Minimal Old Chinese and Later Han ChineseSep 18 2021 Although long out of date, Bernard Karlgren's (1957) remains the most convenient work for looking up Middle Chinese (ca. A.D. 600) and Old Chinese (before 200 B.C.) reconstructions of all graphs that occur in literature from the beginning of writing (ca. 1250 B.C.) down to the third century B.C. In the present volume, Axel Schuessler provides a more current reconstruction of Old Chinese, limiting it, as far as possible, to the post-Karlgrenian phonological features of Old Chinese that enjoy some consensus among today's investigators. At the same time, the updating of the material disregards more speculative theories and proposals. Schuessler refers to these minimal forms as "Minimal Old Chinese" (OCM). He bases OCM on Baxter's 1992 reconstructions but with some changes, mostly notational. In keeping with its minimal aspect, the OCM forms are kept as simple as possible and transcribed in equally simple notation. Some issues in Old Chinese phonology still await clarification; hence interpolations and proposals of limited currency appear in this update. Karlgren's Middle Chinese reconstructions, as emended by Li Fang-kuei, are widely cited as points of reference for historical forms of Chinese as well as dialects. This emended Middle Chinese is also supplied by Schuessler. Another important addition to Karlgren's work is an intermediate layer midway between the Old and Middle Chinese periods known as "Later Han Chinese" (ca. second century A.D.) The additional layer makes this volume a useful resource for those working on Han sources, especially poetry. This book is intended as a "companion" to the original Grammata Serica Recensa and therefore does not repeat other information provided there. Matters such as English glosses and references to the earliest occurrence of a graph can be looked up in Grammata Serica Recensa itself or in other relevant dictionaries. The great accomplishment of this companion volume is to update an essential reference and thereby fulfill the need for an accessible and user-friendly source for citing the various historically reconstructed stages of Chinese.

Pro Silverlight 5 in C#Oct 27 2019 Silverlight 5 is the latest iteration of Microsoft's cross-browser technology for creating rich user experiences on the Web. Like its predecessor, it rides atop the .NET Framework for maximum ease of use and coding efficiency. The new technology carries forward much of the work that has been done before and augments it in many important respects, including support for H.264 video, major improvements to the graphics engine (including true 3D rendering), and much richer data-binding options for interfacing with other applications. Pro Silverlight 5 in C# is an invaluable reference for professional developers who want to discover the new features of Silverlight. Author Matthew MacDonald's expert advice guides you through creating rich media applications using Silverlight in the environment you're most productive in—no matter what the target platform. As you learn about the features that put Silverlight in direct competition with Adobe Flash, such as rich support for 2D and 3D drawing, animations, and media playback, you'll experience the plumbing of .NET and the design model of WPF through Silverlight—all of the same .NET technology that developers use to design next-generation Windows applications. Pro Silverlight 5 in C# is a comprehensive tutorial, written from professional developer to professional developer. Please note: the print version of this title is black & white; the eBook is full color.

Playing with MonstersAug 30 2022 Roman Serpico has abandoned a thriving rock star career to prospect for The Bare Bones MC. His goal: revenge on the cartel for his father's murder. His black soul is a writhing mass of venom and rage, and joining the club fuels his ability to wreak havoc. His stepfather, the club's lawyer Slushy, calls on him to save a stepsister Roman barely knows. Nurse's assistant Gudrun McGill has fallen in with a bad crowd and needs an emergency extrication...now.Roman believes he's killed Gudrun's assailant, but the loathsome, murderous fugitive Riker has nine lives. He lives to traffic in human flesh another day, and Roman is hell-bent on tracking the bastard down. But The Bare Bones votes to place Gudrun into custody with her stepbrother as her bodyguard. Things heat up between them when they hide in plain sight in the ghost town that surrounds The Citadel, their clubhouse.Roman has vowed celibacy to fixate on vengeance. Gudrun wants nothing to do with men after losing her husband in a horrific car crash.The terror of their situation brings them too close for comfort. Walls must come down. Barriers must be broken. Taking risks is in the nature of their new MC family. Roman has to roll the dice, to hit fast against Riker and the Chinese cartel. To preserve his newfound family, he has to roll like thunder and be gone like smoke.Publisher's Note: This is Book #4 in the Bare Bones MC series. This book is a stand-alone and can be read out of order, but the series is best read in order to gain the full experience. This is not your mother's contemporary romance. Daring readers will encounter sexual assault, nonconsensual drugging, general violence between bikers and cowboys, and a HEA. It is not for the faint of heart. It's a full length novel of 67,000 words with no cliffhanger. Recommended 18+ due to mature content and possible triggers.

