Programming Languages and Systems Sep 08 2020 This open access book constitutes the proceedings of the 30th European Symposium on Programming, ESOP 2021, which was held during March 27 until April 1, 2021, as part of the European Joint Conferences on Theory and Practice of Software, ETAPS 2021. The conference was planned to take place in Luxembourg and changed to an online format due to the COVID-19 pandemic. The 24 papers included in this volume were carefully reviewed and selected from 79 submissions. They deal with fundamental issues in the specification, design, analysis, and implementation of programming languages and systems.

Studies in Business Policy Apr 03 2020

Destination Benchmarking Jul 07 2020 Develops a specific benchmarking methodology relevant to international tourism destinations. This book evaluates different approaches to benchmarking, and their application within tourism destinations. The book considers organization benchmarking - performance evaluation of a particular organization and its departments - and destination benchmarking, which involves all elements such as transport services, airport services, accommodation, leisure and sport, hospitality and local attitudes.

Advances in Performance-Based Earthquake Engineering Mar 03 2020 Performance-based Earthquake Engineering has emerged before the turn of the century as the most important development in the field of Earthquake Engineering during the last three decades. It has since then started penetrating codes and standards on seismic assessment and retrofitting and making headway towards seismic design standards for new structures as well. The US have been a leader in Performance-based Earthquake Engineering, but also Europe is a major contributor. Two Workshops on Performance-based Earthquake Engineering, held in Bled (Slovenia) in 1997 and 2004 are considered as milestones. The ACES Workshop in Corfu (Greece) of July 2009 builds on them, attracting as contributors world-leaders in Performance-based Earthquake Engineering from North America, Europe and the Pacific rim (Japan, New Zealand, Taiwan, China). It covers the entire scope of Performance-based Earthquake Engineering: Ground motions for performance-based earthquake engineering; Methodologies for Performance-based seismic design and retrofitting; Implementation of Performance-based seismic design and retrofitting; and Advanced seismic testing for performance-based earthquake engineering. Audience: This volume will be of interest to scientists and advanced practitioners in structural earthquake engineering, geotechnical earthquake engineering, engineering seismology, and experimental dynamics.

CIA Challenge Exam Test Bank Questions 2021 Jan 31 2020 CIA Challenge Exam Test Bank Questions 2021 contains the 1,493 multiple choice questions to help pass Certified Internal Auditor candidates in 1st attempt. Two strategies help pass the CIA Challenge Exam conducted by Institute of Internal Auditors (IIA), i.e., maximize your strengths and minimize your weaknesses. That's why this test bank question contains an explanation to the correct as well as incorrect choices so that candidates can learn from their own mistakes and take the necessary course of action. The beauty of these test bank questions is that questions are presented on a separate page and explanation to the correct and incorrect choices on another page so that the mind is focused only on the requirements of the question which replicates the exam environment. Furthermore, an urge will be created in the heart to select the correct choice before jumping on the solution to the problem. A dedicated section on Certified Internal Auditor (CIA) Basic Information is added in the test bank, which explains the proven strategies to clear the CIA exams in the next attempt. This test bank question is designed for working executives' independent learning so that they can focus more on their career, leisure activities and family time. Let's work together towards the common goal of earning a Certified Internal Auditor (CIA) credential.

Mutual Fund Performance and Performance Persistence Jan 25 2022 Peter Lückoff investigates why fund flows and manager changes act as equilibrium mechanisms and drive the performance of both previously outperforming and previously underperforming funds back to average levels.

Efficient Go May 05 2020 With technological advancements, fast markets, and higher complexity of systems, software engineers tend to skip the uncomfortable topic of software efficiency. However, tactical, observability-driven performance optimizations are vital for every product to save money and ensure business success. With this book, any engineer can learn how to approach software efficiency effectively, professionally, and without stress. Author Bartłomiej Płotka provides the tools and knowledge required to make your systems faster and less resource-hungry. Efficient Go guides you in achieving better day-to-day efficiency using Go. In addition, most content is language-agnostic, allowing you to bring small but effective habits to your programming or product management cycles. This book shows you how to: Clarify and negotiate efficiency goals Optimize efficiency on various levels Use common resources like CPU and memory effectively Assess efficiency using observability signals like metrics, logging, tracing, and (continuous) profiling via open source projects like Prometheus, Jaeger, and Parca Apply tools like go test, pprof, benchstat, and k6 to create reliable micro and macro benchmarks Efficiently use Go and its features like slices, generics, goroutines, allocation semantics, garbage collection, and more!

Ethnicity, Social Mobility, and Public Policy Jul 19 2021 This major comparative study of the social mobility of ethnic minorities in the US and UK argues that social mobility must be understood as a complex and multi-dimensional phenomenon, incorporating the wealth and income of groups, but also their political power and social recognition. Written by leading sociologists, economists, political scientists, geographers, and philosophers in both countries, the volume addresses issues as diverse as education, work and employment, residential concentration, political mobilisation, public policy and social networks, while drawing larger lessons about the meaning of race and inequality in the two countries. While finding that there are important similarities in the experience of ethnic, and especially immigrant, groups in the two countries, the volume also concludes that the differences between the US and UK, especially in the case of American blacks, are equally important.

Investment Performance Measurement Aug 08 2020 Investment Performance Measurement Over the past two decades, the importance of measuring, presenting, and evaluating investment

performance results has dramatically increased. With the growth of capital market data services, the development of quantitative analytical techniques, and the widespread acceptance of Global Investment Performance Standards (GIPS®), this discipline has emerged as a central component of effective asset management and, thanks in part to the Certificate in Investment Performance Measurement (CIPM) program, has become a recognized area of specialization for investment professionals. That's why *Investment Performance Measurement: Evaluating and Presenting Results*—the second essential title in the CFA Institute *Investment Perspectives* series—has been created. CFA Institute has a long tradition of publishing content from industry thought leaders, and now this new collection offers unparalleled guidance to those working in the rapidly evolving field of investment management. Drawing from the Research Foundation of CFA Institute, the *Financial Analysts Journal*, *CFA Institute Conference Proceedings Quarterly*, *CFA Magazine*, and the CIPM curriculum, this reliable resource taps into the vast store of knowledge of some of today's most prominent thought leaders—from industry professionals to respected academics—who have focused on investment performance evaluation for a majority of their careers. Divided into five comprehensive parts, this timely volume opens with an extensive overview of performance measurement, attribution, and appraisal. Here, you'll become familiar with everything from the algebra of time-weighted and money-weighted rates of return to the objectives and techniques of performance appraisal. After this informative introduction, *Investment Performance Measurement* moves on to: Provide a solid understanding of the theoretical grounds for benchmarking and the trade-offs encountered during practice in Part II: Performance Measurement Describe the different aspects of attribution analysis as well as the determinants of portfolio performance in Part III: Performance Attribution Address everything from hedge fund risks and returns to fund management changes and equity style shifts in Part IV: Performance Appraisal Recount the history and explain the provisions of the GIPS standards—with attention paid to the many practical issues that arise in the course of its implementation—in Part V: Global Investment Performance Standards Filled with invaluable insights from more than fifty experienced contributors, this practical guide will enhance your understanding of investment performance measurement and put you in a better position to present and evaluate results in the most effective way possible.
