Rise & Shine – An Integrated Semester Course for Class 4 (Semester 2) Aug 27 2019 *Rise and Shine - An Integrated Semester Course for Classes 1 to 5 has been designed and formulated in accordance with the guidelines of the latest National Curriculum Framework (NCF). It is a set of ten books, two for each class and one per semester. Each book includes subjects such as English, Mathematics, EVS/Science, Social Studies and General Knowledge. The key feature of the course is to make learning a joyful experience. Each book closely interweaves concepts to lay a strong foundation at the primary level. The course focuses on interactive approach to make the children active participants in the process of learning. Some of the key features of the series are :* □ Based on the curriculum guidelines given by the latest National Curriculum Framework. □ Graded and matched to the number of class hours planned by the schools. □ Key concepts in each subject linked with interesting explanations; visual aids such as illustrations, photographs, diagrams, maps and tables; activities, games and real-life examples. □ Carefully graded and comprehensive exercises for true evaluation. □ CD for animated lessons and interactive exercises for better understanding of the concepts learnt in the textbook. □ Online support for Assignments, E-book, Test paper Generator. □ Teachers Resource Book to facilitate teaching. Goyal Brothers Prakashan

[Educational Access and Excellence](#) Jul 19 2021 *The Association of Southeast Asian Institutions of Higher Learning (ASAIHL) has been playing an important role in educational development to promote innovative teaching, research and cooperation among institutions of higher learning. Build Bright University (BBU), Cambodia had organized the 2015 ASAIHL International Conference during 2-4 December at Siem Reap. The main theme of the conference was "Educational Access and Excellence". The conference covered three sub-themes, namely, (i) cross-border higher education in global context, (ii) excellence in education through provision of technology, effective teaching and research, and (iii) student learning outcomes. Delegates from France, UK, Japan, Singapore, Hong Kong, India, Thailand, Malaysia, Philippines, Vietnam, Taiwan, East Timor, Cambodia and others had participated in the conference.*

[Handbook of Research on Improving Engineering Education With the European Project Semester](#) Apr 27 2022 *Engineering education aims to prepare engineering undergraduates for their future professional journey where they will be called on to solve challenges affecting individuals, companies, and society. The European Project Semester (EPS) exposes students to project- and challenge-based learning, paying special attention to international multidisciplinary teamwork, sustainable design, innovative thinking, and project management in order to develop a set of desired professional skills. The Handbook of Research on Improving Engineering Education With the European Project Semester shares the best practices in engineering education through close examination of the EPS. It describes the adopted learning framework, analyzes how it contributes to the development of skills, reports on the types of challenges proposed to teams, and delivers a set of team-project cases from the network of providers. Covering topics such as engineering ethics, project management, and sustainable behavior, this book is essential to students in engineering, engineers, engineering educators, educational researchers, academic administration and faculty, and academicians.*

[Business and Industrial Laws \(For B.Com Sem.2, Delhi University\)](#), 3rd Edition Jan 13 2021 This book has been written for 'Business and Industrial Laws Paper' of the BCom Semester-II Examination of University of Delhi. The contents of the book have been designed strictly in accordance with the semester based syllabus, effective from the academic year 2011-12. The book attempts to present the complicated subject of 'Business and Industrial Laws' in an easily comprehensible manner. The intricate points of law have been explained in as lucid, systematic and logical way as possible in a compact form. The entire text has been organized in four parts, namely, Law of Contract, Law of Sale of Goods, Law of Limited Liability Partnership and Industrial Laws. This book presents the subject matter tailor-made, as per the revised course structure of the Paper, to enable the students to possess a text-book which caters to their needs in full.

Issues in Biomedical Engineering Research and Application: 2013 Edition Jun 05 2020 Issues in Biomedical Engineering Research and Application: 2013 Edition is a ScholarlyEditions™ book that delivers timely, authoritative, and comprehensive information about Reproductive Biomedicine. The editors have built Issues in Biomedical Engineering Research and Application: 2013 Edition on the vast information databases of ScholarlyNews.™ You can expect the information about Reproductive Biomedicine in this book to be deeper than what you can access anywhere else, as well as consistently reliable, authoritative, informed, and relevant. The content of Issues in Biomedical Engineering Research and Application: 2013 Edition has been produced by the world's leading scientists, engineers, analysts, research institutions, and companies. All of the content is from peer-reviewed sources, and all of it is written, assembled, and edited by the editors at ScholarlyEditions™ and available exclusively from us. You now have a source you can cite with authority, confidence, and credibility. More information is available at <http://www.ScholarlyEditions.com/>.

Advanced Information Systems Engineering Mar 15 2021 th CAiSE 2004 was the 16 in the series of International Conferences on Advanced Information Systems Engineering. In the year 2004 the conference was hosted by the Faculty of Computer Science and Information Technology, Riga Technical University, Latvia. Since the late 1980s, the CAiSE conferences have provided a forum for the presentation and exchange of research results and practical experiences within the field of Information Systems Engineering. The conference theme of CAiSE 2004 was Knowledge and Model Driven Information Systems Engineering for Networked Organizations. Modern businesses and IT systems are facing an ever more complex environment characterized by openness, variety, and change. Organizations are becoming less self-sufficient and increasingly dependent on business partners and other actors. These trends call for openness of business as well as IT systems, i.e. the ability to connect and interoperate with other systems. Furthermore, organizations are experiencing ever more variety in their business, in all conceivable dimensions. The different competencies required by the workforce are multiplying. In the same way, the variety in technology is overwhelming with a multitude of languages, platforms, devices, standards, and products. Moreover, organizations need to manage an environment that is constantly changing and where lead times, product life cycles, and partner relationships are shortening. The demand of having to constantly adapt IT to changing technologies and business practices has resulted in the birth of new ideas which may have a profound impact on the information systems engineering practices in future years, such as autonomic computing, component and services marketplaces and dynamically generated software.
