[Imagined Democracies](#) Sep 30 2022 This book proposes a revisionist approach to democratic politics. Yaron Ezrahi focuses on the creative unconscious collective imagination that generates ever-changing visions of legitimate power and authority, which compete for enactment and institutionalization in the political arena. If, in the past, political authority was grounded in fictions such as the divine right of kings, the laws of nature, historical determinism and scientism, today the space of democratic politics is filled with multiple alternative social imaginaries of the desirable political order. Exposure to electronic mass media has made contemporary democratic publics more aware that credible popular fictions have greater impact on shaping our political realities than do rational social choices or moral arguments. The pressing political question in contemporary democracy is, therefore, how to select and enact political fictions that promote peace and how to found the political order on checks and balances between alternative political imaginaries of freedom and justice.

**From Babel to Dragomans** Aug 30 2022 A collection of the most important essays on past and current history by the Western world's foremost Islamic scholar Bernard Lewis has charted the great centuries of Islamic power and civilisation but also, in his recent books WHAT WENT WRONG? and THE CRISIS OF ISLAM, Islam's calamitous and bitter decline. This book collects together his most interesting and significant essays, papers, reviews and lectures. They range from historical subjects such as religion and politics in Islam and Judaism, the culture and people of Iran, the great mosques of Istanbul, Middle Eastern food and feasts, the Mughals and the Ottomans, the rise and fall of British power in the Middle East and North Africa, Islam and racism - to current history such as the significance of Saddam Hussein and Osama bin Laden. Includes discussion of the problems of Western historians dealing with the Islamic world.

**Interview Questions In C Programming** Nov 01 2022 As most of you are aware, the road to a successful career in Software starts with a series of Written Technical Tests conducted by most IT companies in India. These companies test you fundamental skills in programming and design in three major areas- C Programming, Data Structures and C++ Programming. Most of you may have prepared for that "dream test" without knowing the exact pattern, the level and the difficulty of questions that appear in such tests. As a result, you are not able to give your best performance in these tests. This "Interview Questions" series addresses these concerns and is aimed at giving you the necessary practice and confidence to help you crack these tests. This series presents a whole gamut on questions on different topics in each of these three subjects- C, DS and C++. This volume is dedicated to topics like : Contents Data types Operators Pointers Advanced Storage Classes Arrays Structures Control Instructions Functions Pointer Concepts Preprocessor Directives Strings Unions

**The Paths We Choose** Jan 23 2022 Godsmack's founder and front man Sully Erna has been immersed in the world of rock ever since he got his first drum set. Given his achievements, that early start might suggest that his career was a straight shot to the top. The truth is, Erna took so many detours during the years between his first instrument and Godsmack's first contract that, more than once, he nearly forgot his destination. In The Paths We Choose, he relates the turbulent story of his life before the platinum albums and packed arenas. Sully's story shows us that whatever hardship we may face, ultimately, our choices determine our destiny. He's made the most of every advantage and obstacle he has faced, and reminds us that we can, too. For Sully, success is not an ultimate destination. Every day brings a new fork in the road, another path to choose
