Boatbuilding in the Back Yard
Feb 01 2020 This book is my
personal journal of my
boatbuilding project. I hope it

will be useful to anyone
considering undertaking such a
task. I'm not an expert by any
stretch of the imagination
when it comes to building a
boat. I'm strictly an amateur
builder with very little
experience. I've built a couple
small boats when I was
younger. I helped my dad and
brother build a little runabout
and I built a johnboat in my
living room one time, but other
than that, I have only done
routine carpenter and cabinet
type work building houses. I do
not possess any special skills or
education, which makes this
task easy for me. I learned a lot
about boats in the service

where I was a vessel master for
the US Army. I got my masters
certificate, which qualified me
to operate unlimited tonnage
open ocean vessels for the
military. These are the sum
total of my qualifications to try
to build a boat. I'm not saying it
isn't a formidable task no
matter your qualifications, just
that if I can do it, anyone can.
