Technical questions and answers for job interview Offshore Drilling Platforms Sep 10 2020 This book offers you a brief, but very involved look into the operations in the drilling of an oil & gas wells that will help you to be prepared for job interview at oil & gas companies. From start to finish, you'll see a general prognosis of the drilling process. If you are new to the oil & gas industry, you'll enjoy having a leg up with the knowledge of these processes. If you are a seasoned oil & gas person, you'll enjoy reading what you may or may not know in these pages. This course provides a non-technical overview of the phases, operations and terminology used on offshore drilling platforms. It is intended also for non-drilling personnel who work in the offshore drilling, exploration and production industry. This includes marine and logistics personnel, accounting, administrative and support staff, environmental professionals, etc. No prior experience or knowledge of drilling operations is required. This course will provide participants a better understanding of the issues faced in all aspects of drilling operations, with a particular focus on the unique aspects of offshore operations.

Journals of the House of Commons Jul 01 2022

Burning Questions Jun 19 2021 Fire suppression caused a surfeit of natural fuels in our forests, cumulating in the increasingly severe, uncontrollable fires of recent years: the fires in Yellowstone, the Oakland Hills fires, Los Alamos, and the summers of 2000 and 2001. Carle explores 100 years of controversy over prescribed burning--using fire as a tool--and fire suppression, using the voices of early advocates and today's proponents to examine the strategy of controlled burning.

Beyond the City Limits Aug 10 2020 The essays in Beyond the City Limits, all published here for the first time, decisively break this silence and challenge traditional readings of B.C. history. In this wide-ranging collection, R.W. Sandwell draws together a distinguished group of contributors who bring expertise, methodologies, and theoretical perspectives taken from social and political history, environmental studies, cultural geography, and anthropology. They discuss such diverse topics as Aboriginal-White settler relations on Vancouver Island, pimping and violence in northern BC, and the triumph of the coddling moth over Okanagan orchardists, to show that a narrow emphasis on resource extraction, capitalist labour relations, and urban society is simply not broad enough to adequately describe those who populated the province's history.

Governing through Crime in South Africa Aug 22 2021 This book deals with the historic transition to democracy in South Africa and its impact upon crime and punishment. It examines how the problem of crime has emerged as a major issue to be governed in post-apartheid South Africa. Having undergone a dramatic transition from authoritarianism to democracy, from a white minority to black majority government, South Africa provides rich material on the role that political authority, and challenges to it, play in the construction of crime and criminality. As such, the study is about the socio-cultural and political significance of crime and punishment in the context of a change of regime. The work uses the South African case study to examine a question of wider interest, namely the politics of punishment and race in neoliberalizing regimes. It provides interesting and illuminating empirical material to the broader debate on crime control in post-welfare/neoliberalizing/post transition polities.

The Elgar Companion to Innovation and Knowledge Creation Jul 09 2020

This unique Companion provides a comprehensive overview and critical evaluation of existing conceptualizations and new developments in innovation research. It draws on multiple perspectives of innovation, knowledge and creativity from economics, geography, history, management, political science and sociology. The Companion brings together leading scholars to reflect upon innovation as a concept (Part I), innovation and institutions (Part II), innovation and creativity (Part III), innovation, networking and communities (Part IV), innovation in permanent spatial settings (Part V), innovation in temporary, virtual and open settings (Part VI), innovation, entrepreneurship and market making (Part VII), and the governance and management of innovation (Part VIII).