Fodor's Dordogne & the Best of Southwest France Oct 05 2020 Get inspired and plan your next trip with Fodor's ebook travel guide to Dordogne and Southwest France (including Bordeaux, the Basque Country, and Paris with highlights in between). Intelligent Planning: Discover all of the essential, up-to-date travel insights you expect in a Fodor's guide, including Fodor's Choice dining and lodging, top experiences and attractions, and detailed planning advice. Easy Navigation for E-Readers: Whether you're reading this ebook from start to finish or jumping from chapter to chapter as you develop your itinerary, Fodor's makes it easy to find the information you need with a single touch. In addition to a traditional main table of contents for the ebook, each chapter opens with its own table of contents, making it easy to browse. Full-Color Photos and Maps: It's hard not to fall in love with Southwest France as you flip through a vivid full-color photo album. Explore the layout of city centers and popular neighborhoods with easy-to-read full-color maps. Plus get an overview of French geography with the convenient atlas at the end of the ebook. What's Covered? Get to Know Dordogne and the Best of Southwest France: One of the hottest destinations in France, the Dordogne is a stone-cottage pastoral studded with fairy-tale castles, storybook villages, and France's top prehistoric sights. The wines of Bordeaux are the standard against which others are measured. They've made the city rich and the owners of its vineyards, like Château Mouton-Rothschild, even richer. The Basque Country will put you under its spell, whether you head for Bay of Biscay resorts like Biarritz, coastal villages such as St-Jean-De-Luz, or the Pyrenean peaks. No trip to France would be complete without a stop in Paris. A quayside vista that takes in the Seine, a passing boat, Notre-Dame, the Eiffel tower, and mansard roofs all in one generous sweep is enough to convince you that this is indeed the most beautiful city on Earth. Note: This ebook edition includes photographs and maps that will appear on black-and-white devices but are optimized for devices that support full-color images.

The Bare Bones Camera Course for Film and Video May 15 2021 A timeless classic with more than 165,000 copies sold, The Bare Bones Camera Course for Film and Video has been chosen by over 700 colleges to teach basic film and video techniques. Written by a working professional, The Bare Bones Camera Course is the most user-friendly book available on the subject of film and video production: it reduces the shooting experience to its essence, making complicated concepts easy to grasp. Using simple clear language and more than 150 illustrations, the book explains: Exposure Lenses Composition Basic sequence Crossing the line Lighting And much more! When you finish this book, you will know and understand how to shoot good pictures that will edit together seamlessly in post production. With added chapters on sound and editing, this new edition of The Bare Bones Camera Course for Film and Video rounds out the education of any filmmaker. Allworth Press, an imprint of Skyhorse Publishing, publishes a broad range of books on the visual and performing arts, with emphasis on the business of art. Our titles cover subjects such as graphic design, theater, branding, fine art, photography, interior design, writing, acting, film, how to start careers, business and legal forms, business practices, and more. While we don't aspire to publish a New York Times bestseller or a national bestseller, we are deeply committed to quality books that help creative professionals succeed and thrive. We often publish in areas overlooked by other publishers and welcome the author whose expertise can help our audience of readers.

The Hinterlands Mar 25 2022 From a land you've never heard of comes a story you'll never forget. 1896. In the vast network of the Niger Delta waterways, where palm oil and blood flow from the hinterlands, the ancient kingdom of Benin is under siege. Legendary trader and leopard hunter Brendan Donivan battles to protect his adopted homeland's sacred civilization from the colonial expansion of the British while balancing his commerce with the whiteman's world. Brendan's reality is fractured by the arrival of... ..New York anthropologist Elle Bowie, drawn to Africa by a dream. Amazed to discover the domain holds vast happiness and delight, she cannot reveal her true ambition. Against everything her mind and heart has trained her for, Elle has it bad for Brendan. Brendan cannot love a woman in cahoots with the British. Elle cannot love any man. Central in the scheming of the Oil Rivers citizens is the traitorous gnome Mateus, descended from Portuguese soldiers, the happy-go-lucky Texan Rip, who masquerades as Elle's husband, and the majestic and brutal General Ologboshere, in command of thousands of warriors. As Brendan and Elle become mixed up in the political intrigues of the steamy jungle, the British forces bear down relentlessly upon them. They face the extinction of a way of life, trading hulks anchored in the rivers, advanced bronze artwork, and colossal war canoes. The Kingdom of Benin, the land of ritualistic human sacrifice and juju religion. The lives and loves of many hang in the balance in...THE HINTERLANDS

