist Orthodox Christian sect. This unlikely tale has more twists and turns than a whodunit... this volume is that rarest of finds: an academic book that is a delight to read." -- Gnosis Magazine Traces the journey of a new religious movement from its start as a monastic-style New Age order to its transformation into the more conventional Christ the Savior Brotherhood, an Eastern Orthodox sect. A remarkable story of social and spiritual change in contemporary America.
