Statistics: Learning from Data Jun 13 2021 STATISTICS: LEARNING FROM DATA, Second Edition, helps you learn to think like a statistician. It pays particular attention to areas that students often struggle with -- probability, hypothesis testing, and selecting an appropriate method of analysis. Supported by learning objectives, real-data examples and exercises, and technology notes, this book helps you to develop conceptual understanding, mechanical proficiency, and the ability to put knowledge into practice. Musical Classroom Feb 09 2021 With this Eighth Edition, The Musical Classroom celebrates thirty years as a leading resource for future and in-service teachers as they engage children in the exciting world of music! Teachers, with the help of this user-friendly text, can develop the understandings and skills needed to teach elementary school music. The forty-four model lessons are the centerpiece to the book's long-lasting success. A collection of over 170 children's songs from around the world; instructional information for learning to play the recorder, keyboard, guitar, and Autoharp(TM); and the theoretical, pedagogical, and practical backgrounds needed for reaching all learners complete the comprehensive resource of The Musical Classroom. Note: This is the standalone book. If you want the accompanying audio CD, order the ISBN 9781138656703, which is available for separate sale.
