Conquering the Air Feb 12 2021 Revisit the romantic age of aeronautics when the rapid development of balloons, dirigibles and airplanes changed the world forever. Archibald Williams wrote this entertaining and informative journey through the early days of air travel for readers of all ages in 1926, covering the earliest ascents in balloons through the Wright Brothers, trans-Atlantic flights. The special edition enlarged reprinting includes: - Enlarged 7" x 10" pages - Crisp digitally re-scanned and enhanced images - Bold new cover design - Author's original page layouts - Classic type font - English printing with illustration captions Chapter by chapter Williams chronicles the feats and failures of those legendary pioneers of flight with enthusiasm and an eye towards the future, where he envisions a time when a "machine will be able to alight vertically in a space no larger than the back garden of a small suburban villa, or on a flat roof." Enjoy an informative look at the earliest ascents of balloons, dirigibles, and the first crossings that made history. The rapid development of the mechanical airplane is covered with great interest, as is its application in commercial air travel, exploration, and warfare. For readers looking to enjoy a broad, illustrated overview of airplanes and the history of air travel, Conquering the Air is a delight to read. "We shall devote our attention first to the origin of the spherical balloons and to the most notable voyages made in them. Next, we shall see how the balloon was altered in form, provided with motive power of its own, and converted from a mere gas-container and a self-directing aerial ship. Then follows an account of the experiments which led to the production of the first practical flying machine; to be succeeded by a series of chapters devoted to those fights, of successively increasing length, which, as first exemplifying the conquest of the air the grand scale, may justly be termed epoch-making." Table of Contents: Chapter 1: Early Balloon Ascents Chapter 2: Further Ascents in Fire-Balloons Chapter 3: The Coming of the Gas Balloon Chapter 4: The First Balloon Ascents in Great Britain Chapter 5: The First Crossing of the Channel by Air Chapter 6: Famous Balloon Voyages Chapter 7: The Coming of the Dirigible Balloon Chapter 8: The First Attack on the Atlantic Chapter 9: Pioneers of Mechanical Flight Chapter 10: The First Crossing of the English Channel by Aeroplane Chapter 11: From London to Manchester Chapter 12: A Splendid Future Chapter 13: The First Crossing of the Atlantic by Air Chapter 14: A Magnificent Success Chapter 15: To New York and Back Chapter 16: From London to Australia Chapter 17: From Cairo to the Cape Chapter 18: The First Non-stop Flight Across America Chapter 19: Aircraft in the Polar Regions Chapter 20: The First Flight Around the World Chapter 21: From Italy to Japan and Back Chapter 22: From Spain to Buenos Aires Chapter 23: Lifebelts of the Air Chapter 24: Aircraft in War Chapter 25: Airways Chapter 26: Uses for Aircraft Chapter 27: The Future of Flying About the Publisher: The CGR Publishing Restoration Workshop uses a vast array of computers and digital scanners to restore, preserve, and enhance the classic works of writers and artists from the 19th century. The Conduct of War in the 21st Century Jan 26 2022 This book examines the key dimensions of 21st century war, and shows that orthodox thinking about war, particularly what it is and how it is fought, needs to be updated. Accelerating societal, economic, political and technological change affects how we prepare, equip and organise for war, as well as how we conduct war – both in its low-tech and high-tech forms, and whether it is with high intensity or low intensity. The volume examines changes in warfare by investigating the key features of the conduct of war during the first decades of the 21st century. Conceptually centred around the terms 'kinetic', 'connected' and 'synthetic', the analysis delves into a wide range of topics. The contributions discuss hybrid warfare, cyber and influence activities, machine learning and artificial intelligence, the use of armed drones and air power, the implications of the counterinsurgency experiences in Iraq, Afghanistan and Syria, as well as the consequences for law(fare) and decision making. This work will be of much interest to students of military and strategic studies, security studies and International Relations. mRNA Vaccine Mar 04 2020 What Is mRNA Vaccine The immunological response that is induced by a vaccination known as an mRNA vaccine is brought about by the administration of a replica of a molecule known as messenger RNA (mRNA). The vaccine inserts molecules of mRNA that encode antigens into immune cells. The immune cells then utilize the engineered mRNA as a template to construct a foreign protein similar to one that would typically be generated by a cancer cell or a disease. These protein molecules activate an adaptive immune response, which educates the body to detect and eliminate the matching cancer cells or pathogens. Adaptive immune responses have been shown to be more effective than traditional immune responses. The delivery of the mRNA is accomplished by the use of a co-formulation that consists of the RNA being encased in lipid nanoparticles. These nanoparticles serve to preserve the RNA strands and assist in their uptake into the cells. How You Will Benefit (I) Insights, and validations about the following topics: Chapter 1: mRNA vaccine Chapter 2: Vaccine Chapter 3: PEGylation Chapter 4: Solid lipid nanoparticle Chapter 5: Moderna Chapter 6: COVID-19 vaccine Chapter 7: Moderna COVID-19 vaccine Chapter 8: Jason McLellan Chapter 9: BioNTech Chapter 10: RNA therapeutics Chapter

