The basics of fundamental and general nursing science are presented in this health resource for auxiliary, enrolled, and registered general nurses. A strong community nursing focus infuses the outcome-based teachings and questions to stimulate further discussion. Practical information on nursing in South Africa is provided, including working in the legal framework, managing the challenges of nursing in a culturally diverse society, and dealing with patients suffering from HIV and AIDS. Medical teachings on the use of oxygen, temperature regulation, mobility, and skin integrity complement the ethical discussions.

Prophetic Manual (Vol 1) Dec 25 2019 This Prophetic Manual Vol. I book has but one purpose; to inform and educate all who read and study it. It is best effective with the purchase of the workbook. My prayer is that churches would take and study this information as needed knowledge for the body of Christ. May it be used for bible studies as a form of informative training, increasing the knowledge of both pulpit and audience? After reading this manual you will not just know the mysteries of the creation, but you will know why you know the mysteries of creation.
