Midnight in Chernobyl Aug 20 2021 A New York Times Best Book of the Year A Time Best Book of the Year A Kirkus Reviews Best Nonfiction Book of the Year 2020 Andrew Carnegie Medals for Excellence Winner From journalist Adam Higginbotham, the New York Times bestselling “account that reads almost like the script for a movie” (The Wall Street Journal)—a powerful investigation into Chernobyl and how propaganda, secrecy, and myth have obscured the true story of one of the history’s worst nuclear disasters. Early in the morning of April 26, 1986, Reactor Number Four of the Chernobyl Atomic Energy Station exploded, triggering one of the twentieth century’s greatest disasters. In the thirty years since then, Chernobyl has become lodged in the collective nightmares of the world: shorthand for the spectral horrors of radiation poisoning, for a dangerous technology slipping its leash, for ecological fragility, and for what can happen when a dishonest and careless state endangers its citizens and the entire world. But the real story of the accident, clouded from the beginning by secrecy, propaganda, and misinformation, has long remained in dispute. Drawing on hundreds of hours of interviews conducted over the

course of more than ten years, as well as letters, unpublished memoirs, and documents from recently-declassified archives, Adam Higginbotham brings the disaster to life through the eyes of the men and women who witnessed it firsthand. The result is a “riveting, deeply reported reconstruction” (Los Angeles Times) and a definitive account of an event that changed history: a story that is more complex, more human, and more terrifying than the Soviet myth. “The most complete and compelling history yet” (The Christian Science Monitor), Higginbotham’s “superb, enthralling, and necessarily terrifying...extraordinary” (The New York Times) book is an indelible portrait of the lessons learned when mankind seeks to bend the natural world to his will—lessons which, in the face of climate change and other threats, remain not just vital but necessary.

Disaster Girl Mar 15 2021 The only thing she knows better than walking into a disaster is digging herself out of one. Tess Greene knows disaster—dating disasters, computer disasters, family disasters, you name it. But just when her life is finally almost perfect, she’s targeted by an internet celebrity who runs a revenge porn site admired by douchebags across the country. She has one month before the entire world will have an up-close-and-personal view of her sexual history. Tess has always handled everything on her own, but for this disaster, she needs backup. Max Hampshire, a brilliant hacker, is exactly the lifeline Tess needs. What she doesn’t need is Max himself. She does not need his quick wit, sexy black-framed glasses, or all-around sweetness. The last guy who helped Tess left with his life crushed and his heart broken, so she knows that staying far away from Max would be safer for everyone. But safety isn’t really an option when dealing with sleazy predators—or love...

Disaster Management Jan 25 2022 There is a perennial gap between theory and practice, between academia and active professionals in the field of disaster management. This gap means that valuable lessons are not learned and people die or suffer

as a result. This book opens a dialogue between theory and practice. It offers vital lessons to practitioners from scholarship on natural hazards, disaster risk management and reduction and developments studies, opening up new insights in accessible language with practical applications. It also offers to academics the insights of the enormous experience practitioners have accumulated, highlighting gaps in research and challenging assumptions and theories against the reality of experience. Disaster Management covers issues in all phases of the disaster cycle: preparedness, prevention, response and recovery. It also addresses cross-cutting issues including political, economic and social factors that influence differential vulnerability, and key areas of practice such as vulnerability mapping, early warning, infrastructure protection, emergency management, reconstruction, health care and education, and gender issues. The team of international authors combine their years of experience in research and the field to offer vital lessons for practitioners, academics and students alike.

The Jam Doughnut That Ruined My Life Nov 30 2019 A jam-fuelled week of disaster is set in motion by a single doughnut! Roman Garstang is obsessed with food - particularly Squidgy Splodge raspberry-jam doughnuts - but he is about to learn that things are not always as sugar-coated as they might seem. Because of his Monday-morning jam doughnut, Roman's week takes a very sticky turn . . . By Friday Roman has been banned from eating for 24hrs, narrowly avoided a faceful of warm toddler-wee, accidentally shoplifted, been given a lift in a getaway van, styled his teacher's guinea pig with a blue mohawk, started an OAP riot . . . and still barely managed to scoff a crumb - or lick - of a single doughnut. Who knew jam could be so deadly?