It Takes a Thief Apr 25 2022 Great outlaws lost their lives to Ford. Ford Illuminati, Prez of the famed Bare Bones MC, is in the crosshairs of Noodlum, a whacked thug recently joined with the Cutlasses. When Ford's company steals some highway workers of theirs, Noodlum lashes out with subterfuge, placing fake news stories about the club and stealing their identities to charge Cialis and penis weights. But the clincher is when Noodlum targets Ford's old lady, Madison. His twisted obsession with Madison puts Ford on the alert, and Santiago Slayer on his trail. But things haven't been going well between Ford and Maddy lately. His jobs-Prez of the MC and his construction company-have got him working more than double time. Neglected and feeling unloved, Maddy has a meltdown when a patient of hers dies. She needs to do something different--something fulfilling. When she works at a clinic on the Indian Rez, a heartthrob doctor catches her eye. But he's not the real menace. Noodlum has come unhinged, targeting the light of his life-Madison Illuminati. Ford is forced to play along with the whacko's game step by step. It will take the combined forces of his club and his company to emerge triumphant...to save his one true love and reclaim their marriage. Great ladies lost their hearts.

The Four Quarters of the World Feb 21 2022 One deranged Emperor unified a country. One fearless adventurer can destroy it. Abyssinia, 1866. The crazed but dynamic Christian King of Kings has taken power as Tewodros II. His vision: to reunite Ethiopia under one crown, one God. To that end he moves his massive, gorgeously arrayed army from province to province. But rebellion is continuous and, in the end, he is Emperor of only the remote and inaccessible rock Magdala, where he holds political prisoners, spouses, relations he's tired of, and fifty Europeans. Into this barbaric and breathtaking kingdom comes American adventurer, linguist, and ethnologist, Captain Ravinger Howland. Becoming Tewodros' right-hand man, Ravi is allowed all the privileges of a royal son: concubines, armory, all the raw beef he can eat, but not the returned Queen of Sheba. American doctor Delphine Chambliss, Tewodros believes, is the reincarnation of Makeda from whom all Abyssinian kings are descended. But even as Ravi begins to question Tewodros' sanity, he falls for the bitterly bereaved Dr. Chambliss. And now, as the kingdom crumbles, Ravi and Tewodros lock horns over the woman in a battle to the death.

Unlike No Other Sep 06 2020 Robert Wemheuer details many important events in his impressive career in a two-book memoir Unlike No Other. His main focus is to honor the unsung heroes with whom he served as well as to call out some not-so-good characters. The Marines, sailors, and civilians who helped him learn a

grow from his missteps that helped him develop his leadership skills are his primary emphasis. His description of the career-building steps necessary to move from a simple civilian life to that of a company grade Marine Corps officer and naval aviator are told in a straightforward, unvarnished, and concise manner. He also describes his combat experiences flying the CH-53 helicopter during his three tours of duty in Vietnam, again focusing on the Marines who supported his efforts both in and out of the cockpit. Robert looks at his career from a very interesting perspective. In our early years, he was one of the youngest superstars in our squadron, and you could always depend on him for anything. Robert, nicknamed Bull, was in some really hot combat. In just one mission, his Marine H-53 squadron was supporting a large army unit in the Lam Son 719 battle in Laos in which the army lost 106 helicopters. Bull rescued under heavy, heavy fire two legendary Marine squadron mates (Charlie Pitman and Mike Wasco) who had been shot down. You could always depend on Robert, and he had many more hot missions. Unlike No Other also describes the life of a Marine field grade officer as he ascends to higher ranks and greater responsibilities. It highlights the problems and potential political risks involved in navigating the military and civilian bureaucratic systems. I had the pleasure of serving alongside Robert Wemheuer over my long career in the Marine Corps. He tells it like it is and always will. Read, learn, and enjoy unlike no other. Colonel Wemheuer's goal in writing his memoir is to highlight the accomplishments of the Marines, sailors, and civilians who he had the honor to work with during his twenty-five-year career. His is that this second book also will give them some of the recognition they deserve for doing an outstanding job day in and day out, generally receiving little or no recognition for their work. --Richard "Rick" Phillips, Major General, United States Marine Corps "Insert picture on back cover" Lieutenant Colonel Wemheuer and his OV-10 on Okinawa in 1982. Book 2 of this memoir traces my career as a field grade officer after my promotion to major then lieutenant colonel and finally to colonel through my retirement after a successful tour of duty at my final command of the Marine Corps Air Station Tustin, California. Book 2, like book 1, is made up of individual, stand-alone chapters laid out in chronological order.

