Celibacy in the Ancient World Jul 19 2019 These questions guide Dale Launderville, OSB, in his study of celibacy in the ancient cultures of Israel, Mesopotamia, and Greece prior to Hellenism and the rise of Christianity. Launderville focuses especially on literary witnesses, because those enduring texts have helped to shape modern attitudes and can aid us in understanding the factors that may call forth the practice of celibacy in our own time. Readers will discover how celibacy fits within a context of relationships, and what kinds of relationships thus support a healthy and varied society, one aware of and oriented to its cosmic destiny. -- Cosmos in the Ancient World Nov 15 2021 Traces the concept of kosmos as order, arrangement, and ornament in ancient philosophy, literature, and aesthetics. An Introduction to the Ancient World Feb 18 2022 This lavishly illustrated introductory history covers 3,000 years of the ancient Near East, Greece and Rome within the framework of a short narrative history of events. Focusing mainly on the social, political and cultural processes which have influenced later western civilizations, An Introduction to the Ancient World considers subjects such as the religions of the ancient Near East, Athenian democracy, the interaction of cultures in the Hellenistic world, the political and administrative system of the Roman republic and empire, gender problems and ancient demography. This book shows how the Near East, Greece and Rome witnessed the emergence of city and state government, the development of decision processes, expansion and the effects of social structures, interaction of different cultures, and the emergence of Judaism and Christianity. Anyone interested in ancient history, classics and archaeology, will need this accessible and comprehensive book.

Animals and Inequality in the Ancient World Dec 24 2019 Explores the current trends in the social archaeology of human-animal relationships, focusing on the ways in which animals are used to structure, create, support, and even deconstruct social inequalities.

Encyclopedia of the Ancient World Sep 13 2021 First Published in 2000. Routledge is an imprint of Taylor & Francis, an informa company.

[The Book of the Ancient World](#) Jan 17 2022 The Book of the Ancient World is an account of our common heritage from the dawn of civilization to the coming of the Greeks. It is the story of how human beings began their great adventure of learning how to live; of how they have sought to satisfy the practical needs of their bodies, the questioning of their minds, and the searching of their spirits. To this end it subordinates details of political events to the record of things that lie at the foundation of our modern civilization. Dorothy Mills had an uncanny and unique ability to write history that is interesting and at the same time based on sound scholarship. Her direct, engaging approach is valued increasingly by the many parents in our day who are looking for reliable materials for home study, as well as by many private school educators. The highly-prized six volumes of her historical works (see below) have become very scarce on the used book market, and so Dawn Chorus has undertaken to reprint them as part of its effort to offer texts ideally suited to the needs of a new generation of teachers and students. In a world where the quality of education has so deteriorated, may the reissue of this wonderful historical series shine as a beacon to a new generation of young (and not so young) scholars. Dawn Chorus publishes these five other books by Dorothy Mills: The Book of the Ancient Greeks; The Book of the Ancient Romans; The People of Ancient Israel; The Middle Ages; and Renaissance and Reformation Times. Dawn Chorus has also republished another outstanding, and long-out-of-print historical series perfectly suited for home or school use (and highly recommended in home-school curricula), entitled The Picturesque Tale of Progress, by Olive Beaupre Miller. It is available in large format (9 volumes), or smaller, double-bound format (5 volumes).

A Global History of the Ancient World Jun 29 2020 Ancient history has traditionally focused on Greece and Rome. This book takes a global approach to the distant past, following the development of human societies across the globe from the last Ice Age, 11,700 years ago, to the rise of Islam in the seventh century CE. The only book of its kind, A Global History of the Ancient World provides succinct narratives of the first Asian, African and European civilizations and their importance for later history without foregoing the key topics of conventional textbooks. Thematic overviews give truly global perspectives on connections, disconnections and parallel developments shaping the ancient world. Written for students of history, classics and related disciplines, the book will appeal to anyone interested in widening their view of early history.

Politics in the Ancient World Aug 20 2019 Sir Moses Finley explores politics in the city states of Greece and republican Rome and their impact on our understanding of the ancient world.

Consumerism in the Ancient World Oct 22 2019 Greek pottery was exported around the ancient world in vast quantities over a period of several centuries. This book focuses on the Greek pottery consumed by people in the western Mediterranean and trans-Alpine Europe from 800-300 BCE, attempting to understand the distribution of vases, and particularly the reasons why people who were not Greek decided to acquire them. This new approach includes discussion of the ways in which objects take on different meanings in new contexts, the linkages between the consumption of goods and identity construction, and the utility of objects for signaling positive information about their owners to their community. The study includes a database of almost 24,000 artifacts from more than 230 sites in Portugal, Spain, France, Switzerland, and Germany. This data was mapped and analyzed using geostatistical techniques to reveal different patterns of consumption in different places and at different times. The development of the new approaches explored in this book has resulted in a shift away from reliance on the preserved fragments of ancient Greek authors' descriptions of western Europe, remains of monumental buildings, and major artworks, and toward investigation of social life and more prosaic forms of material culture.

