The Ocean of Heroes Mar 24 2022 The Śrīḍākārṇavamahāyoginītantrārāja (abbreviated to Ḍākārṇava, "Ocean of Ḍākas or Heroes") is one of the last scriptures belonging to the Buddhist Saṃvara tradition in South Asia. It was composed in the eastern area of the Indian subcontinent sometime between the late 10th and 12th centuries, and its extant version was most likely compiled around the early 12th century. Chapter 15 of the Ḍākārṇava, (hereafter Ḍākārṇava 15) teaches a large-scale and elaborate maṇḍala of the highest god Heruka that comprises 986 major deities. This monograph presents the first critical edition and English translation (with annotation) of the Sanskrit text of the Ḍākārṇava 15, elucidates its form and meanings, and clarifies its significance in the history of Buddhism in South Asia. I also provide the first critical edition and English translation (with annotation) of Jayasena's Ratnapadmarāganidhi ("Precious Ruby Treasury," composed in the 12th century), which is the oldest manual for visualizing the Heruka maṇḍala of the Ḍākārṇava 15. In the last stage of the history of Tantric Buddhism in India, when various Buddhist Tantric traditions were already present, some texts were composed, such as the Kālacakratāntra and the Vajrāvalī of Abhayākara Gupta. These texts provide inclusive Tantric systems in which various preceding traditions are integrated and reorganized. The Ḍākārṇava is one such text. The Heruka maṇḍala in the Ḍākārṇava 15 is comprehensive and integrates deities from various Tantric traditions and components of the Buddhist cosmos within the framework of the Saṃvara system.

Representations of Childhood and Youth in Early China Dec 21 2021 This is the first book in any language to inquire into the emergence of childhood as a topic of significant cultural attention in Han times, as expressed in the intellectual discourse surrounding early Chinese cosmology, medicine, law, statecraft, and dynastic history.

The Christ of the Apocalypse: Contemplating the Faces of Jesus in the Book of Revelation Dec 09 2020 That the Apocalypse of John is a "Revelation of Jesus

Christ" (Rev 1:1) is a fact too often overlooked by interpreters of this last book of the Bible. As Msgr. A. Robert Nusca's *The Christ of the Apocalypse: Contemplating the Faces of Jesus in the Book of Revelation* proposes, beyond predictions of earthquakes and falling stars, St. John articulates from start to finish a multifaceted and compelling portrait of Jesus Christ. Nusca offers an exegetical reading of selected verses of the Book of Revelation, incorporating rich spiritual and pastoral reflections. *The Christ of the Apocalypse* above all affirms that St. John's God- and Christ-centered, symbolic universe offers our contemporary world a spiritual place to stand amid the shifting sands of postmodernity. As Cardinal Thomas Collins, Archbishop of Toronto, writes in his Foreword, "Now, as in the first century, Christians face martyrdom, and those who are not called to die for Christ are called to live for Christ in a world which in many ways rejects the Gospel. More than ever, we need the apocalyptic vision, to have our own vision of reality clarified, and to be strengthened in our evangelical witness."

The NIV Zondervan Study Bible, eBook May 14 2021 "This NIV Zondervan Study Bible is a tremendous tool for informed Bible reading and study. I highly recommend this publication."

Tim Keller, Redeemer Presbyterian Church, New York City "Let the NIV Zondervan Study Bible equip you for more faithful theological thinking and doctrinal integrity." R. Albert Mohler, Jr., President of the Southern Baptist Theological Seminary The NIV Zondervan Study Bible, featuring Dr. D. A. Carson as general editor, is built on the truth of Scripture and centered on the gospel message. An ambitious and comprehensive undertaking, Dr. Carson, with committee members Dr. T. Desmond Alexander, Dr. Richard S. Hess, Dr. Douglas J. Moo, and Dr. Andrew David Naselli, along with a team of over 60 contributors from a wide range of evangelical denominations and

perspectives, crafted all-new study notes and other study tools to present a biblical theology of God's special revelation in the Scriptures. To further aid the readers' understanding of the Bible, also included are full-color maps, charts, photos and diagrams. In addition, a single-column setting of the Bible text provides maximum readability. 8.9-point type size **200 and More NMR Experiments** Aug 05 2020 This work-book will guide you safely, in step-by-step descriptions, through every detail of the NMR experiments within, beginning with 1D routine experiments and ending with a series of advanced 3D experiments on a protein: · Which experiment can best yield the desired information? · How must the chosen experiment be performed? · How does one read the required information from the spectrum? · How does this particular pulse sequence work? · Which other experiments give similar information? This third edition of the book, following its two highly successful predecessors, has been revised and expanded to 206 experiments. They are organized in 15 chapters, covering test procedures and routine spectra, variable temperature measurements, the use of auxiliary reagents, 1D multipulse experiments, spectra of heteronucleides, and the application of selective pulses. The second and third dimensions are introduced using pulsed field gradients, and experiments on solid state materials are described. A key part describes 3D experiments on the protein ubiquitin with 76 amino acids. What is new in this third edition? 1. 24 new experiments have been inserted into the 14 chapters that were in the 2nd edition, e.g., alpha/beta-SELINCOR-TOCSY, WET, DOSY, ct-COSY, HMSC, HSQC with adiabatic pulses, HETLOC. J-resolved HMBC, (1,1)- and (1,n)-ADEQUATE, STD, REDOR, and HR-MAS. 2. 20 new protein NMR experiments have been specially devised and are collected in the newly added Chapter 15, ProteinNMR, for which one needs a special model sample: fully ¹³C- and ¹⁵N-labeled human ubiquitin. Techniques used include the constant time principle, the PEP method, filters, gradient selection, and the echo/anti-echo procedure. The guide has been written by experts in this field, following the principle of learning by doing: all the experiments have been specially performed for this book, exactly as described and shown in the spectra that are reproduced. Being a reference source and work-book for the NMR laboratory as well as a textbook, it is a must for every scientist working with NMR, as well as for students preparing for their laboratory courses

A Practical Manual Of Beekeeping Sep 29 2022 A fascinating hobby; a remunerative business; or a globetrotting career? Which type of beekeeper do you want to be? It is entirely up to you: beekeeping can provide it all. Beekeeping can provide anyone with an interesting and useful hobby or a lucrative and rewarding business. It is recognised as a vital agricultural industry and can therefore also offer you a globe trotting career. The whole subject is, however, often shrouded in mystery and loaded with jargon, leaving many people unaware of its true potential or how to start. This book strips away all the mystery and explains step by step how - from day one - you can start beekeeping as a hobby; how you can progress to running a beekeeping business; or how you can start a career as a beekeeper which can quite easily take you all over the world. No other guide explains in such detail

the true potential and accessibility of beekeeping or of being a beekeeper.

Promise-Giving and Treaty Making Sep 17 2021 This book challenges the current view of the Homeric epics, according to which they reflect only the institutions and ideas of their own time, telling us nothing about the Mycenaean Age preceding it. Using a comparative analysis of evidence from the Near East and the Homeric corpus, Peter Karavites comes to the bold conclusion that the epics actually contain much that harks back to the Mycenaean Age, and that the two eras may not be completely discontinuous after all. Most contemporary scholars maintain that the mighty Mycenaean period was almost completely separated from the Dark Ages and that virtually no evidence of the former remains, with the exception of the archeological finds and the meager testimony of the Linear B tablets. However, the Near Eastern evidence about treaties and other forms of promising suggests that the Iliad and Odyssey may indeed provide historical pictures of the Mycenaean times featured in their narratives.
