World War. It explores the complex and contested treatment of sport in government policy, media representations and the everyday lives of wartime citizens. Acknowledged as a core component of British culture, sport was also frequently criticised, marginalised and downplayed, existing in a constant state of tension between notions of normality and exceptionality, routine and disruption and the everyday and the extraordinary. The author argues that sport played an important, yet hitherto neglected, role in maintaining the morale of the British people and providing a reassuring sense of familiarity at a time of mass anxiety and threat. Through the conflict, sport became increasingly regarded as characteristic of Britishness; a symbol of the 'ordinary' everyday lives in defence of which the war was being fought. Utilised to support the welfare of war workers, the entertainment of service personnel at home and abroad and the character formation of schoolchildren and young citizens, sport permeated wartime culture, contributing to new ways in which the British imagined the past, present and future. Using a wide range of personal and public records - from diary writing and club minute books to government archives - this book breaks new ground in both the history of the British home front and the history of sport.

Churchill on the Home Front, 1900-1955 Nov 24 2019 'The best one-volume study of Churchill yet available.' David Cannadine, Observer 'Magisterial.' Vernon Bogdanor, New Statesman 'A tour de force... A masterly chronicle of Churchill as a domestic figure rather than as the bulldog wartime leader, and one of the most subtle portraits of him as a politician. **Murder on the Home Front** Nov 05 2020 It is 1941. One ordinary day, in an ordinary courtroom, forensic pathologist Dr. Keith Simpson asks a keen young journalist to be his secretary. Although the "horrors of secretarial work" don't appeal to Molly Lefebure, she's intrigued to know exactly what goes on behind a mortuary door. Capable and

Accompanying him from somber morgues to London's most gruesome crime scenes, Molly observes and assists as he uncovers the dark secrets that all murder victims keep. **Soldiers on the Home Front** Oct 04 2020 When crisis requires U.S troops to deploy on American soil, the nation depends on a rich body of law to establish lines of authority, guard civil liberties, and protect democratic institutions. William Banks and Stephen Dycus analyze the military's domestic role as it is shaped by law, and ask what we must learn and do before the next crisis.

**Women at War 1939-1945** Jul 01 2020 Long before the outbreak of the Second World War, official calculations showed Britain would be short of the manpower needed to fight the enemy and keep up production of weapons, food and other essentials. It was hoped that women volunteers would fill the gaps and so they volunteered as workers in Civil Defence, the Women's Land Army, munitions factories and non-combatant roles in the Forces. But by 1941, the Government had to face facts: any effective response would have to involve conscription of British women. All females between the ages of fourteen and sixty-four were registered and soon the vast majority had work to do. They collected tons of salvage, knitted and sewed, and raised money for warships and weapons. Women ran fire stations and drove makeshift ambulances while cities burned and enemy bombs exploded around them. They kept their families going, often as single parents while their husbands were away for years in the armed

catchers in the country were female; others were accomplished engineers, carters, rail workers and bargees. When it was over, these wartime roles were not commemorated in films and books. There has been little official acknowledgement of the enormous and crucial contribution those British women made to the lives we live now. Many are getting on in years and their precious first-hand memories will go with them. Their stories are worth telling now for that alone. But they are also tales of love, death, sacrifice and romance, of humour and horror, and of an extraordinary time, when ordinary women did extraordinary things.

War on the Home Front Mar 21 2022 Endorsed by the Imperial War Museum, this book provides the answers to many questions relating to the Britain at war experience, by using facsimiles of actual documents and memorabilia from the time: photos, paintings, propaganda, regulations, and witness accounts.

**Policing the Home Front 1914-1918** Mar 29 2020 The civilian police during the First World War in Great Britain were central to the control of the population at home. This book will show the detail and challenges of police work during the First World War and how this impacted on ordinary people's daily lives. The aim is to tell the story of the police as they saw themselves through the pages of their best-known journal, The Police Review and Parade Gossip, in addition to a wide range of other published, archival and private sources.