Engineering in the Ancient World Jan 25 2020 The Greeks and Romans were considerable engineers. They made many remarkable machines, which were not bettered until the Industrial Revolution. Landels shows how these machines were developed and made. He draws together evidence from archaeological discoveries and from literary sources.

World History Sep 25 2022 A truly global view of history covering over 350 of the world's most important turning points. Presented in a beautiful slipcase, this is an essential gift for every history buff. World History is the most accessible guide to the history of human civilisation, covering the Neanderthals, the Assyrian Empire, Chinese dynasties, Vikings, World War I, apartheid, the rise of ISIS, and everything in-between. This remarkable book offers the most up-to-date coverage of global history, up to and including the Arab Spring, global terror, Russia and Ukraine, and the rise of populism in the EU. Historical moments and movements from across the globe are brought to life with contemporary photography, iconic maps, and stunning paintings. Follow humanity's journey and discover all the key thinkers, leaders, ideas, and inventions that shaped the modern world.

Prehistory, First Empires, and the Ancient World Mar 27 2020 Offers a chronicle of world events, from the first great civilizations and the religions of India, China, and Japan to the Rise of the Byzantium and China's first emperors of the Qin and Han dynasties.

[The Great Empires of the Ancient World](#) Mar 07 2021 Presents a survey of the empires of Egypt, Rome, Babylonia, Persia, India, and China between 1600 B.C and 500 A.D.

[Popular Culture in the Ancient World](#) Jul 31 2020 This book adopts a new approach to the classical world by focusing on ancient popular culture.

The Ancient World Jul 11 2021 Originally published under the General Editorship of Thomas H. Greer, the series emanated from the Humanities Department of

Michigan State University. The books remain today perhaps the best sources available for the comprehensive study in one volume of every subject area which might be included in the umbrella of humanities. Most major literary forms are represented: essay, poem, short story, play, novel, memoir, epigram, scientific discourse, philosophical treatise, political manifesto, and religious proclamation. All major subject areas are explored: art, music, education, mathematics, biology, psychiatry, religion, philosophy, politics, economics, and physics. The informative apparatus, headnotes, and footnotes are all aimed at enhancing the student-reader's comprehension.

Forgotten Peoples of the Ancient World Feb 24 2020 The ancient world saw the birth and collapse of great civilizations. In mainstream history the Classical world is dominated by Greece and Rome, and the Biblical world is centred on the Hebrews. Yet the roughly four-and-a-half thousand years (4000 bcad 550) covered in this book saw many peoples come and go within the brawling, multi-cultural mass of humanity that occupied the ancient Middle East, Mediterranean and beyond. While a handful of ancient cultures have garnered much of the credit, these forgotten peoples also helped to lay the foundations of our modern world. This guide brings these lost peoples out of the shadows to highlight their influence and achievements. Forty-five entries span the birth of civilization in Mesopotamia to the fall of the Roman Empire in the West, offering an alternative history focusing on the names we aren't familiar with, from the Hurrians to the Hephthalites, as well as the peoples whose names we know, such as the Philistines and the Vandals, but whose real significance has been obscured. Each entry charts the rise and fall of a lost people, and how their culture echoes through history into the present. Important ancient artefacts are illustrated throughout and fifty specially drawn maps help orientate the reader within this tumultuous period of history. Philip Matyszak brings to life the rich diversity of the peoples founding cities, inventing alphabets and battling each other in the ancient world, and explores how and why they came to be forgotten.

