**Eyewitness Auschwitz** Dec 22 2021 Filip Müller came to Auschwitz with one of the earliest transports from Slovakia in April 1942 and began working in the gassing installations and crematoria in May. He was still alive when the gassings ceased in November 1944. He saw millions come and disappear; by sheer luck he survived. Müller is neither a historian nor a psychologist; he is a source—one of the few prisoners who saw the Jewish people die and lived to tell about it. *Eyewitness Auschwitz* is one of the key documents of the Holocaust.

**Tariffs and the Future of Trade** Dec 10 2020 With the introduction of significant tariffs on Chinese goods in 2018 and the resultant talk of a trade war between the United States and China, critical analysis has renewed itself on the usefulness of tariffs. Your readers will analyze whether tariffs are an effective means of political influence. They'll survey what effect tariffs will have on the domestic and global economy, and how tariffs will ultimately impact the future of trade. This volume offers opposing perspectives on tariffs and trade wars, further providing context on historical tariffs and global trade.

**The Cultural Encyclopedia of Baseball, 2d ed.** Mar 01 2020 More than any other sport, baseball has developed its own niche

in America's culture and psyche. Some researchers spend years on detailed statistical analyses of minute parts of the game, while others wax poetic about its players and plays. Many trace the beginnings of the civil rights movement in part to the Major Leagues' decision to integrate, and the words and phrases of the game (for example, pinch-hitter and out in left field) have become common in our everyday language. From AARON, HENRY onward, this book covers all of what might be called the cultural aspects of baseball (as opposed to the number-rich statistical information so widely available elsewhere). Biographical sketches of all Hall of Fame players, owners, executives and umpires, as well as many of the sportswriters and broadcasters who have won the Spink and Frick awards, join entries for teams, owners, commissioners and league presidents. Advertising, agents, drafts, illegal substances, minor leagues, oldest players, perfect games, retired uniform numbers, superstitions, tripleheaders, and youngest players are among the thousands of entries herein. Most entries open with a topical quote and conclude with a brief bibliography of sources for further research. The whole work is exhaustively indexed and includes 119 photographs.

Planning and Using Time in the Foundation Stage Nov 20 2021 Operating on two levels, this book aims to help students and practitioners understand how to plan and use time effectively within the foundation stage setting. The book examines how children learn and play at different times of day, how they function when they might be tired or hungry and how best to organize the learning day with this in mind. The authors discuss the issue of environment, how children relate to different areas within their own room, and what happens when routines of time and place are altered. The book also discusses how to develop children's understanding of time and how to incorporate the theme of time into children's play. The book includes: practical activities and examples that will allow children to fully comprehend the concept of time advice on how to create time for children to learn through play, inquiry and investigation sections on how time can be used to include parents, colleagues and the local community. This book provides in-depth analysis of how effective use of time can be beneficial for parents, children and staff in early years setting.

**Connecting Democracy** Nov 08 2020 An investigation of the effect of government online forums on democratic practices in the United States and Europe. The global explosion of online activity is steadily transforming the relationship between government and the public. The first wave of change, "e-government," enlisted the Internet to improve management and the delivery of services. More recently, "e-democracy" has aimed to enhance democracy itself using digital information and communication technology. One notable example of e-democratic practice is the government-sponsored (or government-authorized) online forum for public input on policymaking. This book investigates these "online consultations" and their effect on democratic practice in the United States and Europe, examining the potential of Internet-enabled policy forums to enrich democratic citizenship. The book first situates the online consultation phenomenon in a conceptual framework that takes into account the contemporary media environment and the flow of political communication; then offers a multifaceted look at the experience of online consultation participants in the United States, the United Kingdom, and France; and finally explores the legal architecture of U.S. and E. U. online consultation. As the contributors make clear, online consultations are not simply dialogues between citizens and government but constitute networked communications involving citizens, government, technicians, civil society organizations, and the media. The topics examined are especially relevant today, in light of the Obama administration's innovations in online citizen involvement.