Manchester's Finest Aug 08 2020 On 6 February 1958, British European Airways flight 609 crashed in a blizzard on its third attempt to take off from an icy runway in Munich. On board were the Manchester United football team as well as a number of journalists and other passengers. News of the disaster sent shockwaves around the world. For people who lived in Manchester at the time and for football fans throughout Britain it was one of those moments when everybody remembers exactly where they were and how they heard the terrible news. Manchester United, nicknamed the Busby Babes after their manager, Matt Busby,

who had created the world-beating side, were the leading team of the day. Seven of their players were killed instantly in the crash. Three weeks later Duncan Edwards, one of the most promising players ever to come out of England, lost his battle for life. Two other players, Jackie Blanchflower and Johnny Berry, were so severely injured that they were never able to play again. Manchester's Finest tells of this terrible air crash, but it is also the story of the immediate aftermath of the disaster and the effect on the city of Manchester. It paints a vivid picture of Manchester at that time, from February 1958 to the end of the season in May when a patched-up team, carried along on a great wave of emotion, reached the FA Cup Final. It is about the fans, the people of Manchester and about the place of a football team in the heart of a city.

Attack of the Woolly Jumper Oct 29 2019 Mark Lowery is far too funny - Jonathan Meres, author of THE WORLD OF NORM Roman endures a royal visit and a school fashion show - in a jumper knitted by his Grandma . . . Grandma has come to stay for the royal visit by Princess Lucy to launch her new badger charity, 'Badges for Badgers'. Which would be fine, if she hadn't knitted Roman the crummiest jumper (AKA "crumper") on earth that he's forced to wear to school. His whole class is in a fundraising frenzy, led by fame-crazy Rosie Taylor who is convinced that organising a charity fashion show is bound to win her favour with the princess. And in a bid of fierce cruelty she has sponsored Roman to wear his crumper ALL WEEK, even after Gamble tries to flush it down the toilet. When the jumper causes a swan attack and a biker to swerve off the road, can Roman keep his whole life from unravelling? A new side-splitting story in the Roman Garstang Disaster series.

Masters of Disaster Apr 03 2020 The foolproof guide to damage control from the "masters of disaster" Whether you're a politician caught with his pants down, a publicly traded company accused of accounting improprieties, a family-owned restaurant with a lousy Yelp review or just the guy in the corner cubicle who inadvertently pushed "reply all," a crisis doesn't have to be the make-or-break moment of your career. For those of us that aren't natural spin doctors, it's hard to resist the impulse to cover your tracks, lie, or act like nothing happened. But resist you must! In Masters of Disaster, Christopher Lehane and Mark Fabiani, reveal the magic formula you need to take control when it's your turn to be sucked into the vortex of the modern spin cycle. Covering the ten commandments of damage control, and based on their work for clients like Bill Clinton, Goldman Sachs and Hollywood studios, the authors outline the strategies that can make real time news alerts, Twitter trend lines and viral videos work for you rather against you. Full of both lively personal anecdotes and hard-knuckled straight talk, this is a must-read for anyone who wants to emerge with their reputation intact.

The Dynamics of Disaster Nov 22 2021 Contrary to popular belief, humans have almost no control over Mother Nature. Yet we persist in building centers of civilization in places of past disasters. When they are destroyed again, we rebuild in the same place, believing that our technology will do better next time. But we rarely win these battles with the earth. Susan W. Kieffer

has two goals for her unique book. The first is to show how the dynamics—the workings—of disasters are connected by a small number of natural laws. The second is to show how the greatest damage and loss of life are caused by unrecognized aspects of these events. For example, the heartwrenching destruction in Haiti was caused when an earthquake transformed the solid ground into something like quicksand. Only by deeply understanding the dynamics of natural disasters can we begin to institute engineering and policy practices to minimize their impact on our lives.

