The 1980 Guide to the Evaluation of Educational Experiences in the Armed Services: Coast Guard, Marine Corps, Navy, Dept. of Defense Sep 27 2022

The 2004 Guide to the Evaluation of Educational Experiences in the Armed Services Jun 19 2019 For more than a half century, the Guide to the Evaluation of Education Experiences in the Armed Services has been the standard reference work for recognizing learning acquired in military life. Since 1942, ACE and has worked cooperatively with the US Department of Defense, the Armed Services, and the US Coast Guard in helping hundreds of thousands of individuals earn academic credit for learning achieved while

serving their country.

*How to Instant Pot* Nov 24 2019 Home cooks are in love with the Instant Pot, the multi-purpose pressure cooker that does the work of a slow cooker, pressure cooker, rice cooker, yogurt maker, sauté pan, steamer, and chafing dish all in one, saving time and hassle in the kitchen. This collection of 100 easy, creative, boundary-pushing recipes makes ultimate use of this amazing and increasingly popular appliance. Organized by function, the book offers

instructions for mastering each, and variations on basic dishes from Chicken Soup to No-Stir Polenta to Sweet Yogurt.

CASL User Manual Aug 22 2019 CASL, the Common Algebraic Specification Language, was designed by the members of CoFI, the Common Framework Initiative for algebraic specification and development, and is a general-purpose language for practical use in software development for specifying both requirements and design. CASL is already regarded as a de facto standard, and various sublanguages and extensions are available for specific tasks. This book illustrates and discusses how to write CASL specifications. The authors first describe the origins, aims and scope of CoFI, and review the main concepts of algebraic specification languages. The main part of the book explains CASL specifications, with chapters on loose, generated and free specifications, partial functions, sub- and supersorts, structuring specifications, genericity and reusability, architectural specifications, and version control. The final chapters deal with tool support and libraries, and present a realistic case study involving the standard benchmark for comparing specification frameworks. The book is aimed at software researchers and professionals, and follows a tutorial style with highlighted points, illustrative examples, and a full

specification and library index. A separate, complementary LNCS volume contains the CASL Reference Manual.
