*Shadow Philosophy: Plato's Cave and Cinema* Jun 16 2021 *Shadow Philosophy: Plato's Cave and Cinema* is an accessible and exciting new contribution to film-philosophy, which shows that to take film seriously is also to engage with the fundamental questions of philosophy. Nathan Andersen brings Stanley Kubrick's film *A Clockwork Orange* into philosophical conversation with Plato's *Republic*, comparing their contributions to themes such as the nature of experience and meaning, the character of justice, the contrast between appearance and reality, the importance of art, and the impact of images. At the heart of the book is a novel account of the analogy between Plato's allegory of the cave and cinema, developed in conjunction with a provocative interpretation of the most powerful image from *A Clockwork Orange*, in which the lead character is strapped to a chair and forced to watch violent films. Key features of the book include: a comprehensive bibliography of suggested readings on Plato, on film, on philosophy, and on the philosophy of film a list of suggested films that can be explored following the approach in this book, including brief descriptions of each film, and suggestions regarding its philosophical implications a summary of Plato's *Republic*, book by book, highlighting both dramatic context and subject matter. Offering a close reading of the controversial classic film *A Clockwork Orange*, and an introductory account of the central themes of the philosophical classic *The Republic*, this book will be of interest to both scholars and students of philosophy and film, as well as to readers of Plato and fans of Stanley Kubrick.

*Writing in the Shadow* Oct 21 2021 The first complete national and international survey in the English language of the clandestine newspapers and books published in the occupied countries of Europe during the Second World War. A man with earphones crouching in the attic listening in with a crystal set, a prisoner writing fearfully even in the condemned cell, youths taking courses in weightlifting so as to be able to carry cases of lead type with apparent ease: these are just some of the people who helped produce clandestine newspapers and books in the occupied countries of Europe during the Second World War. *Writing in the Shadow* describes the risks these people ran and the ingenuity and brilliant improvisation they used to hoodwink the Nazis and distribute newsletters to tens of thousands of people.

*Shadow Distance* May 28 2022 Author of *The Heirs of Columbus*, *Hotline Healers*, *Interior Landscapes*, *Crossbloods*, and numerous other works, Gerald Vizenor is one of the century's most important and prolific Native American writers. Drawing on the best work of an acclaimed career, *Shadow Distance: A Gerald Vizenor Reader* reveals the wide range of his imagination and the evolution of his central themes. This compelling collection includes not only selections from Vizenor's innovative fiction, but also poetry, autobiography, essays, journalism, and the previously unpublished screenplay "Harold of Orange," winner of the Film-in-the-Cities national screenwriting competition. Whether focusing on Native American tricksters or legal and financial claims of tribal sovereignty, Vizenor continually underscores the diversities of modern traditions, the mixed ethnicity that characterizes those who claim Native American origin, and cultural permeability of an increasingly commercial, global world. A. Robert Lee of the University of Kent at Canterbury, England, provides a lucid introduction to this writer whose "radically self-aware and contemporary satiric tricksterism . . . as easily invokes Jabés, Barthes, Lyotard, or Foucault as bear ceremonial, ghost dance, or dream-catcher."

*Bringing Your Shadow Out of the Dark* Oct 01 2022 "Our shadow," teaches Robert Augustus Masters, "is our internal storehouse for the parts of us that we've disowned or rejected, or are otherwise keeping in the dark." Everyone has a shadow, but all too many of us are unaware of it. It holds the feelings and beliefs that we are most ashamed of or cannot accept about ourselves. For some, it may contain unacknowledged anger or grief. For others, pain or fear. Our shadow contains our unfaced conditioning. And the more unaware we are of our shadow, the more it influences and controls us. Based upon Masters's four decades as a psychospiritual therapist and guide, *Bringing Your Shadow Out of the Dark* invites readers to understand and skillfully work with this rich yet neglected dimension of ourselves. With depth and clarity, he illuminates the process of meeting our shadow in beneficial ways, and how we can embody a more complete and life-giving experience of who we are. In this book you'll discover:

- The nature of our shadow and how to optimally work with it—exploring our conditioning and core shadow elements, including in the domains of shame, fear, aggression, resistance, addiction, death, and spirituality
- How to work with the child within, self-sabotage, narcissism, sexuality, dreams, and other matters deeply influenced by our shadow
- Why turning toward our pain is an essential part of shadow work—making wise use of our pain
- Collective shadow domains we share with family, social groups, political party, or nation—bringing them and their associated traumas into the light

When we uncover and work in-depth with our shadow, we free ourselves from its control and gain the opportunity to put its contents to work for us instead of allowing them to work against us. *Bringing Your Shadow Out of the Dark* shows us how to navigate the full terrain of our emotions, drives, needs, and depths of who we are. Foreword by Lissa Rankin, MD, New York Times bestselling author of *Mind Over Medicine*, *The Fear Cure*, and *The Anatomy of a Calling*.

*Shadow Banking and the Rise of Capitalism in China* Sep 27 2019 This book is about the growth of shadow banking in China and the rise of China's free markets. Shadow Banking refers to capital that is distributed outside the formal banking system, including everything from Mom and Pop lending shops to online credit to giant state owned banks called Trusts. They have grown from a fraction of the economy ten years ago to nearly half of all China's annual Rmb 25 trillion (\$4.1 trillion) in lending in the economy today. Shadow Banks are a new aspect of capitalism in China – barely regulated, highly risky, yet tolerated by Beijing. They have been permitted to flourish because many

companies cannot get access to formal bank loans. It is the Wild West of banking in China. If we define capitalism as economic activity controlled by the private sector, then Shadow Banking is still in a hybrid stage, a halfway house between the state and the private economic. But it is precisely this divide that makes Shadow Banking an important to the rise of capitalism. How Beijing handles this large free market will say a lot about how the country's economy will grow – will free markets be granted greater leeway?
