*Essays in International Economics* Jan 31 2020 Written from 1957 through 1978 by one of the foremost authorities in the field of international economics, this collection of Peter Kenen's previously published essays deals with issues in the pure theory of international trade, international monetary theory, and international monetary reform. The essays in Part I, "Trade, Tariffs, and Welfare," concern the roles of tangible and human capital in the determination of trade patterns, the joint determination of demand conditions and trade patterns, the gains from international trade, and the effects of migration on economic welfare. Part II, "International Monetary Theory and Policy," contains essays on the theory of gold-exchange standard, the determination of forward exchange rates, the demand for international reserves, economic integration and the delineation of currency areas, and the process of balance of payments adjustment under pegged and floating exchange rates. The essays in Part III, "Monetary Reform and the Dollar," are arranged in chronological order, from 1963 through 1977, and focus on the problems and progress of international monetary reform and on the functioning of the present international monetary system. Peter B. Kenen is Walker Professor of Economics and International Finance at Princeton University. The Princeton Series of Collected Essays provides facsimile reprints, in paperback and in cloth, of important articles by leading scholars. Originally published in 1981. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905. *Tooning in : Essays on Popular Culture and Education* Apr 15 2021 The scope and theme of Tooning In aim to insert into the debate surrounding so-called 'popular culture' and its role in shaping society specific perspectives regarding popular culture and adolescents' lives. The authors suggest that popular culture is vital to how adolescents make sense of the world and educators should tap into it as a tool for imparting critical thinking skills and generally empowering students. Tooning In critically examines and interprets concepts of popular culture, with the ultimate aim of inviting readers to re-examine the fundamental aspects of popular culture as a societal force.

**Automated Essay Scoring** Jun 17 2021 This new volume is the first to focus entirely on automated essay scoring and evaluation. It is intended to provide a comprehensive overview of the evolution and state-of-the-art of automated essay scoring and evaluation technology across several disciplines, including education, testing and measurement, cognitive science, computer science, and computational linguistics. The development of this technology has led to many questions and concerns. Automated Essay Scoring attempts to address some of these questions including: \*How can automated scoring and evaluation supplement classroom instruction? \*How does the technology actually work? \*Can it improve students' writing? \*How reliable is the technology? \*How can these computing methods be used to develop evaluation tools? \*What are the state-of-the-art essay evaluation technologies and automated scoring systems? Divided into four parts, the first part reviews the teaching of writing and how computers can contribute to it. Part II analyzes actual automated essay scorers including e-rater™, Intellimetric, and the Intelligent Essay Assessor. The third part analyzes related psychometric issues, and the final part reviews innovations in the field. This book is ideal for

researchers and advanced students interested in automated essay scoring from the fields of testing and measurement, education, cognitive science, language, and computational linguistics.

**Essays in Sociological Explanation** Jul 27 2019 Collection of essays on sociology, causation, and pragmatic considerations by one of the leading social scientists of the past half-century. Now republished in quality ebook format with active TOC, linked notes, and proper presentation for ereaders and apps.

**How Law Works: Collected Articles and New Essays** May 17 2021 This book chronicles developments in legal practice, intellectual property, and privacy law from the dawn of the digital age to today's world of social media and cloud technologies. Part autobiography, part legal history, and part philosophy of law, this volume explores a variety of subjects including the nature of legal reasoning, property, privacy, and personal identity. In addition, it tackles larger issues grounded on meticulous research into the legal protection for computer software, the mechanics of software licensing, the use of intellectual property rights in secured lending and trademark selection, registration and maintenance. Hemnes weaves through the complexity of these issues and examines how the promises of the early digital age in the 20th century declined into the rampant factionalism, nationalism, and terrorism of the early 21st century. An indispensable resource for anyone studying the emergence of intellectual property rights as a cornerstone of the modern economy, this book also serves as a foundational reference tool for professors, students, and practitioners of intellectual property. Furthermore, the valuable information contained within its pages; from the very basics of computer software protection to the intricacies of negotiation strategy for indemnification clauses in intellectual property licenses, warrants its place on the library shelves of every practitioner of intellectual property and privacy law and on the reading list of every intellectual property, privacy and jurisprudence course.