The Palgrave Handbook of Infertility in History May 30 2022 This ground-breaking, interdisciplinary volume provides an overdue assessment of how infertility has been understood, treated and experienced in different times and places. It brings together scholars from disciplines including history, literature, psychology, philosophy, and the social sciences to create the first large-scale review of recent research on the history of infertility. Through exploring an unparalleled range of chronological periods and geographical regions, it develops historical perspectives on an apparently transhistorical experience. It shows how experiences of infertility, access to treatment, and medical perspectives on this 'condition' have been mediated by social, political, and cultural discourses. The handbook reflects on and interrogates different approaches to the history of infertility, including the potential of cross-disciplinary perspectives and the uses of different kinds of historical source material, and includes lists of research resources to aid teachers and researchers. It is an essential 'go-to' point for anyone interested in infertility and its history. Chapter 19 is open access under a CC BY 4.0 license via link.springer.com.

Struggle over Identity Jan 14 2021 Rejecting the cliché about "weak identity and underdeveloped nationalism," Bekus argues for the co-existence of two parallel concepts of Belarusianness—the official and the alternative one—which mirrors the current state of the Belarusian people more accurately and allows for a different interpretation of the interconnection between the democratization and nationalization of Belarusian society. The book describes how the ethno-symbolic nation of the Belarusian nationalists, based on the cultural capital of the Golden Age of the Belarusian past (17th century) competes with the "nation" institutionalized and reified by the numerous civic rituals and social practices under the auspices of the actual Belarusian state. Comparing the two concepts not only provides understanding of the logic that dominates Belarusian society's self-description models, but also enables us to evaluate the chances of alternative Belarusianness to win this unequal struggle over identity.

Caere Apr 28 2022 The Etruscan city of Caere and eleven other Etruscan city-states were among the first urban centers in ancient Italy. Roman descriptions of Etruscan cities highlight their wealth, beauty, and formidable defenses. Although Caere left little written historical record outside of funerary inscriptions, its complex story can be deciphered by analyzing surviving material culture, including architecture, tomb paintings, temples, sanctuaries, and materials such as terracotta, bronze, gold, and amber found in Etruscan crafts. Studying Caere provides valuable insight not only into Etruscan history and culture but more broadly into urbanism and the development of urban centers across ancient Italy. Comprehensive in scope, Caere is the first English-language book dedicated to the study of its eponymous city. Collecting the work of an international team of scholars, it features chapters on a wide range of topics, such as Caere's formation and history, economy, foreign relations, trade networks, art, funerary traditions, built environment, religion, daily life, and rediscovery. Extensively illustrated throughout, Caere presents new perspectives on and analysis of not just Etruscan civilization but also the city's role in the wider pan-Mediterranean basin.
