Mazda MX-5 Miata Apr 24 2022 Twenty years ago, the Mazda MX-5 Roadster was born – the result of five years’ research and development by two project teams split across Japan and the USA. When launched, it was the sports car the world was waiting for. Over the past 20 years, the MX-5 has evolved and changed, but has managed to stay true to the original philosophy of ‘horse and rider as one,’ a car to truly engage with the driver and provide the ultimate top-down driving experience with its perfect 50/50 weight distribution and neutral handling – it is easy to control, nimble and light, and inexpensive to buy, own and maintain. The MX-5 is a true testament to itself as the ‘world’s best-selling sports car,’ and with the earlier MkI and MkII available for modest prices, it is the perfect choice as a fun and enjoyable daily driver, a weekend track car, or a project base for a kit car. This book will help you get the MX-5 of your dreams.

Horngren/Sundem/Stratton's best-selling texts emphasize decision-making throughout each chapter. Decision-making is introduced in the early text chapters and also appears in many of the text features: "Making Managerial Decisions" boxes, critical thinking exercises, and more. As always, students develop a solid understanding of costs and cost behavior and the use of cost information for planning and control decisions, not just inventory valuation. Two text versions enable faculty to select a text that only covers management accounting concepts (Chs. 1-14) or one that includes three chapters of financial accounting review (Chs. 1-17). New OneKey provides the convenience of having all text resources in a single location and available in your choice of course management platform: BlackBoard, WebCT, and CourseCompass. OneKey also includes PH Grade Assist on-line homework with automatic grading and infinite practice for students).

Ecopoéticas Jul 04 2020 «Ecopoéticas» se enfoca en la forma imaginativa y creativo simbólica que adopta el lenguaje para el tratamiento de temas ecológicos en los textos poéticos de ocho autores de la España actual. este acercamiento descarta una mera aproximación descriptiva a la tierra en favor de experimentarla para poder decirla en la «poiesis» o hacer poético. Frente a la tradición ilustrada en la línea baconiana y cartesiana donde la tierra siempre queda supeditada a la cultura y la imaginación a la razón, estos poetas comparten el objetivo de dar voz a la naturaleza, a la materia y a la fisicidad. sus obras hacen del espacio poemático un ámbito donde poder enlazarse con el entorno, pues entienden que el poema implica un “hacer” en el sentido de crear en el texto el hogar/oikos de la naturaleza.