Strangely WonderfulJan 23 2022 It's 1828, and life is good for the pirates of Madagascar... Their Captain is the Hungarian Count Tomaj Balashazy, a refugee from the U.S. Navy. Count Balashazy rules the coast from his tropical mansion Barataria, a fortress built against enemies he's made cruising the Indian Ocean. Bitterly cruel, Tomaj feels guilt at the loss of his family in New Orleans, and he wallows in clouds of opium. When the American naturalist Dagny Ravenhurst falls into Tomaj's lagoon, it's the beginning of the end of arcadian bliss on the island. French industrialist Paul Boneaux commands his empire of factories in the central highlands. As the special pet of the psychotic Malagasy Queen Ranavalona, Boneaux enjoys a monopoly over all manufacturing, commerce, and his mistress. Beholden to Boneaux, Dagny and her two brothers need his patronage to survive. Zeke, fiercely protective of Dagny, yearns to start a legitimate trading post. The gentle and guileless geologist Salvatore believes he can make their fortune mining, and falls for the exotic charms of the Pirate Count. Quartermaster Youx struggles to earn the same love Balashazy had for his first quartermaster, killed in battle with Chinese pirates. And sinister ship's cook Slushy reveals why he was run out of his job as a bootblack boy in New York. Dagny's joyless scientific heart melts for the poetic nature of the Count, who has promised to deliver the rare aye-aye monkey. The King dies—or is he murdered?—and the Queen gives free rein to her merciless anti-European impulses. The island runs with blood, and only one world can emerge triumphant. In Madagascar's utopian paradise, all is... Strangely Wonderful

Vietnamese Migrants in Australia and the Global Digital DiasporaApr 23 2019 Through oral histories, memoirs, and Facebook posts of Vietnamese adults who entered Australia as children after the Vietnam War (and Vietnamese refugees, war orphans, and children of refugees) this book provides insight into the memories of forced migrant childhoods and histories, as well as the complexities of national and transnational identity and belonging in digital diaspora. As war and displacement compounds the need for creating communities and histories for cultural continuity, this book is a history about childhood and migration for the Vietnamese diaspora of refugees, adoptees, and second generation in Australia and their connectedness to a global and digital diaspora. Using Facebook as a digital archive for historical research, Vietnamese Migrants in Australia and the Global Digital Diaspora presents new methods for the study of what Nguyen Aus proposes as a new area of digital diaspora studies for interdisciplinary research about real and digital life in the humanities and social sciences. As a contemporary digital diaspora study of Vietnamese forced child migrants from 1975 to the present, this book contains a mixed-methods historical analysis of the impact of war and displacement on memories of childhood. This book presents an innovative history of the national, transnational, digital, and contemporaneous lives of Vietnamese child migrants, which will make a significant contribution to the discourse on transnational childhood, migration, and belonging for refugees and migrants in the twenty-first century.

Metaheuristics for Dynamic OptimizationDec 10 2020 This book is an updated effort in summarizing the trending topics and new hot research lines in solving dynamic problems using metaheuristics. An analysis of the present state in solving complex problems quickly draws a clear picture: problems that change in time having noise and uncertainties in their definition are becoming very important. The tools to face these problems are still to be built, since existing techniques are either slow or inefficient in tracking the many global optima that those problems are presenting to the solver technique. Thus, this book is devoted to include several of the most important advances in solving dynamic problems. Metaheuristics are the more popular tools to this end, and then we can find in the book how to best use genetic algorithms, particle swarm, ant colonies, immune systems, variable neighborhood search, and many other bioinspired techniques. Also, neural network solutions are considered in this book. Both, theory and practice have been addressed in the chapters of the book. Mathematical background and methodological tools in solving this new class of problems and applications are included. From the applications point of view, not just academic benchmarks are dealt with, but also real world applications in logistics and bioinformatics are discussed here. The book then covers theory and practice, as well as discrete versus continuous dynamic optimization, in the aim of creating a fresh and comprehensive volume. This book is targeted to either beginners and experienced practitioners in dynamic optimization, since we took care of devising the chapters in a way that a wide audience could profit from its contents. We hope to offer a single source for up-to-date information in dynamic optimization, an inspiring and attractive new research domain that appeared in these last years and is here to stay.

