COMBO: HUMAN BIOLOGY W/CONNECT PLUS Feb 14 2021 Dr. Sylvia Mader's succinct, precise writing style. Sylvia's writing is what has earned her a reputation as one of the most successful introductory biology textbook authors ever, and it is the most compelling feature of this text. Updated Boxed Readings Throughout --Human Biology features three different types of boxed readings. These readings have been thoroughly updated by Dr. Mader, as well as experts in the field, throughout the book to remain current. A complete set of chapter learning aids includes a listing of chapter concepts, brief concept summaries within the chapter, boldface key terms, summary, and objective questions. Students value tools within the text that help them grasp the concepts. Customize this book through Primis Online! This title is tentatively planned to be part of the Primis Online Database: www.mhhe.com/primis/online Benefit : Professors can customize this book to meet their exact needs and mix and match with other items on Primis Online--allowing them maximum choice and flexibility. Instructors can choose between two delivery formats: custom printed books (in black and white) or custom eBooks (in color). Emphasis on Homeostasis -- Homeostasis is emphasized throughout the text. The homeostasis sections at the end of specific chapters and the accompanying homeostasis illustrations, have been revised for greater clarity and explain in depth how the body systems work together to maintain homeostasis. Connect Plus ConnectPlus This version of Connect includes the full textbook as an integrated, dynamic ebook. ConnectPlus provides all of the Connect features plus the following: • An integrated, printable ebook, allowing for anytime, anywhere access to the textbook. • Dynamic links between the problems or questions you assign to your students and the location in the ebook where those problems or questions are covered. • You can assign fully integrated, self-study questions. • Pagination that exactly matches the printed text, allowing students to rely on ConnectPlus as the complete resource for your course. • Embedded media, including animations and videos. • Customize the text for your students by adding and sharing your own notes and highlights. LearnSmart - Bright futures begin with a smarter way to learn. LearnSmart monitors students' learning styles as it teaches and adapts instantly based on their performance. Measure-Assess and monitor students levels. Adapt-Provide interactive assessments based on strengths & weaknesses. Empower-Map out a personalized plan for successful learning. Proof: LearnSmart diagnoses students' skill levels to determine what they're good at and where they need help. Then, it delivers customized learning content based on their strengths and weakness. The result: students get the help they need, right when they need it — instead of getting stuck on lessons, or being continually frustrated with stalled progress. Probe: How could an effective learning system that diagnoses students' skill levels to determine what they're good at and where they need help. Then, delivers customized learning content based on their strengths and weakness help level the playing field in your course

Human Physiology Dec 15 2020 "Stuart Fox, Ph.D., wrote the first edition (published 1983) to help students understand the concepts of human physiology, and this objective has remained the guiding principle through all of the subsequent editions. All editions have been lauded for their readability, the currency of the information, and the clarity of the presentation. The fifteenth edition continues this tradition by presenting human physiology in the most current, readable, and student-oriented way possible. This milestone edition is marked by a unique cover, the addition of a Digital Author, a new art program, and the updating of terminology and content. It takes a village! To create this landmark fifteenth edition, Stuart had the support of Krista Rompolski as the Digital Author and a superb team at McGraw-Hill Education and MPS Limited. This team includes Michael Ivanov, Fran Simon, Andrea Eboh, Kelly Hart, Jessica Portz, Christina Nelson, Joan Weber, Angela FitzPatrick, Amy Reed, Jim Connely, Kristine Rellihan, Matt Backhaus, and Lori Hancock. We are all incredibly grateful to the many reviewers who provided their time and expertise to critically examine individual chapters and be Board of Advisor partners. These"--

Loose Leaf for Hole's Human Anatomy & Physiology May 20 2021 Perfect for introductory level students, Hole's Human Anatomy and Physiology assumes no prior science knowledge by focusing on the fundamentals. This new edition updates a great A&P classic, while offering greater efficiencies to the user including the tried and true Learn, Practice, Assess method throughout the text. The 16th edition focuses on helping students master core themes in anatomy and physiology, which are distilled down into key concepts and underlying mechanisms. A new author team who is active in the classroom brings career relevance and more concise language, while updated and enhanced figures provide clarity.

