[The Complete Catalogue of the Mini](#) May 15 2021 During its extraordinarily long 40-year production run, the Mini was offered in hundreds of variants. First there was the standard Austin Seven and Morris Mini-Minor saloon, van, pick-up and estate versions. Then came a whole family of Mini-Coopers, the upmarket Wolseley and Riley the Moke and the Clubman. Later, in the 1980s and '90s, there were no less than 41 UK Limited Editions, with exotic names like Ritz and Tahiti, and 56 International Editions for specific export markets, for example the Mr Bean for Japan and the Cooper Silver Bullet for Germany. Minis were also built in many countries, from Australia and Uruguay, with their own modifications. And there were the distinctive and expensive coach built Minis, beloved of film and pop stars, from firms like Pickett, Bertone, Radford, Tickford and others, including the fearsome ERA Mini Turbo. Absolutely all of these Minis are covered in this book, with photographs, drawings, specifications, performance figures, and production dates and numbers. Whether you want to look up or identify a particular Mini or simply absorb the enormous variety of the Mini's incarnations, this, never attempted before, is the book.

[Morris Minor Traveller](#) Dec 10 2020 For more than half a century the Morris Minor Traveller has been a familiar feature of rural and small-town Britain. Unpretentious, uncompromising, half-timbered in an age of sleek pressed steel, Travellers were to be seen everywhere, laden with schoolchildren, dogs, jumble for the jumble sale, bravely along at no great speed. Ray Newell is the unchallenged authority on Minor matters, and here he begins by providing in-depth descriptions of the 803cc 1098cc Traveller models, with details of production and specification changes. Next he looks at special purpose versions as used by, among others, the armed forces, coastguard and even the Barbados police. Then comes a section on one-off Travellers including an intriguing three-door conversion first built in the early 1950s. Traveller owners have had to face the need for replacement of the timber framework of the body, a major undertaking, and an outstanding feature of this book is by Steve Forman devoted to this task, which is set out in step-by-step format with accompanying photographs. The final section of the book deals with upgrades to bring the Minor's performance, braking and suspension up to more modern standards. These include engine replacements, five-speed gearboxes and disc brakes and less radical modifications. With some 300 colour and black-and-white illustrations accompanying the text, this is truly the owner's complete companion to the Morris Minor Traveller.

[Vehicle Engineering Series](#) Jan 29 2020 This book fits somewhere between a service parts list and a workshop manual. The intention is to provide information about Australian Morris Cooper S that will provide a historical record of how the vehicle was constructed, as well as detailed parts identification information for those undertaking restoration. With excerpts from over 500 of the original factory drawings, this book presents an unprecedented level of detail much of which has never been seen. Viewing the information in this book, the reader will readily appreciate the incredible effort expended by the company during the design and construction of these historic vehicles.

[Mini](#) Aug 18 2021 A second revised edition of a purchase and restoration guide to the Mini. Updated with a new section on rebuilding a car with a Rover Group bodyshell. Last published in 1984.

[The Self Preservation Society](#) Nov 28 2019 This year marks the 50th anniversary of the British cult classic movie The Italian Job. This landmark anniversary presents a unique opportunity to celebrate the film with a coffee table book packed full of images, insights and revelations. Loaded with Sixties swagger, and famed for its quotable dialogue and one of the most impressive car chases in movie history, The Italian Job is the ultimate celebration of 'cool Britannia'. From the opening scene of Rossano Brazzi gliding through the Alps in an orange Lamborghini Miura, to the high-speed getaway across the city of Turin in three Mini Coopers, The Italian Job is the petrolhead's dream. The Self Preservation Society will detail how all these cars, including the Aston Martin DB4 and E-Type Jaguars were found and ultimately where they are today. Over the last 20 years, author Matthew Field has interviewed all the key people involved in the 1969 production. Through him, their stories are revealed for the first time. Based on more than 50 in-depth interviews with the cast and crew, and lavishly illustrated with hundreds of never-before-seen photographs and documents, this definitive book will explode some myths, include a few revelations and tell the fascinating full story of this perennially popular movie.