The WashingtonianJan 11 2021

The Routledge Companion to BioethicsJan 29 2020 The Routledge Companion to Bioethics is a comprehensive reference guide to a wide range of contemporary concerns in bioethics. The volume orients the reader in a changing landscape shaped by globalization, health disparities, and rapidly advancing technologies. Bioethics has begun a turn toward a systematic concern with social justice, population health, and public policy. While also covering more traditional topics, this volume fully captures this recent shift and foreshadows the resulting developments in bioethics. It highlights emerging issues such as climate change, transgenetics, and medical tourism, and re-examines enduring topics, such as autonomy, end-of-life care, and resource allocation.

Certain Investigation on Improved PSO Algorithm for Workflow Scheduling in Cloud Computing EnvironmentOct 2020 Cloud computing is a new prototype

for enterprises which can effectively assist the execution of tasks. Task scheduling is a major constraint which greatly influences the performance of cloud computing environments. The cloud service providers and consumers have different objectives and requirements. For the moment, the load and availability of the resources vary dynamically with time. Therefore, in the cloud environment scheduling resources is a complicated problem. Moreover, task scheduling algorithm is a method by which tasks are allocated or matched to data center resources. All task scheduling problems in a cloud computing environment come under the class of combinatorial optimization problems which decide searching for an optimal solution in a finite set of potential solutions. For a combinatorial optimization problem in bounded time, exact algorithms always guarantee to find an optimal solution for every finite size instance. These kinds of problems are NP-Hard in nature. Moreover, for the large scale applications, an exact algorithm needs unexpected computation time which leads to an increase in computational burden. However, the absolutely perfect scheduling algorithm does not exist, because of conflicting scheduling objectives. Therefore, to overcome this constraint heuristic algorithms are proposed. In workflow scheduling problems, search space grows exponentially with the problem size. Heuristics optimization as a search method is useful in local search to find good solutions quickly in a restricted area. However, the heuristics optimization methods do not provide a suitable solution for the scheduling problem. Researchers have shown good performance of metaheuristic algorithms in a wide range of complex problems. In order to minimize the defined objective of task resource mapping, improved versions of Particle Swarm Optimization (PSO) are put in place to enhance scheduling performance with less computational burden. In recent years, PSO has been successfully applied to solve different kinds of problems. It is famous for its easy realization and fast convergence, while suffering from the possibility of early convergence to local optimums. In the proposed Improved Particle Swarm Optimization (IPSO) algorithm, whenever early convergence occurs, the original particle swarm would be considered the worst positions an individual particle and worst positions global particle the whole swarm have experienced.

Have Gun, Will Travel Sep 30 2022 The sun never sets on a Bare Bones patch. Beatrix Hellman has reunited with her Bare Bones sweetbutt friends from high school. Her isolated life in a mountaintop convent has ground to a sudden halt, her faith dashed against the rocks. She needs something else to believe in, and her old friends become her new family. But a sadistic cartel associate of the club has maimed one of the whores. Bee and the women put a bounty on Tony Tormenta's head. And they think they know just the man for the job. Zane "Sax" Saxonberg is back from a different sort of exile. He was banished by his club Pro brother Leo a decade ago to ride the interstates of America as a nomad. Haunting back road BDSM clubs, Sax has a willing submissive in every state. He returns to the Bare Bones' backyard to help the women and to check on his nephew Harte. Instead he finds a fiery slave in Bee-part camp counselor, part nun, part For Me Queen. Will Sax's bold heroics renew Bee's faith in the world? She finds control and strength in submitting to the virile bad boy biker. With each power exchange, she is brought closer to a fresh hope and conviction, but tracking down the brutal Tormenta also brings fresh danger as they close in on his mountain hideout.

