A Warrior's Path Dec 13 2020 This is my personal journey through one of the greatest warrior and leadership cultures of today, which ultimately provided me with defining leadership characteristics and the skills of a serious warrior. Nobody is born a great leader, they are made through hard work and determination. My first Indian name given to me by the medicine man when I was a child was Bobcat. As I grew and became a young man, I returned home from my first combat experience and was given my warrior's name, Evergreen Mountain. I am an American, first and foremost, but I am also a Pueblo and Yaqui Indian. I am a former member of the US Army's 18th Airborne Corps, 75th Ranger Regiment, and spent most of my career as an operational member of a Special Missions Unit under the United States Army Special Operations Command. These are some of my most important leadership lessons learned from the battlefield of the war on terror. It is my sincere hope that this book serves as a resource and a compass, providing direction and guidance for individuals seeking or in a leadership position.

Six Paths to Leadership Aug 01 2022 The paths that leaders walk significantly influence their success, offering differential opportunities and challenges. While conventional wisdom suggests that leadership styles and approaches may be equally effective across all situations, more recent research demonstrates the importance of employing strategies more specifically aligned with the

context. This book offers critical insights and strategies, currently missing from the repertoire of leaders and their supporters, for managing across six distinct paths into leadership positions: promoted, hired, elected, appointed, founded, and family legacy. It illustrates lessons drawn from within and across paths, presented through themes, quotes, and stories drawn from interviews with over 60 successful leaders (executives, politicians, entrepreneurs, and more). While it is evident that these paths differ, those who study, hire, mentor, and coach leaders rarely consider the distinctions, nor suggest what may be learned across the paths. The emerging leaders, HR professionals, researchers, and coaches among the book's readers will learn not only from those who have walked one particular path, but also from the experiences of those trekking in other directions. Most leaders will cross from one path to another over the course of their career. Some executives interviewed for the book worked their way up the ladder in one company, only to be recruited to fill a C-suite position in another company. Others were appointed to high-level government positions after stints as elected officials. The authors identify major distinctions when moving across the six paths. By reading this book, leaders and those who support them will develop greater self-awareness about each path so they can better leverage and manage their new challenges and opportunities from the first day in their new leadership position.

The Rejected Stone Aug 28 2019 This New York Times bestseller is for anyone who has ever faced intense obstacles. It's for anyone who has ever been doubted. It's for anyone who has ever dreamed great ambition. And it's for all those who want to continue building a greater tomorrow. Lord knows, Rev. Al has had his personal and very public ups and downs—but he's come out bigger and better than ever. Though the host of MSNBC's PoliticsNation is as fiery and outspoken as ever about the events and issues that matter most, he's learned that the only way we can get right as a nation is by getting right from within. In this, his first book in over a decade, Rev. Al will take you behind the scenes of some unexpected places—from officiating Michael Jackson's funeral, to hanging out with Jay-Z and President Barack Obama at the White House, to taking charge of the Trayvon Martin case. And he will discuss how he came to his unexpected conclusions in such areas as immigration, gay rights, religion, and the family. But the heart of the book is an intimate discussion of his own personal evolution from street activist, pulpit provocateur, and civil rights leader to the man he is

today—one hundred pounds slimmer, and according to the New York Observer, “the most thoughtful voice on cable.” No, the Rev. Al you met ten years ago isn't the same man you'll meet today. And he has a simple promise. We can transform this nation and we can all lead better lives if we're willing to transform our hearts and transform our minds. “I hope when you put down this book, that you don't see Al Sharpton differently, but that you instead see yourself differently.” —Rev. Al Sharpton

Path to Leadership Dec 01 2019 Why do some change initiatives lead to renewal in one company and more of the same performance in another? Or why do two-thirds of all corporate acquisitions fail to live up to the acquiring company's expectations? Tried and tested leadership always makes the difference, and people must buy into the leader before they can buy into his vision. The leader finds the vision and then looks for the people; the people find the leader and then look for the vision.

The Walking Leader May 18 2021 The Walking Leader is a collection of 20 rules that anyone in any organization, company, group, or department can follow now to help lead them down the path of leadership greatness. The Walking Leader deals with the fact that everyone who wants to succeed within any organization must get out from behind their desk, out of their office or cubicle and walk around the entire organization. While this is a great idea however, over the years there was nothing formally put down on paper as to what to do once someone got out and about the company floor. Lacking any guide, the 20 rules of the Walking Leader were created to ensure that any one that decides to go out for a walk knows they have permission to go out there and do it, and if they need a guide, here it is! He describes three basic shifts of mind required if we are to create and discover an unfolding future—shifts in how we see the world, how we understand relationships, and how we make commitments—and offers a new definition of leadership that applies to all types of leaders. “A deeply personal and moving narrative that opens up new vistas on compassion, commitment, and connectedness—and hence on leadership.” —James MacGregor Burns, Pulitzer Prize-winning presidential biographer and Woodrow Wilson Professor of Government, Emeritus, Williams College “An insightful, profound, and readable contribution to understanding the personal side of leadership.” —Rosabeth Moss Kanter, Ernest L.