Into Thin Air Jan 31 2020 Journalist Krakauer, standing on the summit of Mt. Everest, saw nothing that "suggested that a murderous storm was bearing down." He was wrong. The storm, which claimed five lives and left countless more in guilt-ridden disarray, would also provide the impetus for this epic account of the May 1996 disaster. Unabridged. 7 CDs.

Five Days at Memorial Jun 05 2020 In the tradition of the best writing on human behaviour and moral choices in the face of disaster, physician and reporter Sheri Fink reconstructs five days at New Orleans' Memorial Medical Center during Hurricane Katrina and draws the reader into the lives of those who struggled mightily to survive and to maintain life amidst chaos. After Katrina struck and the floodwaters rose, the power failed, and the heat climbed, exhausted caregivers chose to designate certain patients last for rescue. Months later, several health professionals faced criminal allegations that they deliberately injected numerous patients with drugs to hasten their deaths. Five Days at Memorial, the culmination of six years of reporting, unspools the mystery of what happened in those days, bringing the reader into a hospital fighting for its life and into a conversation about the most terrifying form of health care rationing. In a voice at once involving and fair, masterful and intimate, Fink exposes the hidden dilemmas of end-of-life care and reveals just how ill-prepared we are for the impact of large-scale disasters - and how we can do better. A remarkable book, engrossing from start to finish, Five Days at Memorial radically transforms our understanding of human nature in crisis.

Heart of Disaster Nov 10 2020 Thursday, April 11, 1912 Inspired by true events, Heart of Disaster is the fictionalized story of the Irish steerage passengers who joined RMS Titanic. The legend says "Thursday's child has far to go" but nobody knew just how troublesome this journey would prove. Four single friends, a newly married couple and a stoker who works in the belly of the gigantic ship meet that fateful night. When disaster strikes, not all survive. Even the ones who live, have lost something forever in the freezing Atlantic Ocean.

Emergency Dec 12 2020 Before The End of the World As We Know It, you'll want to read this book. After the last few years of ethnic hatred, tsunamis and financial meltdown, Neil Strauss came to the sobering realisation that anything can happen.

Emergency traces his white-knuckled journey to reinvent himself as a gun-toting, plane-flying, government-defying survivor.

Cry from the Deep Aug 27 2019 A gripping account of the disastrous Russian submarine explosion that killed the entire crew,

devastated the Russian people, and defined Vladimir Putin's post–Cold War regime. What were Russian officials thinking when they waited 48 hours to acknowledge their most prized submarine was in trouble? Why did they track the desperate tappings of an unknown number of trapped sailors without sending an international SOS? Why did they repeatedly decline international rescue offers while their own rescue equipment repeatedly failed to make any progress? To a world community still mystified by deadly Russian deceptions surrounding the Kursk submarine disaster, Ramsey Flynn's book uncovers the truth once and for all. *Cry from the Deep* has quickly become the definitive account of this pivotal moment in modern Russian history, as an angry Russian people – aided and abetted by a fledgling independent media – openly clashed with Vladimir Putin and his new government's Soviet–era tactics of secrecy and deception. Flynn's searing narrative also documents how western officials, in a practiced silence reminiscent of the Cold War era failed to notify their post–Soviet counterparts of the disaster, despite learning of the explosion hours before the Russians did.