**Published Essays, 1966-1985** Jul 19 2021 Published Essays, 1966-1985 includes some of the most trenchant and compelling of Eric Voegelin's work and is an indispensable companion to his Anamnesis and to the fourth and fifth volumes of Order and History, which were prepared for publication during the same period, the last two decades of the author's life. These essays are quintessential Voegelin. Voegelin was an essayist at heart, and the pieces gathered here bear on almost every aspect of his philosophy. They range in subject matter and tone from a scalding critique of the German intellectual establishment during the Hitler period and a satire upon contemporary vulgar culture to magisterial analyses of immortality, reason, and consciousness. The essays also embrace Voegelin's elaboration of the theory of equivalent experiences and symbolizations over human history and his meditation upon the lure of extremes in the rebellion of magic against reason in various modernist attacks on culture. The scope of Voegelin's work is magnified by the collection's final essay, a touching and profound deathbed reflection on God. Running through all the material is Voegelin's conviction that the truly scientific or philosophical life is ordered through an Anselmian *fides quaerens intellectum*, a faith in search of understanding. Thus, the assertion that "all men by nature desire to know," which opens Aristotle's *Metaphysics*, is rightly completed by the words the divine Ground of being. It is the search of the Ground by a mystic philosopher-consciously indebted to such great contemplatives as Plato, Anselm, of Canterbury, Jean Bodin, and Henri Bergson-that distinguishes Voegelin's own pilgrimage through time in partnership with God. Nowhere does this come more powerfully and luminously clear than in the pages of *Published Essays, 1966-1985*.

Papers for Pay Nov 10 2020 A disturbing trend faces education in the U.S.--not plagiarism but academic forgery (students purchasing and signing their names to work produced by others). This book, by a former professional forger, describes the difference between the two and presents case studies along with an expose of the trade. The author provides a thorough treatment of the topic and reveals the serious implications for the future of academia. Educators should educate themselves about forgery and join the conversation about solving the problem.

**The Essay Film** Jul 07 2020 A definitive study of a seminal genre of nonfiction cinema, this book examines the essay film's origins, literary precursors, and works by its greatest practitioners, like Chris Marker, Agnes Varda, Errol Morris, Chantal Akerman, Werner Herzog, and others.

**Spanish Women Writers and the Essay** Sep 28 2019 Never before has a book examined Spanish women and their mastery of the essay. In the groundbreaking collection *Spanish Women Writers and the Essay*, Kathleen M. Glenn and Mercedes Mazquiarán de Rodríguez help to rediscover the neglected genre, which has long been considered a "masculine" form. Taking a feminist perspective, the editors examine why Spanish women have been so drawn to the essay through the decades, from Concepción Arenal's nineteenth-century writings to the modern works of Rosa Montero. Spanish women, historically denied a public voice, have discovered an outlet for their expression via the essay. As essayists, they are granted the authority to address subjects they personally deem important, discuss historical and sociopolitical issues, and denounce female subordination. This genre, which attracts a different

audience than does the novel or poem, allows Spanish women writers to engage in a direct dialogue with their readers. Featuring twelve critical investigations of influential female essayists, *Spanish Women Writers and the Essay* illustrates Spanish women writers' command of the genre, their incorporation of both the ideological and the aesthetic into one concise form, and their skillful use of various strategies for influencing their readers. This fascinating study, which provides English translations for all quotations, will appeal to anyone interested in nineteenth- and twentieth-century Spanish literature, comparative literature, feminist criticism, or women's studies.

**Essays in Honour of Fabio Canova** Feb 11 2021 Both parts of Volume 44 of *Advances in Econometrics* pay tribute to Fabio Canova for his major contributions to economics over the last four decades.

Essays on Actions and Events Jul 31 2022 Donald Davidson has prepared a new edition of his classic 1980 collection of *Essays on Actions and Events*, including two additional essays. In this seminal investigation of the nature of human action, Davidson argues for an ontology which includes events along with persons and other objects. Certain events are identified and explained as actions when they are viewed as caused and rationalized by reasons; these same events, when described in physical, biological, or physiological terms, may be explained by appeal to natural laws. The mental and the physical thus constitute irreducibly discrete ways of explaining and understanding events and their causal relations. Among the topics discussed are: freedom to act; weakness of the will; the logical form of talk about actions, intentions, and causality; the logic of practical reasoning; Hume's theory of the indirect passions; and the nature and limits of decision theory. The introduction, cross-references, and appendices emphasize the relations between the essays and explain how Davidson's views have developed.