**Concentration Camps on the Home Front** Feb 26 2020 Without trial and without due process, the United States government locked up nearly all of those citizens and longtime residents who were of Japanese descent during World War II. Ten concentration camps were set up across the country to confine over 120,000 inmates. Almost 20,000 of them were shipped to the only two camps in the segregated South—Jerome and Rohwer in Arkansas—locations that put them right in the heart of a much older, long-festering system of racist oppression. The first history

Front is an eye-opening account of the inmates' experiences and a searing examination of American imperialism and racist hysteria. While the basic facts of Japanese-American incarceration are well known, John Howard's extensive research gives voice to those whose stories have been forgotten or ignored. He highlights the roles of women, first-generation immigrants, and those who forcefully resisted their incarceration by speaking out against dangerous working conditions and white racism. In addition to this overlooked history of dissent, Howard also exposes the government's aggressive campaign to Americanize the inmates and even convert them to Christianity. After the war ended, this movement culminated in the dispersal of the prisoners across the nation in a calculated effort to break up ethnic enclaves. Howard's re-creation of life in the camps is powerful, provocative, and disturbing. Concentration Camps on the Home Front rewrites a notorious chapter in American history—a shameful story that nonetheless speaks to the strength of human resilience in the face of even the most grievous injustices.

**Deserters of the First World War** Apr 29 2020 The story of First World War deserters who were shot at dawn, then pardoned nearly a century later has often been told, but these 306 soldiers represent a tiny proportion of deserters. More than 80,000 cases of desertion and absence were tried at courts martial on the home front but these soldiers have been ignored. Andrea Hetherington, in this thought-provoking and meticulously researched account, sets the record straight by describing the deserters who disappeared from camps and barracks within Great Britain at an alarming rate. She reveals how they employed a range of survival strategies, some ridding themselves of all connection with the military while others hid in plain sight. Their reasons for desertion varied. Some were already living a life of crime whilst others were conscientious objectors who refused to respond to their call to arms.

physical and mental disabilities all played their part in men deciding to go on the run. Andrea Hetherington's timely book gives us a vivid insight into a hitherto overlooked aspect of the First World War.

**Holding the Home Front** May 11 2021 An "insightful and extensive" history of the women who took over agricultural duties in England during World War I (Sussex Living Magazine). One could be forgiven for supposing that the story of the Women's Land Army starts in 1939 during World War II. But it's a much older and more complicated history . . . British agricultural policy during the First World War was held up as a success story; domestic food production was higher at the end of the war than at the start, the average calorific value of the British diet barely changed, and bread never had to be rationed. As the press reported starvation and food riots overseas, the 1918 harvest was held up as "one of the great achievements of the War." In 1917, at the darkest hour, when Britain's food security looked most precarious, it was said that, "if it were not for the women agriculture would be absolutely at a standstill on many farms." Using previously unpublished accounts and photographs, this book is an attempt to understand how the return of women to the fields and farmyards impacted agriculture—and, in turn, an examination of how that experience affected them. "Caroline's wonderful book sets the record straight with beautiful illustrations and witting testimony from people who were there and saw how hard these wonderful women worked to keep Britain going during their darkest hours. Superb." —Books Monthly "This is a well-researched history of the British Women's Land Army in WW1 and how it paved the way for the success of the WLA in the Second World War." —World War One Illustrated

**The Civilian in War** Jun 19 2019 This collection of essays examines the condition of civilian populations during World War II in Britain, Germany, the United States, the Soviet Union, Italy, Poland, France, China, and the Netherlands. It covers such subjects as

propaganda, morale, labour, the role of women, resistance and collaboration.

