How to Rebuild Honda B-Series Engines Mar 06 2021 The first book of its kind, How to Rebuild the Honda B-Series Engines shows exactly how to rebuild the ever-popular Honda B-series engine. The book explains variations between the different B-series designations and elaborates upon the features that make this engine family such a tremendous and reliable design. Honda B-series engines are some of the most popular for enthusiasts to swap, and they came in many popular Honda and Acura models over the years, including the Civic, Integra, Accord, Prelude, CRX, del Sol, and even the CR-V. In this special Workbench book, author Jason Siu uses more than 600 photos, charts, and illustrations to give simple step-by-step instructions on disassembly, cleaning, machining tips, pre-assembly fitting, and final assembly. This book gives considerations for both stock and performance rebuilds. It also guides you through both the easy and tricky procedures, showing you how to rebuild your engine and ensure it is working perfectly.

Dealing with considerations for all B-series engines—foreign and domestic, VTEC and non-VTEC—the book also illustrates many of the wildly vast performance components, accessories, and upgrades available for B-series engines. As with all Workbench titles, this book details and highlights special components, tools, chemicals, and other accessories needed to get the job done right, the first time.

Appendices are packed full of valuable reference information, and the book includes a Work-Along-Sheet to help you record vital statistics and measurements along the way. You'll even find tips that will help you save money without compromising top-notch results.

Portland Speedway Apr 26 2020 Portland Speedway, also known as Union Avenue Speedway, opened in the summer of 1936 and enjoyed a 66-year run as the leading oval track in Portland. Originally built as a dirt track on a farmer's field in the far north of the city, the track was known for track roadsters based on Ford's Model T, sprint cars, and stock cars. As returning servicemen discovered a love for racing, the track exploded in popularity after World War II. The track was paved in 1946 and flourished as a center for racing; it even included a drive-in movie theater. Many notable racers, such as Len Sutton, Rolla Vollstedt, Greg Biffle, and Mike Bliss, either started their careers at or visited Portland Speedway. But the real story of Portland Speedway is told in the hundreds of people who made a living or simply enjoyed the racing life while competing at the Pacific Northwest's finest track."