*Essays on Significs* Nov 22 2021 Significs is one of those (by no means exclusively) sign theoretically relevant movements which arose at the turn of the century. It established a philosophical tradition which, from its very inception, was interlaced with widely varying movements ranging, for example, from Breal's semantics to Carnap's and Neurath's logical empiricism. In this volume, an international group of well-known scholars from various disciplines undertakes a broad re-evaluation of significs and its development which promises also to yield a better knowledge of research approaches in linguistics, semiotics, philosophy, and psychology with which significs was related or vied for acceptance. Contributions deal with Lady Welby's biography and socio-cultural background, the intellectual context of the signific movement at the turn of the century and the relationships between Welby's semiotic and philosophical ideas on the one hand and those of her contemporaries (Breal, Peirce, Schiller, Vailati etc.) and followers (Ogden, Van Eeden, Mannoury etc.) on the other. Descriptions of the historiographically most important archive materials, a bibliography of publications on Lady Welby and her significs and an index of names conclude the volume.

**The Point of View** Apr 27 2022 Kierkegaard wrote four reflections on his literary production: *On My Work as an Author*, *The Point of View for My Work as an Author*, "The Single Individual," and *Armed Neutrality*, but he published only the first. The essays in this volume of *International Kierkegaard Commentary* examine these writings not just as a public "report to history" but also as a revelation of Kierkegaard's deepest understanding of himself as an author. This volume of the *International Kierkegaard Commentary* is offered to our readers, whom we invite to learn what they can here and then to become our teachers by better research and clearer thinking. Robert L. Perkins (Ph.D., Indiana University), Professor Emeritus and Senior Research Professor at Stetson University, is an international authority on the Danish philosopher Søren Kierkegaard and series editor of the 24-volume *International Kierkegaard Commentary*. Prior to his long career at Stetson, Bob was founder and department head (for 16 years) of the Philosophy Department at Mobile College. His research interests are ethics, contemporary continental philosophy, and ancient philosophy.

**Platinum Essays in the Philosophy of Applied Economics of Development** Feb 23 2022 This book, *Platinum Essays In The Philosophy Of Applied Economics Of Development*, is a collection of interrelated and interconnected essays on applied economics of development with underlying philosophy contents. The topic and areas of coverage were carefully chosen to comprehensively reflect a mandatory range of issues, germane to the understanding, teaching, research, publication and practice of applied economics of development, particularly in medium-to low income emerging markets. There are twenty one chapters each with a topic of major developmental significance in applied economics. Based on the clear and lucid underlying philosophical statements, the broad scope of the applied definitions, analytical and descriptive review of relevant modern and dated literatures, germane to the discourse, observations, recommendations, conclusions and range of ease or otherwise of policy implementations, the key objectives of the book have been achieved.

**Reclamation, Managing Water in the West, The Bureau of Reclamation: History Essays from the Centennial Symposium, Volume 2, 2008, \*** Nov 03 2022

*Handbook of Automated Essay Evaluation* May 29 2022 This comprehensive, interdisciplinary handbook reviews the latest methods and technologies used in automated essay evaluation (AEE) methods and technologies. Highlights include the latest in the evaluation of performance-based writing assessments and recent advances in the teaching of writing, language testing, cognitive psychology, and computational linguistics. This greatly expanded follow-up to *Automated Essay Scoring* reflects the numerous advances that have taken place in the field since 2003 including automated essay scoring and diagnostic feedback. Each chapter features a common structure including an introduction and a conclusion. Ideas for diagnostic and evaluative feedback are sprinkled throughout the book. Highlights of the book's coverage include: The latest research on automated essay evaluation. Descriptions of the major scoring engines including the E-rater®, the Intelligent Essay Assessor, the Intellimetric™ Engine, c-rater™, and LightSIDE. Applications of the uses of the technology including a large scale system used in West Virginia. A systematic framework for evaluating research and technological results. Descriptions of AEE methods that can be replicated for languages other than English as seen in the example from China. Chapters from key researchers in the field. The book opens with an introduction to AEEs and a review of the "best practices" of

