Turnbull celebrates Australia as ‘the most successful multicultural nation in the world’. This is a grand claim and important to a sense of identity and belonging, but at times it seems that multiculturalism is more an article of faith than a work in progress. What it really means in the twenty-first century is the focus of Griffith Review 61: Who We Are, which will examine both the opportunities offered and the complexities involved. The nation’s population has virtually doubled since 1975, and in recent years the rules around migration have been altered significantly. Those who have chosen to

make their home here in the past have changed Australia, and waves of new arrivals continue to transform the country. Yet the apparent certainties of Australia as a permanent settler society are giving way to the precarious churn of temporary migration. This edition will give voice to this changing reality, explore the big issues of belonging, citizenship and participation, and tease out how contemporary Australia might evolve. This is a rich field, replete with policy questions and personal narratives. It is a success story, but the full picture

is complex, and past achievements no guarantee of future results. The nation's boundaries are imaginary as much as physical, and constantly contested by an unsettled history and a shifting present. Renewed assertions of national identity run parallel to the increasing globalisation of opportunity and threat, as if the more fluid the world becomes, the greater the urge to hold onto something fixed and stable. Yet do we really know who 'we' are? Where does Australia begin and end? Who can claim to belong and who can be legitimately excluded? Julianne

This is an electrifying debut novel about three unforgettable characters who find their lives entangled in the wake of a catastrophe. They seek to rise-to the middle class, to political power, to fame in the movies. One is Jivan, a Muslim girl from the slums accused of executing a

terrorist attack on a train because of a careless comment on Facebook. The second is PT Sir, an opportunistic gym teacher who hitches his aspirations to a right-wing political party, only to find his own ascent linked to Jivan's fall. And the third is Lovely, an irresistible outcast who has an alibi that can set Jivan free-but at the cost of everything she holds dear. Automatic Text Simplification Aug 12 2021 Thanks to the availability of texts on the Web in recent years, increased knowledge and information have been made available to broader audiences.

However, the way in which a text is written—its vocabulary, its syntax—can be difficult to read and understand for many people,

with poor literacy, cognitive or linguistic impairment, or those with limited knowledge of the language of the text. Texts containing uncommon words or long and complicated sentences can be difficult to read and understand by people as well as difficult to analyze by machines. Automatic text simplification is the process of transforming a text into another text which, ideally conveying the same message, will be easier to read and understand by a broader audience. The process usually involves the replacement of difficult or unknown phrases with

simpler equivalents and the transformation of long and syntactically complex sentences into shorter and less complex ones. Automatic text simplification, a research topic which started 20 years ago, now has taken on a central role in natural language processing research not only because of the interesting challenges it poses but also because of its social implications. This book presents past and current research in text simplification, exploring key issues including automatic readability assessment, lexical simplification, and syntactic simplification.

Bright Boulevards, Bold Dreams

Oct 22 2019 In *Bright Boulevards, Bold Dreams*, Donald Bogle tells—for the first time—the story of a place both mythic and real: Black Hollywood. Spanning sixty years, this deliciously entertaining history uncovers the audacious manner in which many blacks made a place for themselves in an industry that originally had no place for them. Through interviews and the personal recollections of Hollywood luminaries, Bogle pieces together a

remarkable history that remains largely obscure to this day.