*Iwm First World War on the Home Front* Dec 26 2019 "Your country Needs YOU!" was the poster slogan that shouted out to many during the First World War. And indeed, it did. As men of all ages joined the Forces and left their homes and jobs, so those left behind were forced to step up and take their place. Food shortages, rationing, the "First Blitz" and the appearance of women in the workplace all became familiar. Drawing on the archives of the Imperial War Museum, author Terry Charman presents a lively portrait of life on the Home Front in the First World War. Filled with absorbing first-hand accounts taken from diaries, letters and newspaper reports, the changing life in Britain between 1914 and 1918 is revealed in vivid and immensely personal detail by the people who actually lived through it. From the draconian effects of DORA (Defence of the Realm Act) to the threat of Zeppelin raids, to government propaganda and the power of the press, *The First World War on the Home Front* recalls how the people of Britain not only faced up to the threats to their country but also prepared for the fact that life in Britain would never be the same.

**The Home Front** Jun 24 2022 The Home Front examines the  
relationship between leisure and the military in the UK, in  
particular the air shows that take place at Royal Air Force bases  
and in the skies above our seaside resorts. In Friend's  
photographs the beach and the landscape become uneasy, surreal  
spaces, temporarily militarised by the fleeting presence and roar  
of fighter jets. Nostalgia for WWII is evoked by the presence of  
'war birds', only to be followed by the 'shock and awe' displays of  
contemporary fighter jets.

The Home Front 1914-1918 Dec 06 2020 The Great War had a  
profound impact on Britain. Not only did families risk their sons  
in active combat; every member of society was required to make a  
contribution to the war effort. National initiatives like rationing  
affected all, and civilians were now regarded as a legitimate  
military target. Reminders of this turbulent time survive today, in  
rituals such as Summer Time and Remembrance, nationwide war  
memorials, and the powerful myth of a lost generation  
slaughtered in a futile war. Here Ian Beckett examines the  
mobilization of the British people for the war effort and  
reassesses its impact on state and society. As evidence, he  
presents 40 key documents, including the King's rallying cry to  
the nation to 'eat less wheat', reports on social phenomena from  
anti-German riots to the drinking habits of women and juveniles,  
and Kitchener's initiatives to raise his New Armies.

**Doing Their Bit** Oct 16 2021 The Second World War, often  
described as a "People's War," was the first time civilians played a  
major part in Britain's war effort. New emergency services  
created before the war to help those suffering loss and damage  
were joined by the Home Guard as Britain faced invasion in the  
summer of 1940 and new organizations formed to deal with  
unemployment and the homeless caused by nightly air raids

in 1940. Major air attacks ceased in 1941 but food was rationed, daily essentials scarce and Britons of all ages expected to do wartime duty in addition to their day job. Many essential war workers on the Home Front lacked a uniform but wore a lapel or pin back-badge to show they were doing their bit for the war effort. Treasured as souvenirs of six momentous years in Britain's history, they were rediscovered years later, often by someone to whom their significance and meaning was unknown. Whilst military badges are well recorded, no attempt to identify Home Front items was made until the first edition of this book was published privately in 1996. Extensively updated *Doing Their Bit* is illustrated with over 700 wartime lapel badges and ephemera, records the wartime history of over 200 organizations which wore them and shows how Thomas Fattorini Ltd became a major manufacturer of Home Front badges. This invaluable guide should be on the shelves of anyone with an interest in the history of wartime Britain.

**Japan's Carnival War** Jul 13 2021 This cultural history of the Japanese home front during the Asia-Pacific War challenges ideas of the period as one of unrelenting repression. Uchiyama demonstrates that 'carnival war' coexisted with the demands of total war to promote consumerist desire alongside sacrifice and fantasy alongside nightmare, helping mobilize the war effort.

Evacuees Sep 15 2021 On the outbreak of the Second World War, during the first week of September 1939 over three million people were evacuated. Operation Pied Piper was the largest ever transportation of people across Britain, and most of those moved to safety in the countryside were schoolchildren. Social historian Gillian Mawson has spent years collecting the stories of former evacuees and this book includes the personal memories of over 100, in their own words. Their accounts reveal what it was like to settle into a new home with strangers, often staying for years. While many enjoyed life in the countryside, some escaping

homesickness.??A fascinating insight into the realities of wartime life, and a valuable oral history of a unique moment in British history.

