Lessons for Living Dec 30 2019 Lessons for Living (volume 2) is a curriculum designed to help Christian leaders shepherd, mentor, and disciple others in the various aspects of evangelism as prescribed in God's Word. This study offers weekly reminders about the doctrine of evangelism and real-life application and scenarios that Christians face each day as they share the gospel of Jesus Christ with others. Lessons for Living encourages readers to spend time in the Word of God, and can be used individually or within study groups, discipleship groups, Sunday School classes, weekly Bible Studies, or life-enrichment groups. Our desire is that these lessons, each outlined with a Key Verse, Discussion Questions, and a Final Thought to Remember, encourage each reader to dig deeper into the Word of God.

Christ's Object Lessons—Illustrated Nov 20 2021 Heritage Edition—Over 100 illustrations of a century ago. Unabridged, original text consisting of inspiring and profound lessons from the stories and parables which Jesus told. Christ the Great Teacher gave much of His instruction as He walked with His disciples through the hills and valleys of Palestine or rested by the lake or river. In His parable teaching He linked divine truth with common things and incidents, as may be found in the experiences of the shepherd, the builder, the tiller of the soil, the traveler, and the homemaker. Familiar objects were associated with thoughts true and beautiful—thoughts of God's loving interest in us, of the grateful homage that is His due, and of the care we should have one for another. Thus lessons of divine wisdom and practical truth were made forcible and impressive. The Scripture says, "All these things spake Jesus unto the multitude in parables; . . . that it might be fulfilled which was spoken by the

prophet, saying, I will open My mouth in parables; I will utter things which have been kept secret from the foundation of the world.” Matt. 13:34, 35. Natural things were the medium for the spiritual; the things of nature and the life-experience of His hearers were connected with the truths of the written word. Leading thus from the natural to the spiritual kingdom, Christ’s parables are links in the chain of truth that unites man with God, and earth with heaven. In this volume the parables are grouped according to their subjects, and their lessons are developed and illustrated. The book is full of gems of truth, and to many readers it will give a richer meaning to the common surroundings of everyday life.

Toward New Corporate Governance Standards in the Kingdom of Saudi Arabia: Lessons from Delaware Jun 27 2022 There is currently a debate in the Kingdom of Saudi Arabia is over how directors of publicly held companies can be held accountable. Before addressing this question, we should determine when it is that a director violates her or his duties. This study seeks to bring focus to the accountability system in Saudi Arabia. It investigates a legal defect in that system: the Saudi Companies Law incorporates standards of conduct but lacks standards of review. This study argues that although directors’ duties have been formulated so that there are areas left to be developed by courts, Saudi judges do not retain residual lawmaking powers which they could use to fill a regulatory vacuum. It builds upon empirical evidence to prove the underlying reasons that the context has changed, which ultimately has created the need to reform the Saudi fiduciary duties system. New cases in Saudi Arabia evoke some of the contours of Delaware corporate law. New cases have triggered standards of conduct violations that might be identical to fiduciary violations in Delaware. Therefore, this study proposes to transplant Delaware standards of review to Saudi Arabia. It argues that the contextual change in Saudi Arabia after the establishment of the Capital Market Authority would make this transplant more significant. Closer analysis suggests that both systems are consensus on the shareholder primacy model. This convergence on the shareholder model inevitably ensures a functional convergence in the long run.