teaching writing along with tips on the use of automated analysis in the classroom. Next the book highlights the capabilities and applications of several scoring engines including the E-rater®, the Intelligent Essay Assessor, the Intellimetric™ engine, c-rater™, and LightSIDE. Here readers will find an actual application of the use of an AEE in West Virginia, psychometric issues related to AEEs such as validity, reliability, and scaling, and the use of automated scoring to detect reader drift, grammatical errors, discourse coherence quality, and the impact of human rating on AEEs. A review of the cognitive foundations underlying methods used in AEE is also provided. The book concludes with a comparison of the various AEE systems and speculation about the future of the field in light of current educational policy. Ideal for educators, professionals, curriculum specialists, and administrators responsible for developing writing programs or distance learning curricula, those who teach using AEE technologies, policy makers, and researchers in education, writing, psychometrics, cognitive psychology, and computational linguistics, this book also serves as a reference for graduate courses on automated essay evaluation taught in education, computer science, language, linguistics, and cognitive psychology.

*Technical Association of the Pulp and Paper Industry* Apr 03 2020

Essays in Contemporary Fields of Economics Sep 08 2020 This volume honors Emanuel T. Weiler, the founder and first dean of Purdue University's School of Management and of the Krannert Graduate School of Management. Beginning in the mid-1950s, Weiler created a unique academic environment within which innovative and lasting contributions were made to both the teaching and content of economics and management. Members of the original economics faculty recruited by Weiler as well as several of their students wrote this collection of essays. All but one of the papers were prepared expressly for the volume and have not been published previously. The essays cover diverse areas which evolved from Weiler's leadership. The work has four major topical divisions (Economic Theory, Applied Economics, Macroeconomics, and Economics Education) plus a section of four memoirs.

**Workshops of Empire** Oct 29 2019 During and just after World War II, an influential group of American writers and intellectuals projected a vision for literature that would save the free world. Novels, stories, plays, and poems, they believed, could inoculate weak minds against simplistic totalitarian ideologies, heal the spiritual wounds of global catastrophe, and just maybe prevent the like from happening again. As the Cold War began, high-minded and well-intentioned scholars, critics, and writers from across the political spectrum argued that human values remained crucial to civilization and that such values stood in dire need of formulation and affirmation. Creative writing emerged as a graduate discipline in the United States amid this astonishing swirl of grand conceptions. *Workshops of Empire* explores this history via the careers of Paul Engle at the University of Iowa and Wallace Stegner at Stanford. In the story of these founding fathers of the discipline, Eric Bennett discovers the cultural, political, literary, intellectual, and institutional underpinnings of creative writing programs within the university Book jacket.

**The Best American History Essays 2006** Jun 25 2019 Ten of the best articles in American history published in 2006 selected from over 300 learned and popular journals. Topics range from the general to the specific and cover all aspects of American history, from the early days of the republic through the nineteenth and twentieth centuries. These are the questions that today's historians are asking.

**The Song of the Sirens and Other Essays** Aug 27 2019 In this collection of his essays on Homer, some new and some appearing for the first time in English, the distinguished scholar Pietro Pucci examines the linguistic and rhetorical features of the poet's works. Arguing that there can be no purely historical interpretation, given that the parameters of interpretation are themselves historically determined, Pucci focuses instead on two features of Homer's rhetoric: repetition of expression (formulae) and its effects on meaning, and the issue of intertextuality.

**How I Wrote Jubilee and Other Essays on Life and Literature** May 05 2020 A distinguished black woman writer brings together autobiographical and literary essays, speeches, and other writings that include reminiscences of the young Richard Wright, Walker's battle against racism and sexism, and the creative process

Essays in Macroeconomic Policy Jan 01 2020

**Essays on Mathematical Robotics** Mar 03 2020 This IMA Volume in Mathematics and its Applications **ESSAYS ON MATHEMATICAL ROBOTICS** is based on the proceedings of a workshop that was an integral part of the 1992-93 IMA program on "Control Theory." The workshop featured a mathematical introduction to kinematics and fine motion planning; dynamics and control of kinematically redundant robot arms including snake-like robots, multi-fingered robotic hands; methods of non-holonomic motion planning for space robots, multifingered robot hands and mobile robots; new techniques in analytical mechanics for writing the dynamics of complicated multi-body systems subject to constraints on angular momentum or other non-holonomic constraints. In addition to papers representing proceedings of the Workshop, this volume contains several longer papers surveying developments of the intervening years. We thank John Baillieul, Shankar S. Sastry, and Hector J. Sussmann for organizing the workshop and editing the proceedings. We also take this opportunity to thank the National Science Foundation and the Army Research Office, whose financial support made the workshop possible. Avner Friedman Willard Miller, Jr.