WebGIS for Disaster Management and Emergency Response Apr 15 2021 This book aims to help students, researchers and policy makers understand the latest research and development trends in the application of WebGIS for Disaster Management and Emergency Response. Disaster Management Feb 23 2022 Regular famines, frequent earthquakes, repeated floods, and similar natural calamities have always threatened human lives on earth. These environmental turbulences, in the recent times, have increased manifolds and the repercussions are felt day in and out. Uttarakhand was totally washed down by the 2014 Floods, Kathmandu got devastated by the 2015 Earthquake, and the list is endless. These increasing threats posed by the recurring natural disasters have made disaster management a prerequisite! This book provides various dimensions of Disaster Management, causes of disasters—both natural and manmade, threats posed and the ways of managing the same. Divided into 28 chapters, and organized into three parts, the book elaborately explains the concepts with suitable examples. Part I on ‘Systems of Earth’ introduces the readers to the various aspects of earth that could cause disasters. Part II on ‘Disasters’ deals in detail with the various causes and dimensions of disasters. Part III on ‘Disaster Management’, provides the reader with various disaster management techniques and frameworks to mitigate the consequences of a disaster. The book is suitable for the undergraduate and postgraduate students of Geography and also postgraduate students of Management. Moreover, the book can also be suitable for the students of Environmental Engineering.

I'm Cursed Sep 08 2020 Tornados, sinkholes, lightning strikes, explosions, a drain pipe full of bees... I've been there though them all. But it's not my fault! My "Dizzy, time to get the heck out of dodge" senses are well-honed, so can you blame a gal for pounding pavement when a herd of hunks are hot on her trail? Okay, maybe you can. Maybe it's your dream to get tackled by a heaping helping of beefcake; hopelessly pinned beneath them, at the mercy of multiple sets of hands and lips and eyes trapping you and demanding attention. Me? I just want to make it through the day without doing too much damage. Seriously, it's not my

fault! You see, I'm cursed to always be cursed. Somebody wants to get revenge on you when I'm in town? Well TOUGH LUCK because they're getting revenge on me instead! Thank you for that weekend of all-foods-are-extra-spicy, unknown stranger. No, that's okay, person-who-tried-to-make-someone-else-unable-to-wear-clothes-ever-again, I don't mind a fine breeze between my lady bits. And to you, asshole casserole who tried to literally kill me last week? Well... you can get bent. That's honestly just rude. Usually my curse comes with a side of disaster, and after really, really hurting more than one person... well... I've been on a never-ending, cross-country, don't-look-back-just-keep-on-running-away tour for pretty much forever. Sure, it's lonely, but never setting down roots means never getting caught, or killed. At least I've got my furry best friend Aria-don't know what I'd do without her. Per usual, my hotel just happened to burn down this morning so it looks like I'd best get to gettin' while the gettin's still good, ya get it? Just one itchy-bitsy-teensie-weensie-purple-haired-and-no-bikini problem.... I may have accidentally sort of kind of tied myself to those hunks I mentioned earlier and may or may not literally be unable to go anywhere without at least one of them. Oops! And maybe I sort of kind of like them enough to not want them to get murdered in my superstorm of chaos. Double oops. Sigh. Friggin' Tuesdays, am I right? This is a medium burn paranormal reverse harem romance with explicit scenes of violence, sex, and abuse that may be triggering for some. There is mild M/M included in this book and will progress as the story does. All sexual situations in this book are consensual. It is the first book in a series within an overall world epic, but it does not end in a cliffhanger. Hope happily for now is your jam! Please be aware that this is recommended for readers 18+.

Apocalypse How? Dec 24 2021 'Entertaining and insightful' -- Evening Standard 'One of the most important books of the year... Compelling' Jamie Bartlett, Literary Review 'Timely' -- New Statesman As the world becomes better connected and we grow ever more dependent on technology, the risks to our infrastructure are multiplying. Whether it's a hostile state striking the national grid (like Russia did with Ukraine in 2016) or a freak solar storm, our systems have become so interlinked that if one part goes down the rest topple like dominoes. In this groundbreaking book, former government minister Oliver Letwin looks ten years into the future and imagines a UK in which the national grid has collapsed. Reliant on the internet, automated electric cars, voice-over IP, GPS, and the internet of things, law and order would disintegrate. Taking us from high-level government meetings to elderly citizens waiting in vain for their carers, this book is a wake up call for why we should question our unshakeable faith in technology. But it's much more than that: Letwin uses his vast experience in government to outline how businesses and government should respond to catastrophic black swan events that seem distant and implausible - until they occur.