Understanding Human Sexuality Oct 01 2019

Multimedia for Accessible Human Computer Interfaces Dec 27 2021 The book *Multimedia for Accessible Human Computer Interfaces* is to be the first resource to provide in-depth coverage on topical areas of multimedia computing (images, video, audio, speech, haptics, VR/AR, etc.) for accessible and inclusive human computer interfaces. Topics are grouped into thematic areas spanning the human senses: Vision, Hearing, Touch, as well as Multimodal applications. Each chapter is written by different multimedia researchers to provide complementary and multidisciplinary perspectives. Unlike other related books, which focus on guidelines for designing accessible interfaces, or are dated in their coverage of cutting edge multimedia technologies, *Multimedia for Accessible Human Computer Interfaces* takes an application-oriented approach to present a tour of how the field of multimedia is advancing access to human computer interfaces for individuals with disabilities. Under Theme 1 "Vision-based Technologies for Accessible Human Computer Interfaces", multimedia technologies to enhance access to interfaces through vision will be presented including: "A Framework for Gaze-contingent Interfaces", "Sign Language Recognition", "Fusion-based Image Enhancement and its Applications in Mobile Devices", and "Open-domain Textual Question Answering Systems". Under Theme 2 "Auditory Technologies for Accessible Human Computer Interfaces", multimedia technologies to enhance access to interfaces through hearing will be presented including: "Speech Recognition for Individuals with Voice Disorders" and "Socially Assistive Robots for Storytelling and Other Activities to Support Aging in Place". Under Theme 3 "Haptic Technologies for Accessible Human Computer Interfaces", multimedia technologies to enhance access to interfaces through haptics will be presented including: "Accessible Smart Coaching Technologies Inspired by Elderly Requisites" and "Haptic Mediators for Remote Interpersonal

Communication". Under Theme 4 "Multimodal Technologies for Accessible Human Computer Interfaces", multimedia technologies to enhance access to interfaces through multiple modalities will be presented including: "Human-Machine Interfaces for Socially Connected Devices: From Smart Households to Smart Cities" and "Enhancing Situational Awareness and Kinesthetic Assistance for Clinicians via Augmented-Reality and Haptic Shared-Control Technologies".

Anatomy & Physiology: The Unity of Form and Function Jul 30 2019 With Saladin, students make connections through learning outcomes and assessments, integrated media, and a writing style that clearly depicts anatomy and physiology processes. A consistent set of chapter learning tools helps students identify and retain key concepts while the stunning visual program provides a realistic view of body structures and processes. Saladin's text requires no prior knowledge of college chemistry or cell biology, and is designed for a two-semester A&P course. Users who purchase Connect Plus receive access to the full online ebook version of the textbook, as well full access to LearnSmart, SmartBook, and Anatomy & Physiology Revealed. The seventh edition's changes focus primarily on new science (30+ updates based on advances in science), new writing (30+ new sections of text to improve discussion, update terminology, and include new Deeper Insight examples), and 40+ new and revised photos and illustrations. Also, a new appendix has been added to the 7th edition to include the complete genetic code. Significant improvements have also been made to the Connect question banks.

Personality Psychology Sep 11 2020 "In this 6th edition of Personality Psychology: Domains of Knowledge About Human Nature, Randy Larsen and David Buss dynamically demonstrate how scientists approach the study of personality. Major findings, both classical and contemporary, are presented in the context of six key domains: Dispositional, Biological, Intrapsychic, Cognitive/Experimental, Social and Cultural, and Adjustment. Providing a foundation for the analysis and understanding of human personality. The Connect course for this offering includes SmartBook, an adaptive reading and study experience which guides students to master, recall, and apply key concepts while providing automatically-graded assessments. McGraw-Hill Connect® is a subscription-based learning service accessible online through your personal computer or tablet. Choose this option if your instructor will require Connect to be used in the course. Your subscription to Connect includes the following: SmartBook® - an adaptive digital version of the course textbook that personalizes your reading experience based on how well you are learning the content. Access to your instructor's homework assignments, quizzes, syllabus, notes, reminders, and other important files for the course. Progress dashboards that quickly show how you are performing on your assignments and tips for improvement. The option to purchase (for a small fee) a print version of the book. This binder-ready, loose-leaf version includes free shipping. Complete system requirements to use Connect can be found here:

Michael personally guided and oversaw all aspects of Connect and LearnSmart content accompany Human Biology, 15th Edition.

