*Canon 50D* Jan 11 2021 Now that you've bought the amazing Canon 50D, you need a book that goes beyond a tour of the camera's features to show you exactly how to use the 50D to take great pictures. With *Canon 50D: From Snapshots to Great Shots*, you get the perfect blend of photography instruction and camera reference that will take your images to the next level! Beautifully illustrated with large, vibrant photos, this book teaches you how to take control of your photography to get the image you want every time you pick up the camera. Follow along with your friendly and knowledgeable guide, photographer and author Jeff Revell, and you will:

- Learn the top ten things you need to know about shooting with the 50D
- Use the 50D's automatic modes to get better shots right away
- Move on to the Creative zone, where you have full control over the look and feel of your images
- Master the photographic basics of composition, focus, depth of field, and much more
- Learn all the best tricks and techniques for getting great action shots, landscapes, and portraits
- Find out how to get great shots in low light
- Fully grasp all the concepts and techniques as you go, with assignments at the end of every chapter

With *Canon 50D: From Snapshots to Great Shots*, you'll learn not only what makes a great shot work—you'll learn how to get that shot using your 50D. And once you've got the shot, show it off! Join the book's Flickr group, share your photos, and discuss how you use your 50D to get great shots at [flickr.com/groups/canon\\_50dfromsnapstogreatshots](https://www.flickr.com/groups/canon_50dfromsnapstogreatshots/).

**To Hell with the Ugly** May 27 2022 A fascinating hybrid of noir action, cheap science fiction, and hard sex in a dream land called Los Angeles. Boris Vian had never been to Los Angeles, but that didn't stop him from writing the most bizarre sexual sci-fi novel ever set there. *To Hell With the Ugly* is one of the first novels to take on the issue of cloning, for the sole purpose of beauty- the elimination of all ugly people, to be replaced by beautiful clones. A new English translation of the 1948 French masterpiece!

**Arts & Humanities Citation Index** Mar 13 2021 A multidisciplinary index covering the journal literature of the arts and humanities. It fully covers 1,144 of the world's leading arts and humanities journals, and it indexes individually selected, relevant items from over 6,800 major science and social science journals.

*Canon EOS 90D For Dummies* Dec 22 2021 Get excited about the

Canon EOS 90D and all it can do! An amazing photo begins with a quality camera and the know-how to use it. If you've selected the Canon EOS 90D, you now have a digital camera that serves a range of photographers, from novices to professionals. It takes some know-how to take advantage of the camera's upgrades to its sensor, shutter speed, and video capabilities. Fortunately, *Canon EOS 90D For Dummies* can help you maximize the potential of the camera and its features. *Canon EOS 90D For Dummies* lets you skip the photography class and start shooting high-quality images right away. The book introduces the camera's settings; explains how to take control of exposure, focus, and color; and shows how to put all this new-found knowledge to work to shoot great portraits or action shots. The book is co-written by a pair of photography pros who share their professional experience on how to apply simple techniques for great shots. Choose the best setting for your situation. Manage focus and color. Make the most of your lighting. Understand camera settings. Customize your camera to your needs. Create remarkable photos and memories, whether you stick with user-friendly automatic settings or decide to dive into more advanced features. With your Canon EOS 90D and this book at your side, you can shoot quality video and capture moving subjects confidently.

**Canon EOS Rebel T7/2000D For Dummies** Feb 21 2022 A photography class—in a book! Your Canon EOS Rebel T7/1400D provides enough camera power to take the pro-style shots you've dreamed of shooting—and this book shows you how. *Canon EOS Rebel T7/1400D For Dummies* bridges the gap between taking quick shots in auto mode and taking charge of the settings that offer full control of your pictures' focus, color, and light balance. No matter your subject, you'll get all the know-how and instruction you need to get the picture-perfect shot every time. Get started with automatic and creative modes. Take full control of exposure to achieve better results. Understand the settings that control light and color. Follow steps on properly using flash. Even if you've never picked up a DSLR camera, this friendly guide makes it fast and easy to unlock all your powerful Canon has to offer!