The Bright Side of Disaster Jul 31 2022 A new mother must adjust to a life she never asked for—and learns that sometimes the worst thing that can happen is exactly what you've been waiting for—in this spirited novel from the New York Times

bestselling author of *How to Walk Away* and *Things You Save in a Fire* “Charming . . . cleverly told and uncommonly appealing.”—People Very pregnant and not quite married, Jenny Harris doesn’t mind that she and her live-in fiancé, Dean, accidentally started their family a little earlier than planned. But Dean is acting distant, and the night he runs out for cigarettes and doesn’t come back, he demotes himself from future husband to sperm donor. And the very next day, Jenny goes into labor. In the months that follow, Jenny plunges into a life she never anticipated: single motherhood. At least with the sleep deprivation, sore boobs, and fits of crying (both hers and the baby’s), there’s not much time to dwell on her broken heart. Then things start looking up: Jenny learns how to do everything one-handed, makes friends in a mommy group, and even gets to know a handsome, helpful neighbor. But Dean is never far from Jenny’s thoughts or, it turns out, her doorstep, and in the end she must choose between the old life she thought she wanted and the new life she’s been lucky to find.

Leading to Disaster Oct 22 2021 *Leading to Disaster* is an absorbing book which takes a view of some high-profile disasters through a different lens. In this book, the focus is not on the individual who parked a vehicle in the wrong place or did not close a watertight door, but the failures of leaders. Drawing upon an array of well-known disasters, together with the insights from over 22 years of experience in senior leadership roles in high-hazard environments, Scott Macaulay tells the story of how leaders cause accidents.

Mean Girls - Book 10 - Disaster Sep 20 2021 Remmy is faced with more bullying behavior from the vampires and is at a loss for what to do. Disaster by Choice Sep 01 2022 We speak of earthquakes, floods, and wildfires as 'natural disasters'. In this provocative book, Ilan Kelman argues that the true disaster is not caused by natural phenomena, but by human choices which leave people unprepared and at terrible risk. He explores how we can and should act to stop people dying when nature unleashes its powers.

When the Dust Settles May 05 2020 ****SUNDAY TIMES TOP 10 BESTSELLER** *A RADIO 4 BOOK OF THE WEEK***
'A gripping account, filled with compassion.' - Sunday Times 'Exemplary and displays a painstaking sensitivity.' - New Statesman 'It does for disaster what Rachel Clarke's *Dear Life* has done for palliative medicine and Adam Kay's *This Is Going To Hurt* for obstetrics.' - Telegraph 'A remarkable account...that it is ultimately hopeful and uplifting, is down to the utter human decency that the author represents' - Mail on Sunday 'Enthralling...though laced with bleak humour, this vivid and humane book forces readers to look into some exceptionally dark places' - Observer
Lucy Easthope lives with disaster every day. When a plane crashes, a bomb explodes, a city floods or a pandemic begins, she's the one they call. Lucy is a world-leading authority on recovering from disaster. She has been at the centre of the most seismic events of the last few decades, advising on everything from the 2004 Boxing Day tsunami to the 7/7 bombings, the Christchurch earthquake in New Zealand, the Grenfell fire and the Covid-19 pandemic. In every catastrophe, Lucy is there to pick up the pieces and prepare for the next one. She holds governments to account, helps communities rally together, returns personal possessions to families, and holds the hands of the survivors. In her moving memoir she reveals what happens in the aftermath and explores how we pick up and rebuild with strength and perseverance. She takes us behind the police tape to scenes of destruction and chaos, introducing us to victims and

their families, but also to the government briefing rooms and bunkers, where confusion and stale biscuits can reign supreme. Telling her own personal story, Lucy looks back at a life spent on the edges of disaster, from a Liverpoolian childhood steeped in the Hillsborough tragedy to the many losses and loves of her career. With wisdom, resilience and candour, *When the Dust Settles* lifts us up by showing that humanity, hope and humour can - and must - be found on the darkest days.