Piracy in the Ancient World Mar 19 2022 Now available in paperback, Ormerod's classic *Piracy in the Ancient World* brings the treachery of the ancient high seas alive. Drawing on the works of Homer and Thucydides and the historical records that have survived from ancient Greece and Rome, Ormerod reconstructs the dangers of coastal living and seafaring and the attempts to protect against the threat of invasion from the seas. Seaborne brigands were greatly feared in the ancient world. Pirates not only preyed on merchant ships and fishing craft in the Mediterranean but also wreaked havoc on coastal townstake men, women, and children to ransom or sell as slaves; raiding treasures; and exacting tribute from fearful town leaders. Responding to the threat of piracy, the Greeks established their primary cities inland for protection and even in their North African and Sicilian outposts they left coastal land uncultivated. Mariners feared pirate ships around every promontory and sought protection from the navies of such states as Rhodes and Crete. The Romans were beset in the time of their early Republic by "Tyrranean" pirates based in the south of Italy and during the last years of the Empire by the Cilician pirates of Asia Minor. When one great pirate, Sextus Pompeius, was finally suppressed, rather than being punished he was charged with ridding the seas of his former followers. His attempts failed. Now available in paperback, Ormerod's classic *Piracy in the Ancient World* brings the treachery of the ancient high seas alive. Drawing on the works of Homer and Thucydides and the historical records that have survived from ancient Greece and Rome, Ormerod reconstructs the dangers of coastal living and seafaring and the attempts to protect against the threat of invasion from the seas. He describes the general nature of early piracy, ancient navigation, and the pirate's routines and tactics.

Warfare in the Ancient World Aug 24 2022 From the clash of bronze weapons on bronze armor to the fall of Rome, war often decided the course of ancient history. This volume is a practical introduction to the study of warfare in the ancient world, beginning with Egypt and Mesopotamia, and tracing the advances made in battle tactics, technology, and government over hundreds of years, culminating with developments in Greece and the Roman Empire. The chronological structure allows the reader to trace certain general themes down through the centuries: how various civilizations waged war; who served in the various armies and why; who the generals and officers were who made the decisions in the field; what type of government controlled these armies; and from what type of society they sprang. Major events and important individuals are discussed in their historical contexts, providing a complete understanding of underlying causes, and enabling readers to follow the evolution of ancient warfare as armies and empires became steadily larger and more sophisticated. Yet as Chrissanthos makes clear, history comes full circle during this period. Rome's collapse in 476 C.E. inaugurated an unforeseen dark age in which great armies were left decimated despite advanced technology that, while proving decisive in the outcome of many critical battles and stand-offs, had vanished amidst the Empire's crumbling walls. In addition to the chronological treatment, Chrissanthos also includes sections on such important topics as chariot warfare, cavalry, naval warfare, elephants in battle, the face of battle, and such vital, but often-overlooked topics as the provisioning of the army with sufficient food and water. Eyewitness accounts are incorporated throughout each chapter, allowing the reader brief glimpses into the life and times of peasants and soldiers, generals and politicians, all of whom were dealing with war and its irreconcilable consequences from differing vantage points. Battle diagrams and maps are carefully placed throughout the text to help the reader visualize particular aspects of ancient warfare. The book also furnishes a detailed timeline and an extensive bibliography containing both modern and ancient sources.

The History of the Ancient World: From the Earliest Accounts to the Fall of Rome Dec 04 2020 A lively and engaging narrative history showing the common threads in the cultures that gave birth to our own. This is the first volume in a bold new series that tells the stories of all peoples, connecting historical events from Europe to the Middle East to the far coast of China, while still giving weight to the characteristics of each country. Susan Wise Bauer provides both sweeping scope and vivid attention to the individual lives that give flesh to abstract assertions about human history. Dozens of maps provide a clear geography of great events, while timelines give the reader an ongoing sense of the passage of years and cultural interconnection. This old-fashioned narrative history employs the methods of "history from beneath"—literature, epic traditions, private letters and accounts—to connect kings and leaders with the lives of those they ruled. The result is an engrossing tapestry of human behavior from which we may draw conclusions about the direction of world events and the causes behind them.

Equids in the Ancient World Nov 22 2019

Cities That Shaped the Ancient World Jun 22 2022 An illuminating and evocatively illustrated tour of forty of the greatest cities that shaped the ancient world and its civilizations, from China and Mesoamerica to Europe and Ethiopia Today we take living in cities, with all their attractions and annoyances, for granted. But when did humans first come together to live in large groups, creating an urban landscape? What were these places like to inhabit? More than simply a history of ancient cities, this volume also reveals the art and architecture created by our ancestors, and provides a fascinating exploration of the origins of urbanism, politics, culture, and human interaction. Arranged geographically into five sections, *Cities That Shaped the Ancient World* takes a global view, beginning in the Near East with the earliest cities such as Ur and Babylon, Troy and Jerusalem. In Africa, the great cities of Ancient Egypt arose, such as Thebes and Amarna. Glorious European metropolises, including Athens and Rome, ringed the Mediterranean, but also stretched to Trier on the turbulent frontier of the Roman Empire. Asia had bustling commercial centers such as Mohenjodaro and Xiayang, while in the Americas the Mesoamerican and Peruvian cultures stamped their presence on the landscape, creating massive structures and extensive urban settlements in the deep jungles and high mountain ranges, including Caral and Teotihuacan. A team of expert historians and archaeologists with firsthand knowledge and deep appreciation of each site gives voices to these silent ruins, bringing them to life as the bustling state-of-the-art metropolises they once were.