*Mastering the Nikon D750* Oct 08 2020

*The Science of Middle-earth* Jul 17 2021 The surprising and illuminating look at how Tolkien's love of science and natural history shaped the creation of his Middle Earth, from its flora and fauna to its landscapes. The world J.R.R. Tolkien created is one of the most beloved in all of literature, and continues to capture hearts and imaginations around the world. From Oxford to ComiCon, the Middle Earth is analyzed and interpreted through a multitude of perspectives. But one essential facet of Tolkien and his Middle Earth has been overlooked: science. This great writer, creator of worlds and unforgettable character, and inventor of language was also a scientific autodidact, with an innate interest and grasp of botany, paleontologist and geologist, with additional passions for archeology and chemistry. Tolkien was an acute observer of flora and fauna and mined the minds of his scientific friends about ocean currents and volcanoes. It is these layers science that give his imaginary universe—and the creatures and characters that inhabit it—such concreteness. Within this gorgeously illustrated edition, a range of scientists—from astrophysicists to physicians, botanists to volcanologists—explore Tolkien's novels, poems, and letters to reveal their fascinating scientific roots. A rewarding combination of literary exploration and scientific discovery, *The Science of Middle Earth* reveals the hidden meaning of the Ring's corruption, why Hobbits have big feet, the origins of the Dwarves, the animals which inspired the dragons, and even whether or not an Ent is possible. Enhanced by superb original drawings, this transportive work will delight both Tolkien fans and science lovers and inspire us to view both Middle Earth—and our own world—with fresh eyes.

**Canon EOS Rebel T5i/700D Digital Field Guide** Apr 25 2022 All you need to know to use the latest exciting new dslr camera from Canon. If you want to get great photos from Canon's new Rebel T5i/700D dslr camera, you've come to the right place. Packed with beautiful, full-color photographs and illustrations, this handy guide also reveals tricks and techniques that professionals use to snap super shots and capture compelling HD video. You'll want to keep this helpful reference on hand. Uses an easy-to-follow style to help you get the most out of the Canon EOS Rebel T5i/700D camera's 18 megapixel

sensor, superb DIGIC 5 Image Processor, and 5 frames per second (fps) shooting speed Walks you step by step through every button, dial, and menu option, so you're ready for action when the time comes Includes over 200 full-color photographs to illustrate techniques, features, and functions Enables enthusiasts and advanced amateurs to shoot with ease in the most challenging circumstances, whether stills or HD video Features a grey/color checker card that will help you gauge and capture perfect white balance and color in any environment If you want to get the very most out of your Canon EOS Rebel T5i/700D, read the guide that knows it inside and out: Canon EOS Rebel T5i/700D Digital Field Guide.

*A Kingdom of Flesh and Fire* Mar 01 2020 From #1 New York Times bestselling author Jennifer L. Armentrout comes a new novel in her Blood and Ash series... Is Love Stronger Than Vengeance? A Betrayal... Everything Poppy has ever believed in is a lie, including the man she was falling in love with. Thrust among those who see her as a symbol of a monstrous kingdom, she barely knows who she is without the veil of the Maiden. But what she does know is that nothing is as dangerous to her as him. The Dark One. The Prince of Atlantia. He wants her to fight him, and that's one order she's more than happy to obey. He may have taken her, but he will never have her. A Choice.... Casteel Da'Neer is known by many names and many faces. His lies are as seductive as his touch. His truths as sensual as his bite. Poppy knows better than to trust him. He needs her alive, healthy, and whole to achieve his goals. But he's the only way for her to get what she wants—to find her brother Ian and see for herself if he has become a soulless Ascended. Working with Casteel instead of against him presents its own risks. He still tempts her with every breath, offering up all she's ever wanted. Casteel has plans for her. Ones that could expose her to unimaginable pleasure and unfathomable pain. Plans that will force her to look beyond everything she thought she knew about herself—about him. Plans that could bind their lives together in unexpected ways that neither kingdom is prepared for. And she's far too reckless, too hungry, to resist the temptation. A Secret... But unrest has grown in Atlantia as they await the return of their Prince. Whispers of war have become stronger, and Poppy is at the very heart of it all. The King wants to use her to send a message. The Descenders want her dead. The wolvern are growing more unpredictable. And as her abilities to feel pain and emotion begin to grow and strengthen, the Atlantians start to fear her. Dark secrets are at play, ones steeped in the blood-drenched sins of two kingdoms that would do anything to keep the truth hidden. But when the earth begins to shake, and the skies start to bleed, it may already be too late.

**Nikon D600 For Dummies** Oct 27 2019 A guide to the Nikon D600 camera provides information on the camera's modes and menus, exposure, lighting, flash, live view and video, focus and color, and in-camera editing.