Making His Bones Jul 29 2022 The party's not over 'til you smile for the mugshot. Gray Whaley has returned to Pure and Easy, the scene of childhood horror, and the safety of his old friends, The Bare Bones MC. He's fed up with the trivial, superficial LA scene where he emceed a reality show and modeled for perverts. He wants to get back to basics. When a Bare Boner is arrested by the FBI for an old murder, Gray falls in with Elektra Spinoza, the hot, dark forensic geneticist who made it all happen with her infallible DNA science. Gray is smitten, and determines to help Elektra track down the killer of her daughter a decade ago. With the assistance of half-breed shepherd Galileo Tallwood, Mexican drug mule Tiago, and a team of hotshot "hacktivists" headed by Tobiah Weingarten, Gray and Elektra plunge toward their destiny with the unknown. A church pastor is using kids as drug runners, then sending them out into the desert with moonshine to die. Even step closer to the sick child killer dredges up youthful nightmares for Gray, but he's determined to power through it for the love of the sexy scientist and vengeance for abused children. As for Elektra, well, she's just not going to rest until the culprit smiles for the mugshot. Publisher's Note: This is Book #9 in the Bare Bones MC series. This book is a standalone and can be read out of order, but the series is best read in order to gain the full experience. This is not your mother's contemporary romance. Daring readers will encounter violence, gun play, a backstory involving underage porn, human smuggling, and child murder. It is not for the faint of heart. It's a full-length novel of 67,000 words with no cliffhanger and HEAs all around for all. Mature content and possible triggers.

Fodor's Essential France Oct 08 2020 Get inspired and plan your next trip with Fodor's ebook travel guide to Essential France (including Paris, Ile-de-France, the Loire Valley, Normandy, Lyon and the Alps, and Provence and the French Riviera, with highlights in between). In addition to a traditional main table of contents for the ebook, each chapter opens with its own table of contents, making it easy to browse. Full-Color Photos and Maps: It's hard not to fall in love with France as you flip through a vivid full-color photo album. Explore the layout of city centers and popular neighborhoods with easy-to-read full-color maps. Plus get an overview of French geography with the convenient atlas at the end of the ebook. What's Covered? Get to Know Essential France: The Ile-de-France region is the nation's heartland. Here Louis XIV built vainglorious Versailles, Chartres brings the faithful to their knees, and Monet's Giverny enchants all. To the south, the Loire Valley offers Chenonceau, Chambord and Saumur--the parade of royal and near-royal chateaus that magnificently capture France's golden age of monarchy. Northwest Normandy is sculpted with cliff-lined coasts and has been home to saints and sculptors, with a dramatic past marked by Mont-St-Michel's majestic abbey, Rouen's towering cathedral, and the Day beaches. Local chefs rival their Parisian counterparts in treasure-filled Lyon, heart of a diverse region where you can ski Mont Blanc or take a heady trip along the Beaujolais Wine Road. Don't miss Provence, famed for its Lavender Route, the honey-gold hill towns of Luberon, and vibrant cities like Aix and Marseilles. This region was dazzlingly abstracted into geometric daubs of paint by van Gogh and Cézanne. The sprawl of pebble beaches and zillion-dollar houses of the French Riviera has always captivated sun lovers and socialites from amorous St-Tropez and beauteous Antibes to sophisticated Nice. No trip to France would be complete without a stop in Paris. A quayside vista that takes in the Seine, a passing boat, Notre-Dame, the Eiffel tower, and mansard roofs all in one generous sweep is enough to convince you that this is indeed the most beautiful city on Earth. Note: This ebook edition includes photographs and maps that will appear in black-and-white devices but are optimized for devices that support full-color images.

Managing International Assignments Nov 08 2020 From These Bare Bones Jun 27 2022 A fundamental component of the study of worked osseous objects is the identification of the raw materials chosen to make

them. In archaeological contexts many objects become degraded to the point where identification is very difficult and the way in which these materials decay during burial and upon excavation can vary greatly. Correct identification is crucial to the investigation of objects, their conservation and future curation. Above understanding raw material selection aids our understanding of human-animal interaction in the past both on pragmatic and symbolic levels since the choices made by artisans vary by cultural tradition as well as availability. The 20 papers presented here explore a wealth of information pertaining to the use of osseous materials over the long period of human craftsmanship and tool manufacture by exploring several key themes: · Raw material selection and curation within tool types · Social aspects of raw material selection · New methods of materials identification It is demonstrated that the issue of raw material identification has numerous implications for conservation work, reproduction of objects, the physical characteristics of the tool or ornament, availability of raw materials, the material chosen for procurement and the cultural reasons that lie behind the choice of raw materials from particular species and skeletal elements to produce planned tool and ornament types. Together, these papers emphasize the need for confident and correct materials identification and demonstrate that functionality is by no means the only, nor necessarily the most important, factor in the selection of osseous raw materials for the fabrication of tools and other cultural objects.