The Cambridge Companion to Ancient Rome Sep 20 2019 The Cambridge Companion to Ancient Rome offers thirty-one original essays by leading historians, classicists and archaeologist on the largest metropolis of the Roman Empire. While the Colosseum, imperial palaces and Pantheon are famous features of the Roman capital, Rome is addressed in this volume primarily as a city in which many thousands of men and women were born, lived, and died. The clearly written and succinct chapters discuss numerous issues related to the capital of the Roman Empire: from the monuments and the games to the food- and water supply, from policing and riots to domestic housing, from death and disease to pagan cults and the impact of Christianity. Richly illustrated and designed as a readable survey accessible to all audiences, the Companion explains ground-breaking new research against the background of current debate and reaches a level of sophistication that will be appreciated by the experts.

City and Country in the Ancient World Nov 03 2020 The ancient Greco-Roman world was a world of cities, in a distinctive sense of communities in which countryside was dominated by urban centre. This volume of papers written by influential archaeologists and historians seeks to bring together the two disciplines in exploring the city-country relationship.

Libraries in the Ancient World Apr 27 2020 The unexpected murder in the little Cotswolds town of Colomby has everyone guessing. Before the answers are found more lives are threatened.

The Clothed Body in the Ancient World Feb 06 2021 The papers in this volume provide fascinating snapshots of the clothed body in the ancient world. These snapshots reveal common themes in scholarship and allow a comparison of methodologies across disciplines and periods.

The Decline of the Ancient World Dec 16 2021 This celebrated account of the decline of the ancient world describes the fall of the Roman Empire and the beginning of the emergence of the new medieval European order.

The Oracles of the Ancient World Oct 14 2021 Ranging from Abai to Zeleia, from massive temples in Egypt to modest tombs in Turkey, oracles were a major feature of the religions of many ancient cultures until their demise under the Christian Roman emperors. This work is a guide to all the known oracles of the ancient world. The greater part of it is devoted to an alphabetical listing providing details of nearly 300 sites in more than 25 countries where oracles of one kind or another

functioned in antiquity. The text is extensively cross-referenced and illustrated, and supplemented by indexes, a glossary, and a substantial introduction.

Religions of the Ancient World Jul 23 2022 Presents the beliefs, cults, gods, and ritual practices that developed in Mediterranean region countries such as Egypt, Anatolia, Mesopotamia, Iran, Greece, and Rome from the the third millenium B.C. up to the fourth century A.D.

Sport and Spectacle in the Ancient World Jun 10 2021 The second edition of Sport and Spectacle in the Ancient World updates Donald G. Kyle's award-winning introduction to this topic, covering the Ancient Near East up to the late Roman Empire. • Challenges traditional scholarship on sport and spectacle in the Ancient World and debunks claims that there were no sports before the ancient Greeks • Explores the cultural exchange of Greek sport and Roman spectacle and how each culture responded to the other's entertainment • Features a new chapter on sport and spectacle during the Late Roman Empire, including Christian opposition to pagan games and the Roman response • Covers topics including violence, professionalism in sport, class, gender and eroticism, and the relationship of spectacle to political structures

The Ancient World in 100 Words May 21 2022 How do you sum up the ancient world in just 100 words? This book takes on the challenge! With 100 carefully chosen words, each explained in just 100 words, this book provides a quick and fun insight into the characters, events and inventions of the ancient world. With entries on the Egyptians, the Phoenicians, the Minoans, the Greeks, and the Romans, this book is an easy way to gain a rounded knowledge of the subject area, while also sparking discussion and provoking thought from readers, young and old. What were pyramids used for? How did the Romans fight battles? Which Greek inventions are still used today? Each word is brought to life with engaging illustrations and absorbing text, sure to inspire the imagination of budding historians.

Lifelines in World History Jun 17 2019 This lavishly illustrated full-color set is organized by the time frames that mirror the National Standards for world history for grades 6-12. An ideal supplement to all the major textbooks, it offers appealing and comprehensive biographies of history's most influential figures - both famous and infamous. "Lifelines in World History" features biographies of figures from Africa, the Americas, Asia and the Pacific, Europe, and Southwest Asia, and covers the most significant events and trends in world history. Each volume includes 15-20 biographies, and in addition to biographical information, each entry includes engaging sidebars that feature key dates, more people to know, words from their time, and cultural connections. The set also includes numerous full-color maps.