Human Physiology Dec 03 2019 #1 selling text with great explanations and just enough anatomy! Clear explanations and a solid learning framework have been market tested and refined. Fox helps students master the fundamentals by providing appropriate anatomical detail. Human Physiology, Fifteenth Edition, is intended for the one-semester Human Physiology course often taken by allied health and biology students. The beginning chapters introduce basic chemical and biological concepts to provide students with the framework they need to comprehend physiological principles. The chapters that follow promote conceptual understanding rather than rote memorization of facts. Health applications are included throughout the book to heighten interest, deepen understanding of physiological concepts, and help students relate the material to their individual career goals. Every effort has been made to help students integrate related concepts and understand the relationships between anatomical structures and their functions. Users who purchase Connect A&P receive access to the following digital resources *LearnSmart Prep *SmartBook *Tegrity (Lecture Capture) *Ph.i.L.S. (Physiology Interactive Laboratory Simulations) *Anatomy & Physiology Revealed (Cadaver Version)

Vander's Human Physiology Jun 08 2020 Eric Widmaier (Boston University), Hershel Raff (Medical College of Wisconsin), and Kevin Strang (University of Wisconsin) have taken on the challenge of maintaining the strengths and reputation of Vander's Human Physiology: The Mechanisms of Body Function. Moving beyond the listing of mere facts, it stresses the causal chains of events that constitute the mechanisms of body function. The fundamental purpose of this textbook is to present the principles and facts of human physiology in a format that is suitable for undergraduates regardless of academic background or field of study. Vander's Human Physiology, fifteenth edition, carries on the tradition of clarity and accuracy, while refining and updating the content to meet the needs of today's instructors and students. The new edition offers an integrated package of textual and digital material to help deliver basic and clinical content, real-life applications, and educational technologies to students of physiology. With the 15th edition of Vander's Human Physiology, all these pieces come together to facilitate learning and enthusiasm for understanding the mechanisms of body function. Users who purchase Connect A&P receive access to the following digital resources: LearnSmart Prep SmartBook Tegrity (Lecture Capture) Ph.i.L.S. (Physiology Interactive Laboratory Simulations) Anatomy & Physiology Revealed (Cadaver Version)

Experience Human Development Jan 28 2022 "preface Experience Human Development helps students experience the human side of development by exposing them to culture and diversity, immersing them in practical application, and helping them study smarter through personalized learning and reporting. Experience Human Development takes a practical approach to research and recognizes that just as people develop in their own way, your students also learn in their own ways. With our adaptive, personalized learning program, LearnSmart, students are guided toward success on their terms. With integrated resources like Milestones of Child Development, Milestones: Transitions, and short author tutorials on some of the most challenging learning objectives, Experience Human Development makes a difference for your students. Better Data, Smarter Revision, Improved Results Here's how it used to be: The revision process for a new edition typically began with asking several dozen instructors what they would change and what they would keep. Also, experts in the field were asked to provide comments that point out new material to add and dated material to remove. Using all these reviews, authors would revise the material. But now, a new tool has revolutionized that paradigm. LearnSmart, a tool powered by McGraw-Hill Connect Lifespan Development, is the adaptive learning system that provides students with an individualized assessment of their own progress. McGraw-Hill authors have access to real student data from this tool to create their revisions"--

Human Anatomy Oct 13 2020 Read it, See it, Master it! Read it – Ken Saladin explains human anatomy in an engaging, yet efficient way. He puts a premium on the words, and uses student-relevant analogies to motivate the reader. See it – Saladin's collection of illustrations and photos are carefully

chosen to support the text discussion. Vibrant and realistic presentations engage students. Master it – With Connect Anatomy and Physiology, Learn Smart and Anatomy and Physiology Revealed, students can practice and improve their understanding of concepts. From the most pedagogically sound organisation to the exceptional art, to the integration of text with technology, Saladin has formed a teaching system that will both motivate and enable students to understand and appreciate the wonders of human anatomy. This distinctive text was developed to stand apart from all other anatomy texts with an approach borne out of more than 30 years of teaching, unparalleled art, and a writing style that has been acclaimed by reviewers. Designed for a one-semester college anatomy course, Saladin requires no prior knowledge of chemistry or cell biology. Users who purchase Connect receive access to the full online ebook version of the textbook as well as Anatomy and Physiology Revealed 3.0 and adaptive learning system – Learn Smart.

