**sequence classification with lstm recurrent
neural networks in** Oct 23 2019 web 25 07
2016 sequence classification is a predictive
modeling problem where you have some
sequence of inputs over space or time and the
task is to predict a category for the sequence
this problem is difficult because the sequences
can vary in length comprise a very large
vocabulary of input symbols and may require the
model to learn the long term