past and Easter all but disappeared as chocolate - and even real eggs - went 'on the ration'. In spite of this the nation remained determined to celebrate Christmas as a time of family and community; a time when war could be set aside, if only for a day. Drawing upon personal recollections, contemporary Mass Observation reports, newspaper articles, advertisements, and personal and archive photographs, Mike Brown looks at each wartime Christmas on the British Home Front, from 1939 to 1944. He explores how people celebrated Christmas despite the problems of shortages, rationing, the blackout, Luftwaffe raids and the absence of family members who had been called up or evacuated. Life in Britain changed dramatically as the war progressed; the annual celebration of Christmas provides fascinating yearly 'snapshots', illuminating the changes over six years of conflict.

Faces of the Home Front, 1939-1945 Dec 18 2021 Faces of the Home Front presents a fascinating insight into the people, wartime organisations, events, life and work on the British Home Front during the Second World War. This is the story of ordinary people in extraordinary times told through an array of previously unpublished rare photographs, illustrations and ephemera. If you have wondered how Air Raid Wardens, Ambulance crews, Home Guard, Firemen, Special Constables, Women's Voluntary Service and the Women's Land Army were recruited and trained, how they were uniformed and what their duties entailed in wartime were, this is the book for you. Drawing on the authors' own extensive archives of original photographs, training manuals, documents, decades of research and interviews with those who were there, there are stories of well-known events such as the Blitz on London and many other often lesser known events and incidents around the country, some deeply moving, some harrowing and some that show how the kindness and selfless bravery of people that helped get Britain through its darkest

the experiences of people in cities, towns and countryside in wartime as they experienced evacuation, rationing, the black-out and air raids touched the lives of everyone. This volume is a valuable addition to the bookshelf of any family historian, collector, re-enactor.

The Home Front Sep 03 2020 Set in rural Wisconsin during 1944-1945, this story centers around Maggie Wentworth, a wife, mother and farmer who struggles to keep her life in balance after her physically abusive husband is shipped to Europe during WWII. She has to deal with the challenges of an aging father, a young son, and the temptation of an attractive German POW.

**The Home Front in World War Two** Jul 25 2022 This book brings an era to life with vivid stories and information from those who were there. During World War Two, 90% of the British population remained civilians. The War affected daily life more than any other war had done before. The majority of British people faced this with fortitude, courage and determination and this is their story, the telling of events and situations that forced their ingenuity and survival instincts to rise. Make do and mend came to mean so much more than reworking old clothes and this book describes the enterprise that went on and has long been forgotten. From the coasts and the countryside, this is how those at home faced and fought the war passively, particularly women whose job it was to keep the home fires burning. These ordinary people were crucial to the war effort; without their courage and inventiveness, the outcome could have been very different.

Packed with interviews, photographs and other firsthand information, this book will appeal to all those who were there, but even more for those with little or no experience of World War Two, who will gain insights into the humor, strength and creativity that emerged in the face of hardship and tragedy. The book explores how people lived in Britain during times of fear, hardship and uncertainty; how they functioned and supported

challenges and adversities

*The German Home Front 1939–45* Jul 21 2019 This book outlines and illustrates the living conditions of German civilians in World War II, and the Nazi state's basic structure. German families suffered the same hardships as British labour conscription, extra civic duties, severe shortages of food and necessities, disrupted transport, homelessness and evacuation, separation from loved ones and, for many, bereavement. However, there were important differences. The dictator for whom many had voted was leading them to ruin; unequalled death and devastation ensued from Allied air raids; and every aspect of life was caged around with repressive decrees that began to replace the true rule of law well before September 1939.

*The Home Front* May 31 2020 For those living in Britain between 1939 and 1945, the war was an ever-present reality; reminders were to be found everywhere. Huge numbers of objects relating to the war effort at home - some functional, like gas masks, ARP uniforms and ration books, and others less so, like Hitler chamber pots and toys and games - were manufactured and became commonplace in homes up and down the land. Today many of these items have become highly collectable. Peter Doyle and Paul Evans have put together a huge selection of objects, each one superbly illustrated and described in detail.

