Clinical Documentation Improvement Oct 05 2022 Clinical Documentation Improvement (CDI) Made Easy is a great resource and reference that every Clinical Documentation Improvement Specialist/Professional (CDIS/CDIP), coder, physician champion/advisor,

and others involved in the CDI must have. The book is a compendium of sound clinical knowledge and experience, clinical documentation expertise, and quality, which will help the CDIS/CDIP and others maximize their potentials in performing their core duties. Whether you are a new CDIS trying to learn CDI or an experienced CDIS hoping to stay current with CDI world, or involved in the CDI, this book will be very valuable to you. Remember, accurate and quality documentation is a reflection of great patient care. "If it wasn't documented, and documented accurately, it never happened." This book clearly explained various query opportunities by Major Disease Classifications (MDCs) with some sample queries. It defines and analyses different disease processes, creates CDIS awareness and what to look for under various MDCs, ICD-10-CM/PCS, explained current CMS Pay for Performance (P4P), and the CDI responsibility under P4P, explained some pertinent coding guidelines, 2016 Official Coding Guidelines for Coding and Reporting, AHIMA/ACDIS practice brief for queries and compliance, and much more. I have no doubt in my mind that this book is a concise but a comprehensive tool and reference that anyone involved in CDI should always have at his/her side. The Author Anthony O Nkwuaku, RN, PHN, MSN, CPHQ, CCDS is very knowledgeable and experienced as a clinician, clinical instructor, and Clinical Documentation Improvement Specialist.

Intellectual Property Policy, Law and Administration in Africa Oct 01 2019 This book examines the harmonisation of Intellectual Property (IP) policy, law and administration in Africa. Two recent developments have brought this topic to the fore. The first is the escalation of long-standing efforts to establish a Pan-African Intellectual Property Organisation (PAIPO), a continental initiative. The second is the current sub-regional attempt to operationalise the IP provisions of the Southern African Development Community (SADC)'s Protocol on Trade (articles 9b and 24) and its Protocol on Science, Technology and Innovation (article 2m). Intellectual Property Policy, Law and Administration in Africa discusses the viability of such initiatives with particular reference to the current socio-economic status of Africa's nations. With a view to contributing to future developments in Africa at both a continental and sub-regional level, the author considers this issue through the lens of advancing the public interest in IP. Ncube argues that harmonisation initiatives ought to be crafted in a way that is supportive of the development aspirations of African states. Consequently, she urges due consideration of individual states' unique conditions and aspirations in any harmonisation venture, a necessity outlined in article 7 of the Agreement on Trade Related Aspects of Intellectual Property Rights. This book will be of great relevance to scholars and policy makers with an interest in IP law and African law in general.

Patents for Development Nov 25 2021 This book investigates whether it is possible to execute the disclosed technologies just by reading the patent application. Nefissa Chakroun argues that while TRIPS Agreement obliges inventors to disclose full and complete disclosure, patent information users lack the capacity to fully utilise such information for their economic development. The book offers a critical analysis of the disclosure requirements of the patent system as well as an in-depth examination of the ways in accessing and retrieving patent information. Chakroun articulates proposals for strengthening the disclosure and methods for enhancing retrieval and exploitation of the technological knowledge, including an integrated policy on how patent information could be better utilised for development

Traffic Safety Data Jun 08 2020 Traffic crashes kill or injure millions of people each year. High-quality traffic safety data is vital to allocate resources and target programs as the National Highway Traffic Safety Admin, (NHTSA) and states work to improve traffic

safety through data-driven approaches. To qualify for federal funding, states must submit plans which include fatality and crash data analyses to identify areas for improvement. This report provides information on: (1) the extent to which state traffic safety data systems meet NHTSA performance measures for assessing the quality of data systems; and (2) progress states have made in improving traffic safety data systems, and related challenges. Includes recommendations. Charts and tables.

Competition Policy and Intellectual Property in Today's Global Economy Jul 02 2022 The fast-evolving relationship between the promotion of welfare-enhancing competition and the balanced protection of intellectual property (IP) rights has attracted the attention of policymakers, analysts and scholars. This interest is inevitable in an environment that lays ever greater emphasis on the management of knowledge and innovation and on mechanisms to ensure that the public derives the expected social and economic benefits from this innovation and the spread of knowledge. This book looks at the positive linkage between IP and competition in jurisdictions around the world, surveying developments and policy issues from an international and comparative perspective. It includes analysis of key doctrinal and policy issues by leading academics and practitioners from around the globe and a cutting-edge survey of related developments across both developed and developing economies. It also situates current policy developments at the national level in the context of multilateral developments, at WIPO, WTO and elsewhere.

The World Intellectual Property Organization (WIPO) Jul 10 2020 As a 'Specialized Agency' of the UN, the World Intellectual Property Organization aims to be the premier global forum for intellectual property services, policy, information and cooperation. Whilst many individuals, firms, institutions and governments know and use WIPO services, the ways in which it functions, how priorities are set and decisions made are less well-understood. Indeed, a diversity of WIPO's stakeholders and member governments express frustration that WIPO's governance is not only complex but at times opaque. This practical guide offers a unique insight into how WIPO is governed, described in clear, readily accessible terms for policymakers, scholars and stakeholders. The guide reviews the origins of WIPO and sets out its current functions and activities, presenting a framework for analysing WIPO's complex governance system. The core of the text will improve the reader's understanding of WIPO in five thematic areas: • Legal foundations, mandate and purpose • Decision-making structures, processes and practices • Financial arrangements (such as income sources and the budget process) • Mechanisms for accountability and control of the Secretariat (such as policies on oversight, audit and evaluation) • Transparency and external relations. The text is accompanied by a number of valuable appendices, including key documents that have, to date, not been readily available to the public. Written by a leading WIPO commentator, *The World Intellectual Property Organization (WIPO): A Reference Guide* is the first comprehensive reference book to illuminate the nuts and bolts of WIPO governance. It will prove an invaluable and handy resource for those who interact with WIPO on any level, as well as to researchers seeking an introduction to how the organisation works.