**The Adobe Photoshop Lightroom 4 Book for Digital Photographers** Apr 13 2021 Since Lightroom first launched, Scott Kelby's The Adobe Photoshop Lightroom Book for Digital Photographers has been the world's #1 best-selling Lightroom book (it has been translated into a dozen different languages), and in this latest version for Lightroom 4, Scott uses his same award-winning, step-by-step, plain-English style and layout to make learning Lightroom easy and fun. Scott doesn't just show you which sliders do what (every Lightroom book will do that). Instead, by using the following three simple, yet brilliant, techniques that make it just an incredible learning tool, this book shows you how to create your own photography workflow using Lightroom: Throughout the book, Scott shares his own personal settings and studio-tested techniques. Each year he trains thousands of Lightroom users at his "Lightroom Live!" tour and through that he's learned what really works, what doesn't, and he tells you flat out which techniques work best, which to avoid, and why. The entire book is laid out in a real workflow order with everything step by step, so you can begin using Lightroom like a pro from the start. What really sets this book apart is the last chapter. This is where Scott dramatically answers his #1 most-asked Lightroom question, which is: "Exactly what order am I supposed to do things in, and where does Photoshop fit in?" You'll see Scott's entire start-to-finish Lightroom 4 workflow and learn how to incorporate it into your own workflow. Scott knows first-hand the challenges today's digital photographers are facing, and what they want to learn next to make their workflow faster, easier, and more fun. He has incorporated all of that into this major update for Lightroom 4. It's the first and only book to bring the whole process together in such a clear, concise, and visual way. Plus, the book includes a special chapter on integrating Adobe Photoshop seamlessly into your workflow, and you'll also learn some of Scott's latest Photoshop portrait retouching techniques and special effects, which take this book to a whole new level. There is no faster, more straight-to-the-point, or more fun way to learn Lightroom than with this groundbreaking book.

**Irene Mary's October Letter** Nov 08 2020 In October 1998, Irene Mary Taylor penned a letter to the mother of Cometan, Louise J. Counsell regarding the baptism of Cometan. However, in the letter Irene Mary covers topics not just related to her grandson baptism but

also regarding her Catholic faith. The letter has come to form the basis of Cometan's understanding of the beliefs and teachings that his grandmother held so dear to which has come to influence the foundations of her Cause for Beatification and her recognition as a Traditionalist Catholic figure. In this work Irene Mary's October Letter: An Introduction to Irenianism, Cometan provides an exegesis to his grandmother's letter from twenty-three years prior in which the foundations of Irenian theology, or Irenianism, were established.

*Cometanic Quotes* Nov 20 2021 Cometanic Quotes is a post-disquisition segment of the Omnidoxy within the Appendix of the Omnidoxy as part of the Original Omnidoxy Series solely written and organised by Cometan and published by the Astronist Institution. This publication collates all the known quotes attributed to Cometan during The Founding of Astronism era, particularly those associated with Cometan's indrucies during his sole authorship of the Omnidoxy. This publication consists of over 600 original quotes attributed to Cometan which have significantly contributed to his place as a religious figure and philosopher.

**From Dust to Digital** May 15 2021 Much of world's documentary heritage rests in vulnerable, little-known and often inaccessible archives. Many of these archives preserve information that may cast new light on historical phenomena and lead to their reinterpretation. But such rich collections are often at risk of being lost before the history they capture is recorded. This volume celebrates the tenth anniversary of the Endangered Archives Programme at the British Library, established to document and publish online formerly inaccessible and neglected archives from across the globe. From Dust to Digital showcases the historical significance of the collections identified, catalogued and digitised through the Programme, bringing together articles on 19 of the 244 projects supported since its inception. These contributions demonstrate the range of materials documented — including rock inscriptions, manuscripts, archival records, newspapers, photographs and sound archives — and the wide geographical scope of the Programme. Many of the documents are published here for the first time, illustrating the potential these collections have to further our understanding of history.

*Canon EOS Rebel SL1/100D For Dummies* Nov 01 2022 Get up to speed on your Canon SL1/100D and enter the world of DSLR photography! Canon's EOS Rebel SL1/100D is for photographers who prefer a smaller, lightweight camera that still offers heavyweight features. This full-color guide explains how to get better photos from an SL1.