**Three Essays in International Finance** Aug 08 2020 This thesis consists of three essays on international finance. The first essay is "Exchange rates and Fundamentals". A new open interest rate parity condition that takes account of economic fundamentals is developed from stochastic discount factors (SDFs) of two countries. Through this parity condition, business cycles or fundamentals are linked to exchange rates. Key empirical findings from this parity condition are as follows. First, this model beats the random walk hypothesis: economic fundamentals explain exchange rate movements for high interest rate currencies. Exchange rates of low interest rate currencies act like a random walk because they are less correlated

with fundamentals owing to their low risk. For example, U.S. business cycles explain the direction of changes in exchange rates against the dollar. The same thing is true for Japan. Second, this model resolves the forward premium puzzle: the forward premium puzzle is not a general characteristic as regarded in previous studies. It happens when the risk awareness of investors is low, during economic expansions and for low risk currencies. The second essay is "Carry Trade and Global Financial Instability". Carry trade, an opportunistic investment strategy that takes advantage of interest rate differential across countries, is identified the cause of the large-scale depreciations of peripheral currencies in the later half of 2008. A simultaneous equations model, which is derived from a conceptual partial equilibrium model for a local foreign exchange market, is estimated from a cross-sectional sample. The results suggest that the larger appreciation of the yen than the dollar was brought about by a lack of the local supply of the yen rather than a more severe crunch of yen credits. The third essay is "The Economic Origin of Letters of Credit". This essay discusses the economic origin of letters of credit, an instrument widely used in international trade. A game theoretical analysis shows that letters of credit improve efficiency in trade settlements, increasing returns in trade. A few notable facts on letters of credit are discussed. First, the new institution is adopted by merchant banks to maximize their profits and in the process, an improvement in efficiency of international transactions is obtained. Second, the organization established by the legacy institution, bills of exchange, played a critical role in adopting the new institution. Third, the legal enforcement is not essential in this economic institution. Finally, two drivers are identified that improve efficiency of transactions: concentration and projection.

**Essays on Interest, Exchange, Coins, Paper Money, and Banks** Jun 29 2022

**Nine Essays on Homer** Nov 30 2019 The essays in this collection addresses questions of intense interest in Homeric studies today: the questions of performance and poet-audience interaction, especially as depicted in idealized performances within the Iliad and the Odyssey; the ways in which epic incorporates material of diverse genres, such as women's laments, blame poetry, or folk tales; how the ideological balance of epic can change and be influenced by 'alternative ideologies' introduced through the incorporation of new material; the implications of the continuity of tradition for etymological studies; and how the traditional nature of epic affects textual criticism. The essays differ in focus and method, but all share one fundamental approach to Homer: an understanding of the Homeric tradition as a poetic system that expresses and preserves what is culturally important and a view of the Homeric epics as instances of a cultural tradition which they attempt to explore through the epics themselves and through the comparative, anthropological, and linguistic evidence they bring to bear on these texts. A unique collection that explores Homeric poetry through a variety of tools and approaches--linguistics, philology, cultural anthropology, sociology, textual criticism, and archeology--this volume will be of interest to all scholars and students of oral poetry and Classical literature.

*Graphic Arts Monthly and the Printing Industry* Jan 25 2022

*Philosophical Essays* Oct 10 2020 Antony Flew is one of the most well-known and respected philosophers alive today. In *Philosophical Essays*, twelve of Flew's most significant works are gathered together for the first time, creating a unique and valuable collection. The book begins with a new autobiographical sketch of Flew's life and career. In addition to some of the distinguished scholar's most influential and famous articles, *Philosophical Essays* includes a number of rare works that have not been available to a wide audience until now. This important book will be an essential addition to the library of any philosopher.

Ciardi Himself: Fifteen Essays on Reading, Writing, and Teaching Poetry (c) Mar 27 2022 Essays reveal the author's thoughts on the painstaking craftsmanship involved in the art of writing poetry
