**My Stroke of Luck** Sep 06 2020 This book chronicles four years of my ongoing journey from self-pity to laughing at predicaments from my inconvenient stroke. I chose to be the kicker and will laugh my way through these challenges, come hell or high water. I hope you enjoy my journey and see that, stressors be damned, there's always room for the healing power of laughter in overcoming any of life's predicaments.

Filling this void, *Technical Writing: A Practical Guide for Engineers and Scientists* enables readers to write, edit, and publish materials of a technical nature, including books, articles, reports, and electronic media. Written by a renowned engineer and widely published technical author, this guide complements the traditional writer's reference manuals and other books on technical writing. It helps readers understand the practical considerations in writing technical content. Drawing on his own work, the author presents many first-hand examples of writing, editing, and publishing technical materials. These examples illustrate how a publication originated as well as various challenges and solutions.

**Ripple Effects** May 27 2022 Discover the God-inspired difference only you can make in the world . . . using the key you never knew you had. Tim Tebow credits his mom with being the key to his success--but Pam never expected that she would be known on a national stage. For most of her life, she was serving quietly and faithfully as a wife and a mom--choosing life for her child in the face of medical risks, answering the Lord's call to mission work in the Philippines, and homeschooling before anyone knew what the word meant. But all along the way, her experiences--and her consistent, everyday choices to follow the Lord and to serve wherever He placed her--were creating unexpected ripples of influence throughout her family, her community, and her world. And they would end up extending far beyond anything she ever imagined. Pam believes that every one of us can be influential--and that deep within a woman's heart is the desire to use her influence for good. In *Ripple Effects*, Pam uncovers and explores the miraculous motivating power of influence we can have on this generation and the next, no matter where we are planted in life. Whether we are in the midst of endless diaper changes, climbing up the corporate ladder, or simply doing our best to live, love, and serve well each day, Pam will encourage us to maximize our God-given opportunities for influence--and watch how far the ripples will spread.

**How To Be An In Home Care Provider For The Disabled & Elderly**

Sep 26 2019 When you hear "in home care provider," what is your first thought? I am hoping to provide some answers for that question in this book. I hope that you find the information helpful, and that your loved one gets the best care that they deserve. Okay, you hire someone to come in to be an in home care provider to a dependent family member or loved one. What type of things are you expecting them to know how to do—this is really something that you need to think about. Do you expect them to be able to cook meals without having to teach them? Do you expect them to be able to use a toaster to make toast? Wonder why I ask this question, the answers are inside this book. Do these professionals know basic safety? Do they really know what to do in an emergency? Can the care providers read and write? Can they understand what you say when you speak? An in-home care provider is not a nurse. An in-home care provider is not a medical professional. An in-home care provider is someone who is hired to provide aide to someone, who is unable to provide for their own basic needs. An in-home care provider is a person who is hired to be essentially a helper to the person they are with. To help them do the things that they are no longer able to do by themselves. The in-home care provider is hired so that the client, who is elderly or disabled, can stay in their own home, rather than in a care facility.

**Watching Grandma Circle the Drain** Dec 10 2020 In his latest tour de force, Allen Smith takes on the challenges of life from his own gritty perspective. Everything from surviving on-line dating to enduring his first sigmoidoscopy and advancing age. *Watching Grandma Circle the Drain* is a collection of Smith's most entertaining work from his previously published columns. In addition to his own experience with struggling to learn Spanish and annihilating the game of golf, he gives the reader an inside look at some of the things they've never wondered

about, like managing persistent telemarketers, what it's like to qualify as a sperm donor and some of the most unusual ways to make a living without a college degree. In part two, Smith takes aim at news stories by attacking issues like home schooling, women competing in the Tour de France, dozing air traffic controllers and the first person to marry (and divorce) himself. *Watching Grandma Circle the Drain* is a bite-sized, entertaining look at the way we complicate our lives. Once you read it, you'll never look at life the same way again.