Human Communication Apr 06 2020 Human Communication is an integrated program that helps students practice communication skills, build confidence in public speaking, and achieve success in their introductory communication course. With McGraw-Hill LearnSmart in Connect Communication, students separate what they know from what they think they know, following a continually adaptive learning path toward mastery of key concepts. Additionally, Connect provides students with the resources they need to construct well-planned speeches while its highly flexible speech capture tool saves instructors valuable time in managing assignments and evaluating student speeches. Rooted in current scholarship and with an eye on practical, everyday communication scenarios, Human Communication is designed to make introductory communication studies immediate and relevant to students. Following their writing mantra, “Make it Smart. Keep it Real,” the authors strike a balance of definitive theory and everyday application that resonates with the challenges and goals of today's typical basic course.

Ebook: Environmental Science: A Global Concern Aug 11 2020 Environmental Science: A Global Concern is a comprehensive presentation of environmental science for non-science majors which emphasizes critical thinking, environmental responsibility, and global awareness. This book is intended for use in a one or two-semester course in environmental science, human ecology, or environmental studies at the college or advanced placement high school level. As practicing scientists and educators, the Cunningham author team brings decades of experience in the classroom, in the practice of science, and in civic engagement. This experience helps give students a clear sense of what environmental science is and why it matters in this exciting, new 13th edition. Environmental Science: A Global Concern provides readers with an up-to-date, introductory global view of essential themes in environmental science. The authors balance evidence of serious environmental challenges with ideas about what we can do to overcome them. An entire chapter focuses on ecological restoration; one of the most important aspects of ecology today. Case studies in most chapters show examples of real progress, and “What Can You Do?” lists give students ideas for contributing to solutions

50 Human Brain Ideas You Really Need to Know May 08 2020 Neuroscience is one of the most fascinating and complex areas of scientific research, with new advances being made every day. In 50 Human Brain Ideas You Really Need to Know, Mo Costandi condenses all we know about the brain and how it works into series of introductions to the most important concepts. Outlining both long-standing theories - such as the function of neurons and synaptic transmission - and cutting-edge ideas - including neuroethics and brain-computer interfacing - with straightforward narrative and clear two-colour illustrations, this book is a perfect beginner's guide to the most powerful and mysterious organ in the body. The ideas explored include: The nervous impulse; Differences between the male and female brain; The root of addiction; Neurobiological basis for personality; The relationship between sleep and memory.

Human Physiology Jan 16 2021

Hole's Essentials of Human Anatomy and Physiology Mar 30 2022 Designed for the one-semester anatomy and physiology course, "Hole's Essentials of Human Anatomy and Physiology" assumes no prior science knowledge and supports core topics with clinical applications, making difficult concepts relevant to students pursuing careers in the allied health field. The unparalleled teaching system is highly effective in providing students with a solid understanding of the important concepts in anatomy and physiology.

Loose Leaf Human Biology w/ Connect Plus Access Card Oct 25 2021 Instructors consistently ask for a human biology textbook that helps students develop an understanding of the main themes of biology while placing the material in the context of the human body. Mader Human Biology was developed to fill this void. Organized around the main themes of biology, Human Biology guides students to think conceptually about biology and the world around them. Just as the levels of biological organization flow from one level to the next, themes and topics of Biology are tied to one another throughout the chapter, and between the chapters and parts through the concept of homeostasis. Combined with Dr. Mader's hallmark writing style, exceptional art program, and pedagogical framework, difficult concepts become easier to understand and visualize, allowing students to focus on understanding how the concepts are related. Multimedia Integration: Michael Windelspecht represents the new generation of digital authors. Through the integration of multimedia resources, such as videos, animations and MP3 files, and in the design of a new series of interactive animations, Dr Windelspecht has worked to bring Dr. Mader's texts to the new generation of digital learners. A veteran of the online, hybrid, and traditional teaching environments, Dr. Windelspecht is well versed in the challenges facing today's students and educators. Dr. Windelspecht has also acted as the subject matter expert on all aspects of the Connect content being prepared for the Mader series of textbooks. Connect Plus ConnectPlus This version of Connect includes the full textbook as an integrated, dynamic ebook.