**On the Home Front** Jan 27 2020 What really happened on the Australian home front during the Second World War? For the people of Melbourne these were years of social dislocation and increased government interference in all aspects of daily life. On the Home Front is the story of their work, leisure, relationships and their fears—for by 1942 the city was pitted with air raid trenches, and in the half-light of the brownout Melburnians awaited a Japanese invasion. As women left the home to replace men in factories and offices, the traditional roles of mothers and wives were challenged. The presence of thousands of American

nationalism and identity, and the 'carnival spirit' of many on the home front created anxiety about the issues of drunkenness, gambling and sexuality. Kate Darian-Smith's classic and evocative study of Melbourne in wartime draws upon the memories of men and women who lived through those turbulent years when society grappled with the tensions between a restrictive government and new opportunities for social and sexual freedoms.

**All Quiet on the Home Front** Feb 20 2022 The truth about the sacrifice and suffering on the home front during World War I is rarely discussed. In this book, some of the oldest men and women in the country speak about experiences and events that have remained buried for 85 years. Their testimony shows the same candor and courage we have become accustomed to hearing from veterans of the western front. Those interviewed include a survivor of a Zeppelin raid on Hull in 1915, a Welsh munitions worker recruited as a girl, and a woman rescued from a bombed school after five days. There are also accounts of rural famine, bereavement and the effects on families back home, and even the story of a woman who planned to kill her family to save them further suffering.

**The Soviet Home Front, 1941-1945** Sep 22 2019 "John Barber and Mark Harrison explore how the political and economic system of the USSR stood up to the German invasion which penetrated deep into Soviet territory, and to the colossal burdens of total war. They examine the ways in which the Soviet leaders rallied their people and their resources, and show how the Soviet people themselves lived and worked in wartime. They give an account of the role played by the USSR's British and American allies; and they try to assess how far the terrible experience of war changed the social, multinational and economic order of the Soviet Union, and influenced its long-term political future."--Page 4 of cover.

the centenary of the outbreak of the war, whilst paying our respects to those who were killed serving our country, we recognise the impact that the war had on those at home.??This brand new publication details the human experiences, thoughts, concerns, fears and hopes of a city during one of the most important periods in its history, including the run up to war and the reaction to its outbreak; the efforts of those who could not fight; industry and how workers were instrumental in creating the weapons and tools that would help Britain win the war, along with the city's role in treating and entertaining wounded soldiers and the role of the University of Sheffield and the effect of the war on education. The part women played in the munitions factories plus a devastating Zeppelin raid over Sheffield are also covered in detail.??For the first time in its history, Sheffield realised that the horrors of war were not confined to overseas battles but that they could be witnessed and experienced in their own neighbourhoods.??As seen in The Yorkshire Post, Sheffield Telegraph, The Star (Sheffield), Bradway Bugle and Grapevine Magazine.

*Ken Graves works* Aug 22 2019 Ken Graves's idiosyncratic photographs capture the humour and pathos of America in the transitional era of the 1960s and 1970s. Looking in from the margins, Graves highlights the contradictions inherent in America and its culture moulded equally by idealism and decline. He simultaneously examines and dismantles those myths, and plays out the tension of the American dream against the backdrop of a gritty reality. Graves uses photography as a tool to document everyday surrealism, the improbable episodes and happy accidents which unfold before the camera. Like Garry Winogrand, Graves is concerned with building a distinct photographic language -- literary in tone, and always belied by a politics of vision. In searching out public displays of Americana, Graves focuses on the simultaneity of anticipation and collision, reaching beyond the hyperreal of the fairgrounds and the holiday occasions, revealing instead the wonder, humour and strangeness of the everyday.00Ken Graves was born in Oregon, US, in 1942. He is the coauthor of *American Snapshots* (Scrimshaw Press, 1971) with Mitchell Payne, and *Ballroom* with Eva Lipman (Milkweed Editions, 1989). His photographs appear in the collections of MoMA, New York; MoMA, San Francisco, among others.