The Bioarchaeology of Disaster Mar 03 2020 The Bioarchaeology of Disaster examines two dozen disasters occurring around the world over the past 2,000 years, ranging from natural and environmental disasters to human conflict and warfare, from epidemics to those of social marginalization—all from a bioarchaeological and forensic anthropological perspective. Each case study provides the social, cultural, historical and ecological context of the disaster and then analyzes evidence of human and related remains in order to better understand the identities of victims, the means, processes, and extent of deaths and injuries. The methods used by specialists to interpret evidence and disagreements among experts are also addressed. It will be helpful in understanding the circumstances of a range of disasters and the multidisciplinary ways in which bioarcheologists employ empirical methods and analytic frameworks to interpret their impacts and consequences. The book is intended for those in the social and biological sciences, particularly archaeology, forensics, history and ethnography. It will also be of interest to those in medical history and epidemiology, ecological studies, and those involved in disaster response, law enforcement and human rights work.

The Devil Never Sleeps Feb 11 2021 An urgent, transformative guide to dealing with disasters from one of today's foremost thinkers in crisis management. The future may still be unpredictable, but nowadays, disasters are not. We live in a time of constant, consistent catastrophe, where things more often go wrong than they go right. So why do we still fumble when disaster hits? Why are we always one step behind? In *The Devil Never Sleeps*, Juliette Kayyem lays the groundwork for a new approach to dealing with disasters. Presenting the basic themes of crisis management, Kayyem amends the principles we rely on far too easily. Instead, she offers us a new framework to anticipate the "devil's" inevitable return, highlighting the leadership deficiencies we need to overcome and the forward thinking we need to harness. It's no longer about preventing a disaster from occurring, but learning how to use the tools at our disposal to minimize the consequences when it does. Filled with personal anecdotes and real-life examples from natural disasters like the California wildfires to man-made ones like the Boeing 737 MAX crisis, *The Devil Never Sleeps* is a guide for governments, businesses, and individuals alike on how to alter our thinking so that we can develop effective strategies in the face of perpetual catastrophe.

Last Man Off Apr 27 2022 *Last Man Off* by Matt Lewis - a first-hand account of an ocean tragedy 'Reads like a sinister version of *The Perfect Storm* . . . Thrilling, compelling, unsettling, rewarding' Sunday Times 'A story that reminds us of the unforgiving nature of the sea and the courage that lies within the everyday heroes that have found themselves in hell' Bear Grylls *THE SUNDAY TIMES TOP TEN BESTSELLER* The waters of Antarctica, June 6th 1998. 23-year-old Matt Lewis has just started his dream job. An observer aboard a deep sea fishing boat, he is mesmerized by his new surroundings: glistening icebergs, killer whales and majestic albatross. As the crew haul in their lines for the day, the waves seem bigger than usual - they are casting shadows on the deck. A storm is brewing. What follows is an astonishing story of human courage, folly and tragedy. With the captain missing, and the crew forced to abandon ship, Lewis leads the escape onto three life rafts, where the battle for survival

begins. This brilliantly written and thrilling hour-by-hour account will be enjoyed by readers of non-fiction classics such as A Perfect Storm and Touching the Void, as well as fans of Deadliest Catch, Captain Phillips and 127 Hours. As heard on BBC Radio 4. Matt Lewis was born in Bristol, England, in 1974. He trained as a marine biologist first at Bangor University and then at Aberdeen University, and has an MSc with distinction in Marine and Fisheries Science. In 1998 he got his first deployment as an observer aboard a deep sea fishing boat in the Southern Ocean. The trip was to end in tragedy. He now lives with his wife and two children in Aberdeen.