Encyclopedia of Women in the Ancient World Apr 20 2022 "This extensive and engaging A-to-Z encyclopedia, illustrated with many rare and revealing images, tells the stories of the famous and the ordinary, treating subjects as diverse as Greek heroine cults, the daily life of the German warrior women, and the intrigue, glory, and power of ancient Rome's imperial women. Hundreds of well-researched entries, each with suggestions for further reading, give a rounded view of the lives of women in the ancient world."-BOOK JACKET.

Groundbreaking Scientific Experiments, Inventions, and Discoveries of the Ancient World Jan 05 2021 Describes technological and scientific inventions from prehistory to the Middle Ages, covering such topics as astronomy, communications, mathematics, timekeeping, weaponry, and transportation.

An Introduction to the Ancient World Oct 26 2022 Integrating the results of scholarly work from the past decade, the authors of An Introduction to the Ancient World, Lukas de Blois and R.J. van der Spek, have fully-updated and revised all sixteen chapters of this best-selling introductory textbook. Covering the history and culture of the ancient Near East, Greece and Rome within the framework of a short narrative history of events, this book offers an easily readable, integrated overview for students of history, classics, archaeology and philosophy, whether at college, at undergraduate level or among the wider reading public. This revised second edition offers a new section on early Christianity and more specific information on the religions, economies, and societies of the ancient Near East. There is extended coverage of Greek, Macedonian and Near Eastern history of the fourth to second centuries BC and the history of the Late Roman Republic. The consequences of Julius Caesar's violent death are covered in more detail, as are the history and society of Imperial Rome. This new edition is: comprehensive: covers 3,000 years of ancient history and provides the basis for a typical one-semester course lavishly illustrated: contains maps, line drawings and plates to support and supplement the text, with updated captions clearly and concisely written: two established and respected university teachers with thirty years' experience in the subject areas well-organized: traces the broad outline of political history but also concentrates on particular topics user-friendly: includes chapter menus, an extensive and expanded bibliography organized by subject area and three appendices, an improved introduction and the addition of an epilogue.

The Werewolf in the Ancient World Apr 08 2021 Tales of the werewolf are well established as a sub-strand of the popular horror genre; less widely known is how far back in time their provenance lies. This is the first book in any language devoted to the werewolf tales that survive from antiquity, exploring their place alongside witches, ghosts, demons, and soul-flyers in a shared story-world.

The Historians of Ancient Rome May 09 2021 The Historians of Ancient Rome is the most comprehensive collection of ancient sources for Roman history available in a single English volume. After a general introduction on Roman historical writing, extensive passages from more than a dozen Greek and Roman historians and biographers trace the history of Rome over more than a thousand years: from the city's foundation by Romulus in 753 B.C.E. (Livy) to Constantine's edict of toleration for Christianity (313 C.E.) Selections include many of the high points of Rome's climb to world domination: the defeat of Hannibal; the conquest of Greece and the eastern Mediterranean; the defeat of the Catilinian conspirators; Caesar's conquest of Gaul; Antony and Cleopatra; the establishment of the Empire by Caesar Augustus; and the "Roman Peace" under Hadrian and long excerpts from Tacitus record the horrors of the reigns of Tiberius and Nero. The book is intended both for undergraduate courses in Roman history and for the general reader interested in approaching the Romans through the original historical sources. Hence, excerpts of Polybius, Livy, and Tacitus are extensive enough to be read with pleasure as an exciting narrative. Now in its third edition, changes to this thoroughly revised volume include a new timeline, translations of several key inscriptions such as the Twelve Tables, and additional readings. This is a book which no student of Roman history should be without.

Globalizations and the Ancient World May 29 2020 In this book, Justin Jennings argues that globalization is not just a phenomenon limited to modern times. Instead he contends that the globalization of today is just the latest in a series of globalizing movements in human history. Using the Uruk, Mississippian, and Wari civilizations as case studies, Jennings examines how the growth of the world's first great cities radically transformed their respective areas. The cities required unprecedented exchange networks, creating long-distance flows of ideas, people, and goods. These flows created cascades of interregional interaction that eroded local behavioral norms and social structures. New, hybrid cultures emerged within these globalized regions. Although these networks did not span the whole globe, people in these areas developed globalized cultures as they interacted with one another. Jennings explores how understanding globalization as a recurring event can help in the understanding of both the past and the present.
